bankers is considered by the London newspapers as the most hopeful and important news of the day, promising an early conclusion of peace between Russia and Japan. Apparently the proposed loan has not been absolutely refused, but only "postponed." This, however, is regarded as being tantamount to a refusal, and is expected to speak louder to the Rus sian war party even than Kouropatkin's reverse at Mukden. It is regarded that by the death of M. Germain. the late governor of the Credit Lyonnais, Russia lost its stronges financial friend in France, and that had he been alive no difficulty would have been experienced. With the American and English markets closed to it, it is thought that Russia can only turn to Germany, which is not likely to be much more responsive than France, and the only alternative would seem to be to make peace.
