Linevitch Denies Reports.
St. Petersburg, Aug. 2.—General Linevitch has telegraphed to the emperor denying the frequently published reports that his army was completely surrounded. He says that the army has never been in any danger or suspicion. The flanks have never been turned, although the Japanese sought to do so. "The Japanese, who are some distance from our principal positions, having failed in their attempts to approach them," the general adds, "The morale of the troops inspires me with complete confidence that the army is ready for any task."

Czar's Tone More Warlike.
London, Aug. 2.—A dispatch to the Times from St. Petersburg says that another imperial telegram, even more warlike than the emperor's reply to the Dresden clergy, appears in today's Official Messenger. The emperor, replying to an address from Kharousk, heartily approves the recommendation to continue the war until the enemy is crushed, and above all not to think of cession of territory or the payment of an indemnity.

Company K at Kearney.
(Tuesday's Daily)
Company K will be well represented at the state shoot of the N. N. G. at Kearney this week, at which a state team will be selected to go to New Jersey to contest for national honors.

According to the rules of the contest by which a high score is necessary to qualify for entrance, only thirty-two men from the various companies of National Guards in Nebraska have qualified. Of this number Columbus has eight. They are: Captain August Wagner, A. C. Boone, Jas. C. Christenson, Bert J. Brian, Roy R. Young, Anton Johnson, D. H. Davis and A. R. McFarland.

The Columbus delegation left last night. They were preceded on Sunday night by the delegation from Albion consisting of Ed Maloney, Frank Willott, Archie DeMoss, Frank Brian and Roy Bart.

Columbus and Albion together thus have nearly half of the whole number qualified and it is more than likely that these two teams will draw a large percentage of the fifteen places to be filled by the best shooters of the state. The shoot will continue five days and the highest averages of the full five days will be taken, making the test one of the nerve and endurance.

The fifteen winners will leave at once for New Jersey where the winning team will draw a cash prize of \$1500 and the winning individual, \$1000.

Here's luck to Columbus and Albion.

SUMMARY OF CROP CONDITIONS

Wet Weather Interferes With Threshing in Missouri Valley.
Washington, Aug. 2.—Crop conditions are summarized as follows in the weekly bulletin issued by the weather bureau:

In the Ohio valley the growth of corn has been somewhat checked by cool weather, but elsewhere in the principal corn states the crop has made excellent progress. Throughout the Atlantic coast districts a fine crop is indicated. In Tennessee, Arkansas, Indian territory and northern Texas the condition of corn is not so promising. Threshing of winter wheat has been interrupted by wet weather in southern Illinois and portions of the Missouri valley and middle Atlantic states, but elsewhere this work has advanced satisfactorily. Winter wheat harvest is finished except a small part of the crop in Michigan and New York.

Spring wheat harvest is in progress in Nebraska, Iowa and the southern portions of South Dakota and Minnesota. This crop has made favorable progress, no damage being reported from rust. Late spring wheat was materially damaged in Washington by hot winds of the preceding week, but the early crop escaped injury. Harvest is general in Oregon, with about average yield and quality. Oat harvest has progressed favorably and is now becoming general in the more northern states. With the exception of some damage to harvested oats in Missouri, Oklahoma, Texas and Virginia, the reports respecting this crop are highly favorable.

With but few exceptions the reports indicate a very light crop of apples. Haying is being retarded in portions of Iowa, North Dakota and Virginia, but reports indicate that a good crop of hay has been largely secured.

Secretary Wilson Not Disturbed.
Washington, Aug. 2.—Secretary Wilson said that he was not disturbed by the demands made by certain officials of the Southern Cotton association, and that he heartily approved of the expressed intention of President Jordan of the association to go to President Roosevelt with his demands. "I have reported my course to President Roosevelt," added Secretary Wilson, "and I have not taken Jordan into my confidence. President Roosevelt knows what is going on in the department; Jordan does not. Yes, I hope Jordan will carry his demands to Oyster Bay."

MAKES PLEA FOR WILLIAMSON

Attorney Urges Good Reputation of Client as Reason for Acquittal.
Portland, Ore., Aug. 2.—Judge A. S. Bennett, in the United States court, commenced the principal argument for the defendants, Biggs, Gessner and Congressman Williamson. Judge Bennett charged that District Attorney Heney was seeking "the big fish," but not the men big in crime. He asked why the millionaires who have been allowed to steal thousands of acres of the government's land were allowed to go free while the men big only in reputation and standing among their neighbors were chosen for prosecution. He alleged that "New Williamson is the big fish the government is after and that Biggs and Gessner were entangled in the net because they must be caught to get the other." Judge Bennett showed the former good character of the defendants, and maintained that this should be a strong point in their favor.

