## GENOA.

As announced in last week's Leader Fred Echternacht disappeared from Genoa on Tuesday last and no trace of him was found until Friday last when a phone message was received stating that he was in police hospital at Omaha. His absence was not discovered until Thursday morning from the fact that being engaged in the windmill and pump business, he frequently drives out in the country and is absent for a day or two. On Tuesday he informed Mrs. Echternacht that he was going to drive out in the country to repair a pump, and she naturally thought he was detained and not being near a telephone did not phone her as he was wont to do. But when he did not return Wednesday night she reported his absence, and it was discovered that his team had not been cared for since Tuesday. After an attempt had been made to locate him by phone in any of the surrounding towns, searching parties were organized but without result. Friday afternoon a message was received from his brother-in-law at Omaha that he had just been notified that Fred was at the police station, having been taken from a Union Pacific train Wednesday morning in a demented condition. Friday he was taken with spasms and it was thought he was dying, but when he came out of them he was rational enough to inform them who he was. Mrs. Echternacht went to Omaha Saturday. About a year and a half ago Fred had his skull broken by a tackle block and for the past few weeks he has been complaining that his head hurt him severely at the injured spot and it is thought that is what caused his insanity.

is good food—food for brain, food for brawn, food that is strengthening, that gives energy and courage. Without a proper appreciation of this great fundamental truth no nation can rise to greatness.

As an article of food, soda crackers are being used more and more every day, as is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, which have come to be recognized as the most perfect soda cracker the world has ever known.

And so **Uneeda Biscuit** will soon be on every table at every meal, giving life, health and strength to the American people, thus in very truth becoming the backbone of the nation.
