

KIDNEY TROUBLE DUE TO CATARRH.

The Curative Power of PE-RU-NA in Kidney Disease the Talk of the Continent.

Nicholas J. Hertz, Member of Ancient Order of Workmen, Capitol Lodge, No. 149, Pearl Street Hotel, Albany, N. Y., writes:

"A few months ago I contracted a heavy cold which settled in my kidneys, and each time I was exposed to inclement weather the trouble was aggravated until finally I was unable to work.

"After trying many of the advertised remedies for kidney trouble, I finally took Peruna.

"In a week the intense pains in my back were much relieved and in four weeks I was able to take up my work again.

"I still continued to use Peruna for another month and at the end of that time I was perfectly well.

"I now take a dose or two when I have been exposed and find that it is splendid to keep me well."

Hundreds of Cures.

Dr. Hartman is constantly in receipt of testimonials from people who have been cured of chronic and complicated kidney disease by Peruna. For free medical advice, address Dr. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

The Boy Reared by Hand.

An old farmer in Nemaha county remarks that a home-grown, hand-spanked, bare-footed and hard-fisted country boy makes a much better fighter in the battles of life than does the pampered, high-collared, creased-trousered youth of our towns and cities whose clothes have always been dusted with a whisk broom instead of a shingle—Kansas City Journal.

It has been suggested that the excellent showing made by steel cars in collision is due to the fact that the wooden cars in the train with them acted as cushions and lessened the force of shock.

WOMEN'S NEGLECT

SUFFERING THE SURE PENALTY

Health Thus Lost is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel the same. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, leucorrhoea.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald, of Woodbridge, N. J., writes:

"I think that a woman naturally dislikes to make her troubles known to the public, but restored health has meant so much to me that I cannot help from telling mine for the sake of other suffering women."

"For a long time I suffered untold agony with a uterine trouble and irregularity, which made me a physical wreck, and no one thought I would recover, but Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

BIG PUBLISHER SUED.

Chicago, Oct. 16.—The Peruna Drug Manufacturing Company, manufacturer of a widely known proprietary medicine, has brought suit in the Superior Court of the City of Chicago against the Curtis Publishing Company of Philadelphia, alleging that it has been damaged to the extent of \$250,000 by a recent article in the Ladies' Home Journal.

The suit is based on a statement recently made in that journal that a testimonial as to the merit of the remedy manufactured by the plaintiff, alleged to have been given by Congressman George H. White of South Carolina, was fraudulent, denial from Mr. White that he ever gave such a testimonial also being printed.

The Peruna company declares that Congressman White did give the testimonial in good faith, and that it has two original letters from Mr. White. It declares that Mr. White was led to repudiate the testimonial through a misunderstanding.

This is the second large damage suit that has been filed against the Curtis Publishing company since it inaugurated its attacks on "Patent Medicines."

Advancing the Farmers' Interests.

Traveling agents and salesmen are now sent from the home offices of the Chicago packers into all South American and Asiatic countries. They are going into every land, no matter what language may be spoken or what money be used. They will exchange their goods for cowries or elephant tusks—anything to sell the product and get something in return convertible into money. It may seem odd to some folks, but traveling men, carrying cases with samples of American meat products, can be seen in the desert of Sahara, the sands of Zanzibar or in Brazil, "where the nuts come from." Great is the enterprise of the Yankee merchant. The greater the market, the greater the price and stability of the price of the product and all that goes to make it in its various stages.

'Tis Hard to Reform.

A crook, who had married and tried to settle down and lead a honest life, was riding in a street car when he felt a slight tug at his hand. Without turning his head he looked down and saw a busy hand trying to work it out of his shirt front. He at once worked his right hand behind his back and took the other fellow's watch. When he had it securely in his pocket he turned around and said: "Say, Bill, I was in the same line myself not long ago."—New York Sun.

Cabby's Windfall.

