Dyer-Lamb

(Friday's Daily)

Mr. J. E. Dyer and Miss Marion E. Lamb were united in marriage at the home of the brides parents eight miles northwest of Platte Center at eight o'clock Thursday evening. Rev. Benjamin of Platte Center officiated. Only members of the church were present. The ceremony was unattended at the ceremony.

Mr. Dyer has charge of the commercial department in the high school at Bakersfield, California. The contracting parties met a few years ago in college at Shenandoah, Iowa where they were betrothed. G. E. Lamb, brother of the bride drove to Columbus with the bridal party Thursday morning in time for the Overland Limited west for Bakersfield their future residence.

Boone County

(Friday's Daily)

Boone county is one of the best counties in Nebraska or any other state. Its average of citizenship can not be beaten in any country under the sun. Its quality of republicanism, is fit to be used as a sample by every other county in Nebraska. And furthermore, all the good people in Boone county are not limited to the republican party. In short when it comes to people, the cream of the earth is not far removed from Albion, the capital of Boone county. So much by way of preface. Now we want to call the attention of Platte county republicans, and of Journal readers who are not republicans to a part of the resolutions passed by the Boone county republican convention last Saturday. And then we want to ask if the principles outlined therein are not good enough for Platte county republicans and for the hundreds of those Platte county democrats who have become Rooseveltized?

Here are a few samples of those resolutions.

"We heartily commend the action of Attorney General Brown in bringing injunction proceedings against the elevator trust and pledge him our earnest support in his efforts to destroy this trust and to give us an open and competitive grain market."

"We demand the abolition of all free passes, except to railroad employees, whether in the shape of trip tickets, annual passes or editorial mileage, on all railroads, and all free franchises or other privileges given by telegraph, telephone or express companies and other public service corporations."

"We favor legislation compelling all railroads to sell interchangeable mileage books, good on all railroads in the state, at 2 cents per mile."

"The action of the Union Pacific railroad and others in trying to shirk their part of the public burden by refusing to pay their taxes is condemned."

"The Journal wants to line up squarely and emphatically in favor of passing similar resolutions in the Platte county convention. That is the kind of republicanism and the only kind that can or should win in Platte county. And it will in the end because the masses of the people believe in it."

"Houses" Raided

(Friday's Daily)

Raiders were made yesterday on the "white House" near the stand pipe, and on Crickets' "Hay Ranch". The latter was made complaint of Mayor Dickinson who expected to find beer.

Cricket's possession. But it is believed that some person close to the county officers gave Cricket the "tip" giving her time to get the stuff out of the way if she had it. Sheriff Carrig and Chief Schack made the search on a warrant issued by the county attorney.

At the "White House" officer Axel Nelson discovered two men and after cornering them in the cellar, arrested them together with two girls. Warrants were sworn out for the arrest of the girls, against Bertie Wright for "keeping a house of prostitution" and Emma Novack for being an inmate.

Mayor R. S. Dickinson signed the complaint. Mayor Dickinson expresses his determination to enforce the law, let it strike whomever it may.

Good Thing

(Friday's Daily)

Columbus has a manufacturing industry that brings many money orders each week to our city from outside parties and the most of that money is spent here in Columbus.

This industry is run by one man and he is so busy filling orders for his out of town trade that many people in our city who have not visited his offices do not know of the character of his work. We refer to the manufactory of optical goods operated by Dr. J. W. Terry over Pollock's drug store.

Dr. Terry's rooms are fitted up not only to treat scientifically all diseases of the eye and defects of vision but also to manufacture the lenses with which he supplies his patrons.

Columbus is a small city for a specialist of Dr. Terry's proportions, and he is establishing a business that should be appreciated by our merchants as it brings many out of town people here to buy their wares.

A Chicken Buyer's Experience.

(Saturday's Daily)

Ed Hoppen is a good chicken buyer, and he gets on all right as long as he drives a trusty horse that goes straight ahead. But yesterday he drove a horse that turned when it came to a corner. And hereby hangs a tale. For Ed kept going straight ahead. The accident might have been serious had not Ed's feet which are not celebrated for their small proportions mixed up

in the wheels and prevented his body from coming in violent contact with the ground. When he gathered himself up he had a sprained wrist, one eye was discolored from contact with his knee, and his pocket book flown from his pocket, and doubtless went to where the "whang doodle" never "doodles" for a \$10 reward for the valuable article with its contents of party census has brought it to the light of day.

Boone County Fair.

The secretary of the Fair Association writes us that Boone county holds its twenty first annual fair this year on September 19, 20, 21 and 22. \$1,000 was spent on the grounds last year and 1,200 this year.

