

# Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Of all the diseases known, with which women are afflicted, kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives. Being fully aware of this, Mrs. Pinkham early in her career gave exhaustive study to the subject, and in producing her great remedy for woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so-called remedies for kidney troubles, Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the female organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing down pains, urine too frequent, scanty or high colored, protruding scapulae or burning, or deposits like bricks, dust in it; unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back running down the inside of her groin, she may be sure her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.

Lydia E. Pinkham's Vegetable Compound: a Woman's Remedy for Woman's ills.

# LEGISLATURE of NEBRASKA

A Synopsis of Proceedings of the Twenty-Ninth General Session.

**SENATE**—The senate on the 28th was busy with passage of bills, among them being the following: S. F. 95, providing that judgments shall become dormant in five years; S. F. 36, providing that railroads shall keep open for the convenience of the public suitable waiting rooms at stations; S. F. 155, providing that it is unlawful to kill squirrels; S. F. 123, providing for appeals to the district court from the decision of a board of equalization; S. F. 55, providing that banks in towns of 400 shall have a capital stock of \$5,000; S. F. 139, providing that the number of pounds contained in a sack of four or cereals shall be stamped on the outside of the sack; S. F. 181, allows road districts to vote a 25 mill levy for the improvement of roads; S. F. 76, Brasse's bill to divide the fourteenth judicial district; H. R. 14, allows villages to buy land for parks; in the committee of the whole with Epperson in the chair, the senate killed H. R. 29, the bill to pay for the bond of former Attorney General Prout; H. R. 118, the object of which is to do away with professional jurors, was recommended for passage. The bill to create a state board of pardons was indefinitely postponed.

**HOUSE**—The house on the 28th the fourth day of the session, passed these bills: H. R. 174, by Anderson of Douglas—A joint memorial to determine the true status of the Nebraska territorial militia; H. R. 179, by Douglas of Rock—Providing for salary of school superintendents in certain counties; H. R. 129, by McClay of Lincoln—Providing for burial of inmates of state institutions in the state cemetery at Lincoln; H. R. 129, by Dodge of Douglas—Providing for the detachment of unplatted land from corporate limits to exempt it from local taxes; Emergency H. R. 194, by Rouse of Hall—Providing for the payment by the state of the premium on bonds of the county treasurer where such bonds are executed by a surety company authorized by the laws of Nebraska to execute such bonds, such premium not in any instance to exceed 1/2 of 1 per cent per annum of the penalty stated in the bond; H. R. 224, by Peabody of Nemaha—Providing for the organization and maintenance of drainage districts; H. R. 191, by McClay of Lancaster—To print all biennial state officers' reports in one compilation. A large number of bills were introduced, it being the last day for such opportunity. Among them were the following: S. F. 248, by Thomas of Douglas—To create a county controller; S. F. 249, by Sheldons of Cass—To compel railroads to pay shrinkage on freight shipments; S. F. 252, by Lavery of Saunders—To amend laws; S. F. 251, by Sheldon of Cass—Regulating tax sales; S. F. 252, by Sheldon—To abolish the Nebraska maximum freight rate act.

**SENATE**—Members of the senate on the 1st took advantage of their last chance to introduce bills except through a personal message of the governor and handed in twenty measures, several of which will affect the corporations of the state. The South Omaha Stock Yards will have two measures to contend with, the one by Sheldon of Cass to make it compulsory for the company to charge more than 25 per cent above the market price for hay and corn and the other by Gould to compel the company to unload stock within one hour after receiving it or to pay damages to the amount of \$5 for each car for every hour or fraction of an hour over the regulated time in which it has to be unloaded. The senate passed these bills: H. R. 97, 98, 99 and 100, by Clark of Douglas—Curative acts referring to costs, juries and changes of venue in justice courts; H. R. 118, to provide for the drawing of grand juries in Gage county; H. R. 204, to allow mutual insurance companies to withdraw securities deposited with the state auditor and deposit cash instead. In the committee of the whole with Epperson in the chair this morning S. F. 122 and 157 were recommended for passage. The former authorizes the canvass of the vote on constitutional amendments by the legislature and the latter is a measure which provides to make the drainage law conform to the decision of the supreme court, which recently declared that a portion of it was invalid. At the afternoon session, with Bechtel in the chair in committee of the whole, the bill by Cady of Howard, which interposes the constitution in its reference to property which is exempt from taxation was discussed at length, and finally passed over for further discussion.