He testified that he had been paid by Cobban from \$800 to \$1,600 for his work.

CLASH OVER QUARANTINE

ARMED TROOPS OF MISSISSIPPI INVADE LOUISIANA.

SIX NEW DEATHS REPORTED

Chicago Drummer Stricken With the Scourge at Shreveport—One Case Discovered at Montgomery, Ala. Texas Again Alarmed.

New Orleans, Aug. 2.—Following is the yellow fever record: New cases, 42; deaths, 6; total cases to date, 346; total deaths to date, 68; new foci, 4; total foci to date, 50.
The increase in the number of deaths from yellow fever was not unexpected, in view of the high temperature that has prevailed the past two days. There was, however, the usual large preponderance of Italian names in the list, both of new cases and deaths, which has characterized the reports since the time when the fever was first officially announced as existing here. In spite of the increased mortality, the health authorities, contending that with the accumulation of cases there must be expected an increase in fatalities to maintain the average death rate of the fever.

A clash between the Mississippi and Louisiana authorities over quarantine regulations is imminent. A private dispatch was received in the city stating that Mississippi soldiers, employed as quarantine guards, had invaded Louisiana with arms and that boats were patrolling the mouth of Rigolot's lake and Pearl river, off the Louisiana coast, to prevent Louisiana boats from leaving. The relations between the two states has reached an acute stage, and from present indications it will change from interviews about the concealment of cases to a much more serious matter. From information that has come to hand, the dignity of the state of Louisiana has been offended by an armed invasion from the sister state, and Governor Blanchard communicated with the captain of the naval brigade, which has a fully equipped gunboat, with the view of having it dispatched to the borders to protect Louisiana citizens from further indignities.

Later developments in the controversy between Louisiana and Mississippi do not lessen the seriousness of it. Commander Hostwick of the naval brigade and General Perillat are preparing a report to the governor, following their investigation, which will be continued. It is now reported that one of the Mississippi boats drove a Southern Yacht club yacht far into Lake Pontchartrain.

The Texas scare has evidently grown some in the last day or two. Monday the quarantine against the whole state of Louisiana was reinstated and today Dr. Tabor practically put an end to communication between the two states and to transcontinental traffic.

The business interests continue to exert every effort to secure some modification of the quarantine regulations which have had the effect of bottling up the city commercially.

JOHN C. HANLEY ARRESTED

Charged With Using Mails in Scheme to Defraud.

St. Paul, Aug. 2.—John C. Hanley, publisher of the Alliance Advocate, and well known throughout the west as a leader in the farmers' alliance and other political movements, has been arrested by United States Marshal Grimsshaw on a charge of using the mails in connection with a scheme to defraud.

The charge is that in advertising matter sent through the mail for the purpose of selling stock in the Consolidated Farm and Ranch company, Hanley represented that this company had acquired the property of the Montana Co-operative Ranch company, now in the hands of a receiver, which representation is claimed to be false. His hearing is set for Aug. 12.

The Consolidated company was organized a few months ago under the laws of South Dakota, with Hanley as president, and capitalized at \$350,000. The government claims that the new company has practically no assets and in order to induce investors to buy stock in the new company the promoters pretended to have secured the property of the old company. The Montana company is now in the hands of a receiver.

The circulars sent out names among the officers of the Consolidated company: A. J. Whedon of Omaha, secretary, and A. H. Inley of Des Moines, Ia., as one of the directors.

People After Uintah Land Are in Line at Four Registration Points.
Denver, Aug. 2.—Advices from Grand Junction, Colo., and Vernal, Price and Provo, Utah, indicate that the work of registering applicants for homesteads in the Uintah reservation is proceeding in an orderly manner. Thousands of people are in line at the registration places, although early registration affords no advantage to the applicants, as the land will be distributed by a drawing, which will begin on Aug. 17.

The first to register at Provo was Mrs. Isabel Miller of Elsinore, Utah. If reasonably successful she proposes to go on the reservation and establish a home. She is fifty-eight years old and a widow. As she emerged from the booth, Commissioner Richards took a snapshot of her. George Jagers, seventy years old and a civil war veteran, was the first in line at the Parker school.
