Ed Rossiter Stricken.
(Tuesday's Daily)
Ed Rossiter was stricken down in Carl Rohde's saloon this afternoon with something in the nature of apoplexy. Without any warning he fell forward, his head striking the floor with violence. Dr. Arnold was called who said that the trouble was the result of a stomach disorder. Mr. Rossiter said he had not been feeling well for several days and just before he went into Mr. Rohde's place was possessed by a sudden feeling of weakness and dizziness. No serious results are anticipated.

Accident in U. P. Yards

(Monday's Daily)

Things have been doing in Union Pacific railroad circles since yesterday. It is all because an Austrian, one of the steel gang, got the calf of his leg under a car yesterday. As an echo of the accident Ebor Smith who was substituting as day yard foreman for J. Armstrong, & J. T. Jaworski, brakeman, were ordered to head quarters at Omaha today. The story as told by an eyewitness is this: The car which the Austrian laborer was in was standing on the Lincoln siding. The laborer was lying in the shade of the car. The man who got hurt was lying with the calf of his leg resting on the rail near the wheel of the car. The switch engine driven by E. P. Rogers kicked off two cars on this siding. Jaworski was handling the brakes. The two cars which the latter was riding struck the Austrian's car bumping it far enough to catch the fellow's leg. Immediately after the accident the whole gang of Austrians gave chase to Jaworski. He footed it as fast as he could to the switch engine. E. P. Rogers cooled the gang down and induced them to summon a doctor for the wounded man.
He was taken to St. Mary's Hospital and this morning taken to an Omaha hospital. The wound on his leg is a serious one. It is said that Smith and Jaworski were not at fault and that they will find no difficulty in explaining things.

FOR SALE—One Nelson 11-Horse Power, as good as new. Strongest power in the world. Steel stroke wheels under it. Write or see us for price. G. Drazel, Dunbar, Neb.

Don't Neglect

Your teeth. Even a few weeks delay will sometimes prove injurious.
During my absence Dr. C. V. Campbell, who comes highly recommended as a skillful operator and as a gentleman, will have charge of my practice and will do all he can to please you.

Miss Lydia McMahon's Work

(Tuesday's Daily)

Miss Lydia McMahon, superintendent of the Girls' Industrial School at Geneva, came home Saturday night to visit for a few days. It is difficult for Miss McMahon to leave her duties which are made more than usually pressing just at this time by extensive improvements which Miss McMahon is personally supervising.
Columbus should be proud to lay claim to a lady of such rare qualifications of education and personal charm as Miss McMahon possesses. It is common knowledge among the executive officers of the state that no state institution is more ably managed than the one over which she presides. And she presides without sacrificing any of those finer touches of femininity which we all like to see preserved in woman, and which too often are crowded out of the woman in business.
The friends of Miss McMahon will be pleased to read the following extract from the "Christian News," relating to the Geneva school:

This fine building is surrounded by 10 acres of well cultivated land, trees, land, fruit, flowers and farm products in their season furnish the evidences of an ideally equipped country home with a family of fifty four girls ranging in ages from about eleven to twenty one. This large family is divided into two family groups A and B over each of which a superintendent resides with mother-like care. Miss Lydia McMahon the general superintendent seems to have been trained both intellectually and spiritually for this important work. Every girl was known not only by name and introduced one by one but her individual past history and character were part of this motherly woman's heart burden. Love and cheer were written over every word and act; over every picture and room, system, order industry and exquisite neatness marks the management of the entire institution. Miss Sude Ward from Pawnee City is matron and her sister Miss Lena Ward, one of the superintendents of the division families. Each girl attends school in the institute half a day five days in the week, and in the year is trained in all details of domestic duties, spending three months each in the kitchen, laundry, in house work and sewing room. Some of these girls are in this institution because of lack of proper parental training others because of misfortune—all appealed to our motherly heart. The almost perfect marching and flag drill in the school room, the singing, recitation, the laundry work, the fine array of appetizing looking loaves of bread, the neatly made garments—all the work of the girls' hands—testify to the valuable training in the institution.

Cecilians Meet

(Tuesday's Daily)

The Columbus Cecilian Club was entertained at Steven's Lake yesterday by Mrs. H. A. Clark and Mrs. Ed Adams in honor of Miss Ethel Galley at one time president of the organization. About thirty-five members of the club which has been extinct for some time, met at the home of Mrs. Clark where hay-racks were waiting to convey them to the picnic grounds. And O. L. Baker upon whose knightly shoulders rested the responsibility of conducting the ladies safely to their festival grounds during all the years of the active life of the club, was on hand as in the olden time, and he performed his duties with the same knightly grace. When the guests reached their destination, they found their picnic feast already prepared for them, the good things arranged to display the colors of the club, chocolate, cream and cherry. The lunch was served in two courses, the ice cream being colored with the club colors. After lunch a picture was taken of the group including O. L. Baker. Then letters and telegrams were read from absent members and these communications formed the most interesting part of the entertainment. A beautiful silver loving cup was presented to Miss Galley after the guests had drunk to her health from it. The out-of-town guests present were: Mrs. Nettie Griswold, Fort Collins; Mrs. Petermichel, Valparaiso; Mrs. Ed Adams, Denver; Miss Lydia McMahon, Geneva; Mrs. Morse, Lincoln and the Misses Winterbotham, David City.