**HOUSE**—The house on the 1st spent almost the entire day in committee of the whole on the salaries appropriation bill. It cut out of the bill the appropriation of \$5,000 to maintain the state architect's office in the Lincoln asylum of the pathologist at \$1,500, raised the salary of the superintendent of the feeble-minded institute at Beatrice from \$2,000 to \$2,500, and increased the salaries of the two bookkeepers in the land commissioner's office from \$1,200 to \$1,500 each. Many bills were introduced, including the following: To repeal section 2 of the valued policy insurance law allowing attorney's fees to plaintiffs when they have recovered against an insurance company thereunder. To amend the law relating to the proceedings of commissioner with respect to drainage improvements. To provide for the appointment of county attorneys in counties of less than 2,500 population. To provide for the appointment and the payment of assistants for clerks of the district court in counties having over 30,000 and less than 60,000 inhabitants. To provide an appropriation of \$3,000 for a library for the officers and crew and marines of the battleship Nebraska. Relating to the procedure for collection of taxes on personal property under seizure by officers. A joint resolution to amend article 10 of the constitution of the state of Nebraska by amending section 6, relating to municipal charters; gives cities of 5,000 or more the right to make their own charters; to regulate and fix the rate of electric arc lights for the lighting of streets and alleys in metropolitan cities in Nebraska; limits cost of 2,000 candle power arc lights to \$70 a year. To provide means of warning public school teachers and owners of live stock in this state against approaching severe storms through co-operation of the state department of public instruction with the United States weather bureau; appropriates \$500. To abolish slot machines in Nebraska and to provide a penalty of imprisonment not less than one or more than three years. To require public officers to report all interest received upon public funds, and requesting detailed reports of fees.

**SENATE**—In the senate on the 2nd the following bills were passed: H. R. 29, by Douglas of Rock—A bill to permit fraternal orders to incorporate; H. R. 56, by Burns—A bill codifying certain sections of the insurance act relating to filing securities against insurers; H. R. 17, by Cady of Rock—A bill to authorize the use of the state university cash fund for the general uses of the university; H. R. 4, by Knox—A bill authorizing the Peru Normal to buy library books with matriculation fees; H. R. 27, which exempts cemeteries owned by private parties from taxation, was recommended for passage as amended. The bill provides that inheritance tax shall not be paid into the state treasury shall be paid to the counties in which money is collected and used in the improvement of the public highways. Recommended for passage. The senate indefinitely postponed Tucker's bill for a joint resolution calling for a constitutional convention. The vote was 2 to 1. S. F. 108—Providing for the election of grand and petit jurors, was ordered presented for third reading. H. R. 61—To provide an appropriation for the burial of indigent soldiers was recommended for passage. The senate concurred in the action of the house in killing the emergency clause on S. F. 8, the county engineer bill, and also in the house amendments to S. F. 6, the juvenile court bill.

**HOUSE**—These bills were passed in the house on the 2d: Authorizing the State Board of Public Lands and Buildings to sell a section of school land to Daniel L. Johnson now occupied by him. The juvenile court bill, appropriating \$25,000 for the building of the old wing of the Norfolk insane asylum. Appropriating \$32,000 for a fireproof library building at the Peru Normal school and a heating apparatus, sewer and steam tunnel connections. Giving the right of eminent domain to electric and interurban railway companies. To protect trade and from physicians' monopolies and to prohibit the giving or receiving of rebates on the transportation of property. To prohibit shooting of English, China or Mongolian pheasants, English and Belgian partridges, English black cocks or any other imported bird. To permit owners of contracts for lease of educational buildings to forfeit their titles under the law in force prior to 1874. To give war veterans a lion on goods left with them. Authorizing appeals from county levies to the district court and emergency clause. To permit drainage by tiled or open ditch into national water courses. Changing the offering or giving of a bribe in cases from a misdemeanor to a felony. A recalled anti-soldier and soldier bill, said to be directed against suit clubs and emergency clause.

