

Tired, Nervous Mothers

Make Unhappy Homes—Their Condition Irritates Both Husband and Children—How Thousands of Mothers Have Been Saved From Nervous Prostration and Made Strong and Well.

Mrs. Chester Curry

Mrs. Chas. F. Brown

A nervous, irritable mother, often on the verge of hysterics, is unfit to care for children; it ruins a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother has some female weakness, and she is entirely unfit to bear the strain upon her nerves that governing children involves; it is impossible for her to do anything calmly. The ills of women are like a firebrand upon the nerves, consequently nine-tenths of the nervous prostration, nervous despondency, "the blues," sleeplessness, and nervous irritability of women arise from some derangement of the female organism.

Do you experience fits of depression with restlessness, alternating with extreme irritability? Are your spirits easily affected, so that one minute you laugh, and the next minute you feel like crying?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the ovaries, and especially between the shoulders; hearing done; pains; nervous dyspepsia, and almost continually cross and snappy?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous prostration than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women testify to this fact.

Mrs. Chester Curry, Leader of the Ladies' Symphony Orchestra, 42 Saratoga Street, East Boston, Mass., writes:

Dear Mrs. Pinkham—

"For eight years I was troubled with extreme nervousness and hysteria, brought on by irregularities. I could neither enjoy life nor sleep; nights I was very irritable, nervous and despondent."

Lydia E. Pinkham's Vegetable Compound was recommended and proved to be the only remedy that helped me. I have daily improved in health until I am now strong and well, and all nervousness has disappeared."

Mrs. Charles F. Brown, Vice-President of the Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark., writes:

Dear Mrs. Pinkham—

"I dragged through nine years of miserable existence, worn out with pain and nervousness, until it seemed as though I should fly. I then noticed a statement of a woman troubled as I was, and the wonderful results she derived from Lydia E. Pinkham's Vegetable Compound, I decided to try it. I did so, and at the end of three months I was a different woman. My nervousness was all gone. I was no longer irritable, and my husband fell in love with me all over again."

Women should remember that Lydia E. Pinkham's Vegetable Compound is the medicine that holds the record for the greatest number of actual cures of female ills, and take no substitute.

What He Paid For.

A cynical highland gillie thus explains a certain rich American's action in paying \$25,000 as a year's rental for a castle in the north of Scotland: "He pays \$5,000 for the house, \$5,000 for the fishing, \$5,000 for the deer, \$5,000 for the grouse, and \$5,000 for being near Balmora, where the king occasionally visits."

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in 8-ounce packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-ounce package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 oz." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

Analysis of Medicines Open to All.

"There is no public demand and there is not the slightest public necessity for a law compelling the publication of the formula of proprietary medicines," says the Committee on Legislation of the Proprietary Association. "Every Health Commissioner and every Pure Food Commissioner in the country, as well as every private physician or chemist, if he pleases, has the right to make an analysis of any proprietary medicine and to publish the result and to tell the public what he thinks, and there is nothing in the world to prevent such action. But that is not what the agitators for such legislation want. Their object is to destroy the sale of such remedies entirely."

SUICIDE AN HONORABLE DEATH.

Strange Belief Among the Chukchees of Siberia.

A Russian correspondent was talking about Siberia.

"In that strange land," he said, "the strangest thing is the suicidal tendency of the Chukchees. Among the Chukchees, actually, suicide is one of the most common forms of death."

"The Chukchees live in northeastern Siberia. They are small and copper-colored. They dress in skins and ride reindeer. Tallow and raw kidney are their chief delicacies. In every Chukchee house hangs a death coat."

"A Chukchee doesn't kill himself by his own hand. He appoints his nearest relative—his wife, son or daughter—to do the deed. And the delegate never rebels, never declines this sad and horrible task."

"Innumerable are the causes of suicide—jealousy, unrequited love, an incurable disease, melancholy, poverty and so on."

"I knew a man who was prosperous and apparently happy. Suddenly a desire for death seized him. 'In three months,' he said, 'I will go home to my fathers.' And he calmly settled his affairs and at the appointed time bade his wife to knot a cord about his throat and his two sons to pull upon this cord till he should be strangled. He died, they told me, joking."