No Secret About It.
It is no secret, that for cuts, burns, ulcers, sores, eyes, boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O.K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25 cents at Chas. Dack's drug store.

Columbus Men Abroad.

Ex-mayor August Boettcher and Dr. Tiesing are far out at sea. They left New York on June 24, on board the Koenigin Louise. This information was communicated to A. Brodfuehrer on a souvenir postal card which he received yesterday from Mr. Boettcher. The card was written on board the Koenigin Louise and was dated June 24.

Carl Rohde and Chas. Segelke were also remembered. Mr. Rohde received a box of fine candy and a picture of Mr. Boettcher and Dr. Tiesing with two other men, "doing" New York in an automobile. Mr. Segelke was remembered in similar manner.

Mr. Brodfuehrer received a card dated the 20th from New Haven in which Mr. Boettcher said Dr. Tiesing and his Yale friends were showing him a good time in the old college town. He also received a pretty souvenir card from his old friend, M. O. Bloedorn, from Hamburg, Germany. Journal readers are promised the news from our esteemed fellow citizens abroad from time to time. And since they will read those lines in the Journal when they reach Lucerne, Switzerland they will be reminded of their promise to write the news and be assured that the Journal considers it a privilege to be the medium of their interesting messages to their numerous friends in Platte county.

Monroe Business Change.

(Yesterday's Daily)

The partnership business of Mansfield and Smith of Monroe has passed into the hands of H. A. Mansfield, Mr. Smith retiring from business. The business will be continued under the firm name of H. A. Mansfield & Co.

We are now serving delicious Ice Cream Sodas, Sundaes, Lemonades, Phosphates and all good Soda drinks.
We make our own Ice Cream. We KNOW it is pure.
Chas. H. Dack, Druggist.

R. Campbell of Humphrey has withdrawn his application for the superintendency of the Columbus school, having been elected superintendent of the schools of West Point, Neb. The position of teacher of manual training here has been filled by the election of Elliot V. Graves of the state university. Mrs. Stella Ross of Boulder, Col. has been elected to teach drawing and music.

Notice.
Holders of county warrants of any description are requested to present them to the county treasurer for payment at once, as interest on same closed June 1.
Dietrich Becher
County Treasurer.

Notice.
Citizens are hereby notified to trim up their trees in compliance with the ordinance which requires them to be trimmed up at least eight feet from the ground. Untrimmed trees interfere with lighting the streets and are a nuisance. By Order of City Council.

W. H. Lewis and Mr. Welden, accompanied by the Misses Grace and Mary Lewis, Mabel Drawbaugh and Lillian Welden, drove to Prairie Creek Tuesday and on the pretty banks of the river established a camping resort where the young ladies will enjoy a week of pure atmosphere and the early morning dew for complexion. The place picked for their outing is on a beautiful knoll and there is a legend connected with the very spot. During the early days when Indians were threatening this county, a small massacre took place where the young people have pitched their tent, but this fact does not interfere with their enjoyment. No ghosts have yet appeared at the romantic spot which has been named camp Taylor in honor of a famous Indian fighter and scout of that name who lived in the West years ago.

FOR SALE—Good six-room house, good location. Price and terms right. Inquire Journal.

GERMANY'S REPLY IS FIRM

INSISTS ON CONFERENCE OF NATIONS REGARDING MOROCCO.

PRESENTS VIEWS TO FRANCE

Nothing Peremptory in Her Answer to French Note, but it is None the Less Positive in Maintaining Her Former Position.

Paris, June 28.—Germany's reply to the French note on the subject of Morocco was presented during a conference between Prince Radolin, the German ambassador, and Premier Rouvier at the foreign office. While most friendly and lacking a peremptory tone, Germany's response none the less maintains the position that the Moroccan question must be regulated by a conference of the powers without any agreement in advance limiting the scope of such conference. This was accompanied by the presentation of Germany's general point of view in such an amicable spirit as to disarm the suspicion entertained concerning Germany's ulterior motives.