**SENATE**—In the committee of the whole on the 3rd Cady of Howard succeeded in having recommended for passage S. F. 196, proposing a constitutional amendment for the election of a railroad commissioner. The members to be paid a salary of \$2,000 a year each. The committee recommended these bills for passage, including Cady's constitutional amendment providing for a railroad commissioner; S. F. 180—Making State Historical society custodian of records lying dormant for twenty years; S. F. 165—The veterinary surgeon bill. These bills were read on this time and passed; H. R. 27—Authorizing cemetery associations to buy land and exempting the same from taxation; H. R. 90—Providing the inheritance tax shall be paid into the counties where the tax was collected, instead of being turned into the state treasury as at present. The money is to be used for the improvement of roads; H. R. 61—Appropriating money for the burial of indigent soldiers. The senate voted to reconsider its action on H. R. 175, which it had previously indefinitely postponed. This bill provides that twenty people can organize a county agricultural association, hold a fair and secure an appropriation of 3 cents for each inhabitant. It applies to counties of over 40,000 and will be a great thing for the present Douglas County Agricultural Fair association and any other association which exhibits a few pumpkins or such like and calls the occasion a fair; H. R. 137, to allow townships in counties under township organization to vote a levy of 10 mills for road purposes was recommended for passage; S. F. 137, an amendment to the anti-trust law allowing individuals to bring suit in their own names when aggrieved, instead of the attorney general or county attorney bringing the suit, was recommended for passage; S. F. 87, providing for payment of costs in misdemeanor cases, was recommended for passage.

**HOUSE**—The following bills were passed on the 3rd: H. R. 240, by the Lancaster delegation and Lee and

**Adulteration of Coffee.**  
A German review contains an article by Bertarelli on a new adulteration of coffee. The roasted beans are plunged in a five per cent solution of borax and then left to dry. The borax makes them shine and absorbs water, thus adding to the weight of the coffee. The way to discover this innocent fraud is to dry the coffee and if it loses over 4 per cent in weight there has been a fraudulent absorption of water.—London Globe.

**Forget One's Self.**  
If one will but try to forget one's self and think only of the comfort, the pleasure and the happiness of others, there can be no self-consciousness. If in the company of the opposite sex, do not be always thinking of whether you are producing a good impression or otherwise; be constantly on the alert to find what your companion or companions are most interested in, and turn the conversation in that direction.

**Words Which France Likes.**  
The number of English words absorbed into the French language during recent years without any employment of italic type or quotation marks, is considerable. In a rapid skimming of one number of a Paris daily paper, an editor came across the words "interview," "meeting," "dockers," "steppelchase," "handicap," "editorial," "wagon," "clown," and "tramway."

**Worth Remembering.**  
It made the air shine after the sound had died away, and yet it was just the remark of a young man who walked past me one day arm-in-arm with a companion: "Depend upon it, Tom, St. Edmund of Canterbury was right when he said to somebody, 'Work as though you would live forever; live as though you would die today.'"—Exchange.

**Close Prisoner for 21 Years.**  
Twenty-one years ago a peasant in the village of Jaennersdorf, near Opatowitz, placed his son in a small building, and after walling him in, kept him there. Food was handed in through a small opening not my inches in diameter, which was the only channel for light and air within. The peasant is now aged 90, his wife 86 and the son 46.

**When a Lady Tells Her Age.**  
When ladies go to buy a dress in Japan they tell the shopkeeper their age, and whether they are married, because there are special designs for the single and double relations of life, as well as for ages. The consequence of this custom is that you can tell the age of every lady you meet, and know whether she is married, precisely as though she were labeled.

**Dealing with Burning Oil.**  
To extinguish burning oil do not throw water on the flames, for it will only spread them by carrying the oil to float. The right plan is to throw on flour, earth or sand. Any of these things will soak up the oil—generally paraffin from an overturned lamp—and quickly extinguish the fire.

**Promptly Fixing the Blame.**  
Miss Three-Year-Old was obliged to remain indoors because of a severe cold. Looking out of the window, she saw her favorite boy playmate with another little girl. They were having a fine time in the snow. Turning to her mother, the coo-pup exclaimed: "I never did like that girl."

**To Truly Live.**  
Life is what we are alive to. It is not length, but breadth. To be alive only to appetite, pleasure, pride, money-making, and not to goodness and kindness, purity and love history, poetry and music, flowers, stars, God and eternal hopes, is to be all but dead.—Mabelle D. Babcock.