A London cabman found a dead cat on one of the seats of his vehicle. He was about to throw the corpse into the gutter when a constable stopped him. "You can't leave that in the street," said the officer. "But if I can't," said the cabman, "what can I do with it?" "Take it," said the constable, "to Scotland Yard, and if it is not claimed within three months it becomes your property."

No Excuse for Another Epidemic.
New Orleans' fight against yellow fever shows beyond a doubt that another epidemic ought never to occur. During the ten weeks of the struggle there has been but 335 deaths from the disease, which is a remarkably low record, compared with the epidemic of 1878, when, during the same season of the year, the deaths numbered 2,176 in a much smaller population. The immense reduction in mortality this year has unquestionably been due to the advance of medical science in the handling of yellow fever, and hereafter, with the city always on the alert and protected against the stegomyia mosquito, the epidemic of 1905 should be known as the last of the plague.—Springfield, Mass., Republican.

WORLD'S LINES OF RAILROADS.

America Has More Than Half of the Entire Mileage.

Consul General Guenther of Frankfurt supplies the following remarkable railroad statistics:

According to the most recent German statistics, the length of the railroads of the world on Dec. 31, 1904, was 537,105 miles, of which 270,366 miles were in America, 137,776 in Europe, 46,592 miles in Asia, 15,649 miles in Africa and 16,702 miles in Australasia. Of the mileage of European railroads Germany stands first (34,016), followed in their order by Russia (33,286), France (28,266), Austria-Hungary (24,261), the United Kingdom (22,502), Italy (10,025), Spain (8,656), Sweden and Norway (7,730).

The average cost of construction of the European railroads per mile is estimated at \$107,577, while for the remainder of the world the estimate is only \$59,680. The total value of the railroads of the world, according to these statistics, is \$43,000,000,000, of which the European roads figure for \$22,000,000,000. The estimate for rolling stock is as follows, in numbers: Locomotives, 150,000; passenger coaches, 225,000, and freight cars, 3,000,000.

FRANK BEARD DIES SUDDENLY.

Well-Known Illustrator and Originator of "Chalk Talk."

Frank Beard, known all over the United States as the originator of the "chalk talk," and for more than twenty years connected with the Ram's Horn, chiefly as illustrator, died suddenly, Sept. 23 at Chicago. Death came as the result of cerebral hemorrhage.

Mr. Beard came of a well known family. His father and uncle were James and William H. Beard, the painters, and the name of his brother, Dan Beard, writer, lecturer and inventor, has been familiar to the boys of several generations.

Frank Beard was born in Cincinnati, O., Feb. 6, 1842. Before he was

two years old he had begun his artistic work and was sending sketches to Yankee Notions, one of the first of American illustrated papers. Although only eighteen years old when the civil war broke out, he was commissioned by Frank Leslie's and Harper's Weeklies to accompany the army of the Potomac.

After the war he began lecturing, and it was at this time that he originated the "chalk talks"—a popular lecture with an accompaniment of rapid illustrating. For three years he occupied the chair of esthetics and painting in Syracuse university, and at that time became editor of Judge, which position he held during the Blaine campaign.

About the time Mr. Beard began to feel that the power wielded by a cartoonist should be exerted in other directions than those of social and political reform. He therefore turned aside from his humorous and political work and became interested in Sunday schools and the Chautauque movement, in connection with which much of his best known work has been done.

About twenty years ago he began illustrating for the Ram's Horn, a religious weekly published in Chicago. In 1890 he became one of the editors of the paper and for the last fifteen years had been devoting his entire time to this work.

King Edward Growing Peevish.

Indications are not wanting that his most gracious majesty King Edward of Great Britain and Ireland grows old and peevish. The latest incident in proof of this deplorable tendency comes from Cows, where the king has a royal residence, Osborne house. Some repairs were to be made in the naval cadets' school near by and his majesty asked to be shown the plans. The architect sent with the drawing had a wart upon one side of his nose. This disfigurement caused his majesty great annoyance and he has demanded that the architect be removed from charge of the repairs. Everybody in London is laughing at the incident. Some of the comic papers have gone so far as to express regret at the delicate state of the king's health.