"The death coat which hangs in every Chukchee house has a hood. It is for use in suicide. The hood hides the facial contortions of the dying."

"There are Chukchee families where suicide is hereditary, wherein it is a point of honor for the sons to kill themselves, a natural death being regarded in such families as disgraceful and scandalous, a sign of the most un pardonable cowardice."

"The Chukchees, despite their suicidal tendency, are a happy and healthy people, moral, truthful, brave and temperate."

DESKS OF FAMOUS AMERICANS.

Elaborate and Primitive Furniture on Which Great Work Was Done.

The desk of Salmon P. Chase, a plain piece of furniture made from mahogany, is in one of the rooms of the Treasury department at Washington. There are many of these old desks scattered about the country, their chief claim to interest being that once some well known man leaned over them.

Alexander Hamilton's traveling desk, made of mahogany and measuring 12 by 16 inches and 10 inches high, is an interesting object. Upon this desk was written much of his literary work, and the worn green baize with which it is lined attests to the use to which it was put. There is a drawer in one side, and several compartments for pens and ink, while upon the top is inlaid a silver plate with the name "Gen. Alexander Hamilton" engraved upon it. Within the top is a strip of parchment which says:

"Given by Mrs. Gen. A. Hamilton to her daughter, Mrs. Gen. A. Hamilton. No doubt the convenient size was what recommended it to the general."

Nathaniel Hawthorne's desk is preserved at the Custom House, Salem, Mass. A desk at which he wrote some of his inimitable romances was just a board standing out from the wall at an angle. This is still in the room at Wayside, his home at Concord, Mass. Victor Hugo had in his Geneva home a study built almost entirely of glass and perched upon the roof. Like Hawthorne, he, too, stood at his writing, and his desk was a mere shelf fastened by hinges to the wall.—The Delinestor.

Goddess of Smallpox.

"They worship smallpox in western Hindoostan," said the missionary. His audience gave a gasp of horror. "But don't misunderstand me, don't get a wrong impression," he resumed. "I don't mean to say that they love smallpox and desire it. On the contrary, they loathe and fear it. Hence their worship, a worship born of hate and terror."

"They have a goddess of smallpox. She has a cruel face, two mouths, four red hands. They pray to her regularly. Fresh flowers are always lying at her feet. A special priest tends her shrine."

"And much time and money are wasted on this goddess that might better be devoted to the purchase and application of some good, pure vaccine virus."—Chicago Chronicle.

To make Cheap Gas-light for Country Homes

TAKE a common Clay Pipe. Put a simple "Acetylene" Gasburner on its stem. Bind the two in position with a tight-fitting piece of Rubber Hose. Then fill the bowl of the pipe with fine-ground Calcium Carbide. Next tie a rag over head of the bowl to keep in the Carbide. Now put the pipe into a Glass of Water, as in picture. There you have a complete Gas-plant for 25 cents. Touch a match to the Burner—and you'll get a beautiful White Gas-light.

Light a setback, at first. It seemed so simple to turn Calcium Carbide into Gas-light that over 600 different kinds of "tanks" and "Acetylene Machines" were invented, patented, and marketed for the purpose, by about as many different people.

Well, the thing to be expected certainly happened! About 530 of these "Acetylene Machines" had been invented and sold by people who knew more about *Tinware* than they did about *Gas-making*.

The "Calcium Carbide" was all right all the time, but 530 of the machines for turning it into Gas were all wrong all the time.

So Acetylene Gas "got a bad name," though it is clear enough now that it never deserved it at any time. It was like selling *Hot Stones* to burn Hand Coal in, and then blaming the *Coal* for not burning.

Lots of things happened to grieve the Owners of these 530 makes of alleged "Acetylene Machines." But very few accidents occurred from them even in the days of rank experiment and dense ignorance, among "Generators" and "Makers."

Of course, a gun will go off unexpectedly, now and then, if the trigger be pulled by a person who "didn't know it was loaded."

But, that's no fault of the Ammunition—is it? Well, finally the Insurance Companies got after these 530 odd makes of "Acetylene Machines" that wouldn't "Acetylene," and the Insurance Board made an investigation of all Generators that were submitted to them.

