He got \$10 and costs for disturbing the peace and is lying on bread and water while he lies it out. Max tried hard to avoid trouble but he was forced to act as Bolen insisted on it. During the absence of J. H. Galley, some one entered his barn and stole a bicycle belonging to his daughter and a small rifle. In the place of the lady's bicycle was left a man's wheel. About the time this happened a stranger appeared at the Kurr-Nichols brick yard and wanted to sell a man's wheel. He was told that if it were a lady's wheel it would be bought. The next day the stranger appeared with a lady's wheel. Mr. Nichols, being suspicious, took the wheel and locked it in the office. During the following night the office was broken into and the wheel taken. It is believed that this explains the theft of Miss Galley's wheel. However, Mr. Galley says that he has no use for the man's wheel and will turn it over to the owner if he will call and identify it.

A Food to Work On

Work! Work!! Work!!!

Lots of energy is needed to keep up the pace. In the struggle, the man with the strong body and clear brain wins out every time.

The man of to-day needs something more than mere food; he needs a food that makes energy—a food to work on.

Although some people may not realize it, yet it is a fact, proved and established beyond doubt, that soda crackers—and this means **Uneeda Biscuit**—are richer in muscle and fat-making elements and have a much higher per cent. of tissue-building properties than any other article of food made from flour.

That this is becoming known more and more every day is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, the finest soda cracker ever baked. An energy-giving food of surpassing value—sold in a package which brings it to you with all the original flavor and nutriment perfectly preserved. *Truly the food to work on.*