They believe they now have the best equipped fair grounds in the state outside of the state fair. On the big day last year 10,000 people passed through the gates. Their stock exhibit, both in quantity and quality, was not excelled by any fair in the state. They have contracted for several new features, the most expensive of which is the guideless wonder mare "Cute" which has been secured by the state fair. She will be here Sept. 21st and 2nd. She trots a mile without a driver or a sulky and has a record of 2:04.

Accommodations will be provided for all visitors.

The School Opening.

The Columbus public schools opened Monday merely for enrollment and organization of classes and assignment of lessons. The pupils were dismissed for Labor Day, the real work beginning Tuesday.

Superintendent Sherman reports everything in first class shape for the beginning of the year's work and expresses himself as greatly pleased with the manner in which the board has looked after and prepared everything. The only inconvenience will be caused by the fact that the steel ceiling which is to be put on the high school assembly room is not yet completed. This is due to no fault of the board or local contractor but to the failure of the material to reach Columbus. The room will be used in its present condition until the material gets here and then the room will have to be vacated for a few days while it is being put on.

The gymnasium building is expected to be finished by September 5, or at most by October 11. Meanwhile the gymnastic classes will use the halls of the high school building.

The outlook for the coming year is very promising. The corps of teachers are all on the ground and are expecting a pleasant and successful year with a large attendance.

Sells & Downs

A large number of the difficult acts seen with the Great Sells and Downs show are in danger of not being appreciated because of the ease with which they are performed. One of the chief difficulties that confronts a manager of a big circus like the Sells and Downs, is the scarcity of acrobatic equestriennes.

The way to the pinnacle of fame in a circus ring is difficult and discouraging. Of the girls who essay the feats of a clever rider not one in a thousand succeed, and one in a hundred of those who succeed ever wins prominence. Prominent in the coterie of equestrienne celebrities with the Great Sells and Downs shows is Miss Lulu Davenport. In point of poise, grace, dash and daring agility her riding simply defies all description. Nothing she does looks difficult, nor appears, indeed to require effort. She is secure and as much at home in her unstable position on the heaving, bouncing back of a galloping horse, as a society belle on a ball-room floor. The cleverness of Miss Davenport deceives the public, and makes it look easy. Any spectator who attempts to imitate the work of this celebrity will soon have such a delusion dispelled from their mind. The same thing may be said of the hundreds of performers with the Great Sells and Downs show. Every act is so cleverly, carefully and quickly executed that the danger of the act is not apparent, and this fact overcomes the sensational tendency which is distasteful to many.

The only fault with the Great Sells and Downs Show is that it has too much going on at the same time, but the arrangement of the apparatus, paraphernalia and seats is such that every one can see a great deal more and get more satisfaction out of its performance than out of the ordinary show.

The Great Sells and Downs show will exhibit for one day only in Columbus September 14.

School Enrollment.

(Yesterday's Daily)

The public schools opened yesterday with every promise of a successful year. Superintendent Sherman announces that his policy will be in general the same as that of Sup't Kern.

The total enrollment is 773, divided as follows:

Sheridan 10 Columbus 7

(Tuesday's Daily)

It required eleven innings to decide the game between Sheridan and Columbus yesterday. At the end of the ninth inning the game stood 7 to 7 and it was necessary to play two more innings.

A large crowd witnessed the game and it was interesting throughout. Columbus outplayed the visitors who got only two earned runs. But there were many close decisions in the game and the most of them went against Columbus, the umpire being a Sheridan man. The Genoa Indian pitched for Columbus and he pitched a good game. For the home team the stick work was done by Corbett, Jones and the Indian. The game ended with a disgraceful incident which is regretted no more by the friends of baseball in Columbus than by Manager Corbett himself. A Columbus player made a cowardly assault on the umpire which was entirely without excuse.

Commercial College Opens.

(Tuesday's Daily)

The Columbus Commercial College opened its doors yesterday and admitted a number of new students. Owing to its being Labor Day nothing was attempted outside of registration, but today finds each department carrying out its regular routine. Because of the scarcity of help, many who contemplated entering were obliged to postpone it for a time.

With reference to former years, the comparison is not unfavorable either from the standpoint of members or in interest manifested.

Mrs. Gertrude Waters, a graduate of the Bayliss College, Dubuque, Ia., again has charge of the shorthand department. While on her vacation she was tendered a like position in the school from which she was graduated.

W. W. Waters will again supervise and instruct in the business department. The enrollment promises to be larger than last year.
