#### LINCOLN'S BIRTHPLACE IS SOLD-KENTUCKY FARM UNDER HAMMER

Rock Spring farm in Laure county, Kentucky, on which this historic log cabin stands, was sold at public auction rcently. (Reproduced from Ida M. Tarbell's "Early Life of Lincoln," published by S. S. McClure, New York, 1896.)

Rock Spring farm, on which Abra- 1 of New York, bought the place for ham Lincoln was born, has been sold \$3,500. by Commissioner Handley for \$3,600. R. J. Collier of New York was the purchaser. There were three other bidders on the property, John E. Burton, of Philadelphia; W. D. Frost, of Chicago, and E. J. McDermott, of Louisville, representing New York interests.

Mr. Collier will get possession in December. He has not yet decided what he will do with it, and probably it was bought as an investment. The farm contains 110 acres and the price was not much more than the property is worth for farming purposes. Just previous to the sale Chicago parties telegraphed to have the farm bought for them, but the

in time. Since the birth of Lincoln, on February 12, 1809, the farm had changed hands only twice. Thomas Lincoln. the father of the President, sold the land to Richard Creel about the time the Lincoln family moved to Indiana.

During the last decade or so many attempts have been made to perfect the property into a national park, and, while these efforts have aroused has resulted.

The farm derives its name from a large spring about 100 yards from the log cabin in which Lincoln was is cut by a broad picturesque thoroughfare. Two miles on the north is this village, typical of Kentucky, with a population of about 1,000. A branch of the Illinois Central connects the town with the outside world, and a combination freight and arrangements could not be perfected passenger train makes two trips daily to Cecilia, seventeen miles away.

The records of Hardin county show that the farm was bought by Thomas Lincoln in 1803 with funds which he had earned as a carpenter. Making Children "Show Off."

Here is something with which few mothers will agree, and yet it is the opinion of one of the leading physicians of New York. Says this authority: "It is cruel for mothers to try to make their children be smart and show off before people when they are little. Above all things let a child be stupid-not only stupid, but ugly. If it is allowed to be stupid and ugly when it is little and growing it will have a much better chance of becoming bright and beautiful. Little minds are overtaxed by being made to memorize verses to say before people, by being taught this, that and the other thing for showing off. Children should be left to grow up just what they are—little animals." - Good Housekeeping.