Then, out of the 600 odd "Machines" patented, only about 70 were "permitted" by the Insurance Board to be used.

Oh, what a howl was there! By "permitted" I mean that the Insurance Board was willing that any building should be insured, with-

out extra charge, which used any one of these 70 Acetylene Generators it had found safe, and effective, just as it permitted houses to be piped for City Gas, or wired for Electricity, under proper conditions.

Now, the Insurance Companies ought to know whether or not these 70 different makes of Acetylene Generators were absolutely Safe to use.

Because, they have to pay the bills, if Fire or Explosion occurs, from any one of the Acetylene Generators they authorize.

And, here's a proof of their good judgment. Though there are now Two Million people using Acetylene Light in America, there have only been four Fires from it in one year, against 8365 Fires from Kerosene and Gasoline.

There have also been 4601 Fires from Electricity, 1707 Fires from City Gas, and 520 Fires from Candles. Besides these there have been 26 Fires from the Sun's rays, but—only four Fires from Acetylene.

That shows how careful the Insurance Board was in its examination of Acetylene Generators, and in "permitting" only the 70 makes that were above suspicion, out of the 600 experiments that were once on the market.

Well,—the boom in Acetylene Lighting made lower prices possible on the material it is derived from, viz., Calcium Carbide, a material that looks like Granite but acts like Magic.

Today, Acetylene Light is a full third cheaper than Kerosene Light, or Gasoline Light, per Candle Power. It is not more than half the price of Electric Light, nor three-fourths that of City Gas.

If I can't prove these statements to your full satisfaction my name is not "Acetylene Jones."

But Acetylene is more than the *safest* and *cheapest* Light of the year 1908.

It is also the *Whitest* Light—the nearest to natural Sunlight in health-giving Blue and Violet rays, and because of this, with its freedom from flicker, it is the easiest of all Artificial Light on the Eyes.

It is so much like *real* Sunlight that it has made plants grow 24 hours per day in dark cellars where no ray of Sunlight could reach them. It made them grow twice as fast as similar plants that had only the Sunlight of day-time, viz., half the time.

That was proven by Cornell University in a three-months' experiment made this very year.

Now, I've saved up for the last a point more important to you than all the others about Acetylene Light.

It consumes only one-fourth as much of the vital Oxygen from the Air of Living rooms or bed-rooms, as either Kerosene or City Gas-Light consumes.

That's a tremendous difference in a lifetime, mark you—three-fourths of a difference.

Because—Oxygen is Life. And every bit of Oxygen stolen from the lungs of Women, Children and Men, through Lighting, is a loss that can never be made good again.

A 24 Candle-Power Acetylene Light costs you only two-fifths of a cent per hour.

That's about \$5.85 per year, if burned every night in the year for four steady hours.

A Kerosene Lamp of equal capacity would cost you a third more, viz. three-fifths of a cent per hour for Kerosene alone, or \$7.25 per year.

That's exclusive of broken lamp chimneys, new wicks, and the everlasting drudgery and danger of cleaning, filling and trimming daily.

I want to prove these figures to you, Reader, if you are a house-owner or storekeeper.

Tell me how many rooms you've got and I'll tell you what it will cost to light them with brilliant, beautiful, Sanitary, eye-saving Acetylene.

Write me today for my Free Book about "Sunlight on Tap." Just address me here as— "Acetylene Jones," 8 Adams St., Chicago, Ills.

MULL'S GRAPE TONIC

the only permanent, natural cure for constipation and all bowel troubles and indigestion and all stomach troubles. MULL'S GRAPE TONIC cures by strengthening and restoring the tissues and muscles of all the digestive organs, and by putting the whole digestive system in a perfect, strong, healthy condition. It does not shock and weaken the organs as purgatives and physics do and thus aggravate the trouble and make a bad matter worse. Its effect is to build up and restore, and not tear down and destroy. It cures the disease by putting the digestive organs in a condition to overcome it. Such a cure amounts to something—it is perfect and permanent.

You feel better and stronger all the time you use it—not weakened and run down as in the case of drugs and physics. You feel the wonderful and beneficial effects of Mull's Grape Tonic at once. You will know that it will cure you as soon as you begin its use. That is why we let you try free.
