

General Lee was conscious throughout the day and recognized those who were about the sick room. Occasionally these were very few persons and included the attending physicians, the nurses and several relatives who came to visit him. While not suffering any pain the general was rather uncomfortable most of the time, his breathing being difficult and his articulation when he attempted to speak being heavy and thick. The orders of Lieutenant George Lee, a son who was about to sail for the Philippines, has been changed and he will come to Washington and it is expected will be accompanied by his sister, the wife of Lieutenant Brown, who also is now in the Pacific coast and whose orders were issued directing him to sail with his regiment for the Philippines.

The end of General Lee's illness was a shock to his numerous friends in Washington. This was evidenced by the numerous inquiries made during the day and evening. His heart and soul has been in the work of the Jamestown exposition and he labored untiringly to make it a success.