**Island seems to be hardly as dearth of trees as some suppose, an old idea being that it is only a single tree. An investigation shows that the island really contains woods having various trees of considerable size, and that the climate is not unfavorable to tree growth.**

**Seriousness of Bridge Whist.**  
The door stood open as I passed and therein I beheld silent groups of women sitting around tables, their eyes fixed on their faces, their hands riveted upon a sheet of cards which they seemed about to devour. "What is this?" I asked. "Why this appalling silence and intense demeanor?" "Oh, that is a bridge whist club," was the response. "It's a matter of life or death with all the players."—Exchange.

**Working for Success.**  
Every man who tries to jump immediately into the flowery time of success will find himself truly in the air, and will sooner or later suffer collapse. He must begin at the bottom and grow naturally, putting out stem and leaf, and branch as conditions warrant. Thus and only put forth real bloom and fruit of success, fed and watered by the sap of soundness and healthy vitality.

**Longest Straight Railway.**  
The longest straight piece of railway line in the world is from Nynyan to Mounks, in New South Wales. This railway runs 107 miles on a level in a perfectly straight line.

**Black Tupil in Luzon.**  
A black fly, or tupil, with a flower of eight inches in diameter, has been found on the island of Luzon, in the Philippines.

**Covetous Engineers.**  
The civil engineer often wishes with a sigh that he were really monarch of all that he surveys.—Somerville Journal.

**Japanese Marry Young.**  
It is stated that not one bride was over twenty-two years old in the 346,590 marriages in Japan last year.

Second Deacon—The only reason I know of is because we have no small coins.

**Ben—Did you notice how that bald-headed man looking at my pocket?**  
Jane—Yes; I'd bet he is trying to find out what kind of hair restorer he is using.

# Many Persons Have Catarrh of Kidneys, Or Catarrh of Bladder and Don't Know It.

President Newhof and War Correspondent Richards Were Promptly Cured By Pe-ru-na.

Mr. C. E. Newhof, 10 Delamare street, Albany, N. Y., President Montefiore Club, writes:  
"Since my advanced age I find that I have been frequently troubled with urinary ailments. The bladder seemed irritated, and my physician said that the best remedy would be a protracted course of which would be difficult to overcome on account of my advanced years. I took Peruna, hardly daring to believe that it would be helpful, but I found to my relief that I soon began to mend. The irritation gradually subsided and the urinary difficulties passed away. I have enjoyed excellent health ever since the past several months. I enjoy my meals, sleep soundly, and am as well as I was twenty years ago. I give all praise to Peruna."—C. E. Newhof.

**Suffered From Catarrh of Kidneys, Threatened With Nervous Collapse, Cured by Pe-ru-na.**  
Mr. F. B. Richards, 609 E. Street, N. W., Washington, D. C., War Correspondent, writes: "Exactly six years ago I was ordered to Cuba as staff correspondent of the New York Sun. I was in charge of Sun dispatches, but through the Spanish American war. The effect of the tropical climate and the nervous strain showed plainly on my return to the States. Lassitude, depression to the verge of melancholia, and I beseeched kidney trouble made me practically an invalid. This undesirable condition continued despite the best of treatment. Finally a brother newspaperman, who like myself had served in the war, induced me to give a faithful trial to Peruna. I did so. In a short time the lassitude left me, my kidneys resumed a healthy condition, and a complete cure was effected. I cannot too strongly recommend Peruna to those suffering with kidney trouble. To-day I am able to work as hard as at any time in my life, and the examiner for leading insurance company pronounced me an 'A' risk."

**In Poor Health Over Four Years. Pe-ru-na Only Remedy of Real Benefit.**  
Mr. John Nimmo, 215 Lippincott St., Toronto, Can., a prominent merchant of that city and also a member of the Masonic order, writes: "I have been in poor health generally for over four years. When I caught a bad cold last winter it settled in the bladder and kidneys, causing serious trouble. I took two greatly advertised kidney remedies without getting the desired results. Peruna is the only remedy which was really of any benefit to me. I have not had a trace of kidney trouble nor a cold in my system."

**Pe-ru-na Contains No Narcotics.**  
One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.  
It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.