It is thought that Premier Rouvier will be prepared to terminate the controversy either by accepting the conference or submitting counter-proposals. However, he informed Prince Radolin that no decision would be taken until the German note had been submitted to the council of ministers at its next regular meeting, which will take place Friday. It is the general expectation that an agreement will be reached on the basis of a conference.

Tension in official quarters has notably diminished and this is only explainable on the theory that a conference will be accepted.
Reports from foreign capitals to the effect that France recognizes Germany's influence in Persia as compensation for the renunciation of that country's claim in Morocco has somewhat annoyed French officials, who, in strenuous terms, authoritatively deny any such understanding.

ENGINEER WALLACE RESIGNS

Two Stories of Reason for Resignation of Official of Canal Commission.

New York, June 28.—The resignation of John F. Wallace of Illinois, chief engineer of the Panama canal, is now in the hands of President Roosevelt, according to a statement made by the Herald. It is said to have been handed to Secretary of War Taft in this city after a rather stormy conference, during which Mr. Wallace is said to have expressed his ideas of what should be done on the isthmus in very concise language. It is understood that Engineer Wallace will at once take charge of a large railway system in this country and that Theodore P. Shonts will remain as president of the canal commission.

As to the cause of Engineer Wallace's resignation, there are two versions, one coming from friends of some of the canal commissioners, the other from friends of Mr. Wallace. The first is to the effect that it was requested because of differences between the chief engineer, members of the commission, Secretary Taft and through the latter with President Roosevelt. The other version deals with a hampering order.

Wisconsin May Quit Arcanum.
Milwaukee, June 28.—Wisconsin members of the Royal Arcanum will vote on the question of seceding from the order and forming an insurance society of their own. The matter will be brought before every local council in the state and a vote taken, after which a general meeting of the lodges will be held and the results canvassed.

No Betting at Delmar.
St. Louis, June 28.—Sheriff Herpel, with a force of deputies, was present at Delmar race track and announced that any attempt at betting or book-making would result in arrests. The races were run, but there was no betting, and the betting ring was deserted. Comparatively few spectators were present.

German Contractor Arrested.
Chicago, June 28.—George A. Barthelmus, who is said to be a wealthy contractor from Cassell, Prussia, was arrested here, charged with forgery aggregating \$24,000. He was arrested on complaint of German Consul Weyer.

Open Rural School Meeting.
Urbana, Ill., June 28.—The first conference in the interest of rural schools opened at the University of Illinois, President E. J. James making the address of welcome. Many of the delegates are country school teachers. Alfred Baylis spoke on the work of the rural school.

Late Court News.
Mrs. Wm. Brower allowed \$100 all money and attorney fees.

SUMMARY OF CROP CONDITIONS

Winter Wheat Harvest Now in Progress in North.

Washington, June 28.—The weather bureau's weekly summary of crop conditions is as follows: Except in the upper Missouri and Red River of the North valleys, where, as a result of low temperatures, the growth of corn has been slow, this crop has made good progress, although suffering somewhat from lack of cultivation in portions of the Ohio valley and in central and western Nebraska. In Iowa, corn has made vigorous growth and is well cultivated, with better stands than previous reports indicated, and the outlook in Illinois, Missouri and Kansas, where early corn has reached the silk and tassels, is very favorable.

Heavy rains have interrupted the harvesting of winter wheat in the Ohio valley and portions of the middle Atlantic states, but elsewhere work has progressed favorably and is near completion in Missouri and southern Kansas. Harvest is now in progress in the northern portion of the winter wheat region. Some complaints of rust and weevil in central and western Ohio and of smut in New York are received and some grain in shock has been damaged by rains in Kentucky and Tennessee.

Spring wheat on lowlands in the Dakotas and Minnesota is suffering somewhat from rust, but as a whole this crop has made vigorous growth and continues in promising condition throughout the spring wheat region and also on the north Pacific coast. Except in lowlands in southern Iowa and portions of the Dakotas and Minnesota the oat crop has advanced favorably and continues in promising condition.

The weather has been unfavorable for haying in the middle Atlantic states and Ohio valley and on the north Pacific coast, where considerable hay has been spoiled. In portions of the central Mississippi valley meadows have deteriorated, but in the lake regions, the Dakotas, Nebraska and Kansas a good hay crop is promised.

Double Tragedy at Seattle.
Seattle, June 28.—Joseph C. Abbott, an electrician, shot and killed his wife, known as Dolly Gilson, and made an attempt to kill himself, which probably will prove successful. Abbott left a letter stating he could not bear the disgrace which his wife had brought upon him.

Indian Lands to Open Aug. 17.
Washington, June 28.—By direction of the secretary of the interior, 87,800 acres of Indian lands in Minnesota will be opened to settlement Aug. 17. The tract at present is partly in the Fond du Lac, Red Lake, White Earth and the Chippewas of Minnesota reservations.
