NEBRASKA PHONE NO. 27

SEEDS! 繆

Fresh and plump, strong in vitality as nature can make them. As clean and free from dirt, chaff and foulness as human skill and machinery can accomplish.

Our stock this season is splendid in quality, larger in variety and lower in price than we ever sold first-class seeds before. We enumerate here a few of the many varieties:

Meadow Fescue

English and Italian Rye Grasses Fancy Hentucky Blue Grass Orchard Crass

Timothy Fancy Red Top **Red Clover** Alfalfa White Clover Alsike Clover Millet Hungarian Cane Etc.

Bromus Inermis or Brome Grass

Defies drouth, resists frost, best grass of the age. We have a good stock of Bromus Inermis, all home grown seed, and for seeding purposes one bushel will go as far as two bushels of the imported seed which is generally sold. This is the grass without question for pasture in Nebraska; it starts very early and grows until very late in the fall, resists drouth, produces more feed per acre and stock of all kinds relish it. It makes a thick, heavy sod and one sowing will stand for ten years.

Below is a copy of the letter written by Mr. J. C. Wagner, the grower of Bromus Inermis in Platte County, giving his seven years experience with this

"My experience with this grass extends over a period of seven years, during which time I have found it to be one of the best pasture grasses, and for bluff land, far superior to any of the other tame grasses. It produces very early pasture and is a persisteni grower. I have sowed it many ways and find well prepared stalk ground the best. As a hay grass from fall sowing I took 6200 pounds per acre the 25th of June following. From 50 acres I threshed 12900 pounds of seed, and had a fine pasture. which I rated as good interest on land, and will say that Brome Grass and Alfalfa will make Nebraska one of the greatest dairy states in the Union. As a pasture it is safe to figure one head per acre.

BROMUS INERMIS, Price per lb., 10c; per 100 lbs., \$9.00

GARDEN SEEDS IN BULK

All northern grown seeds, fresh from the growers. Our bulk garden seeds have a reputation that we are certainly proud of. As we have always bought our garden seeds from the same growers for years, you will find them each season always fresh, and they will always grow under any ordinary con-

Do not send away your seed orders as we will duplicate prices of any reputable seed house, quality considered.
