Columbus Journal THE CALL OF THE CANADIAN

The Greatest Wheat Crop of the Cor

The year that has just closed has Jone a great deal toward showing the possibilities of Western Canada from an agricultural standpoint. The wheat crop has run very near to the 100,000,000 bushel limit that was looked upon as too sanguine an estimate only a short time ago, and the area that has been broken to fall wheat for the coming harvest will go a long way towards enabling the farmers of the West to overlap on the 100,000,000 bushel estimate next year. And while the spring and winter wheat have been doing so well during the past few years, the other cereals have been keeping up with the procession. Rye and barley have made immense strides, and peas and flax have been moving steadily along. Dairying, also, has been successfully carried on in the new provinces, and in every stage the farmer has been "striking it rich." To such an extent has the success of the West taken hold of the outsiders that the rush of our Americans to Saskatchewan and Alberta, which was looked upon as marvelous last year, bids fair to be largely exceeded in 1906, and as there are still millions of acres of free homesteads available, which the building of the new raliways will render accessible to the markets, new wheat lands will be opened ere long. Amongst the first to avail himself of the opportunsettler. In a large number of Ameriity presented will be the American

can cities Dominion Government Agents are located, who are able and willing to give the latest and best information in regard to the new districts which the railways will open up, and there will be no abatement of the rush to the Canadian prairies during the coming season. Some time since a poet in the columns of the "Toronto Star" had the following stirring lines, which throb of the

Western spirit: There's a stir in the air, there's a thrill through the land,

There's a movement toward the

great West; And the eyes of all men for the moment are turned To the country that we love the

best. For 'tis Canada's day in the world's calendar.

And to this merry toast let us sun: "Here's to the land, the young giant of the North, Where the prairies are opening up!"

They come from the East, and they come from the South,

dwell 'neath a flag

That makes all men equal and free. Then, once more the toast, and let every man rise And cheer ere he sips from the cup:

"Here's to the land, the young giant of the North, Where the prairies are opening up!"

A Lesson in Good Manners.

A well-known lawyer is telling a good story about himself and his efforts to correct the manners of his office boy. One morning, not long ago, relates the Brooklyn Citizen, the young autocrat of the office blew into the office and, tossing his cap at a hook, exclaimed: "Say, Mr. Blank, there's a ball game down at the park park today and I am going down."

Now the attorney was not a hardhearted man, and was willing the boy should go, but thought he would teach him a lesson in good manners. "Jimmie" he said, kindly, "that isn't the way to ask a favor. Now you come over here and sit down and I'll show you how to do it." The boy took the office chair and his employer picked up his cap and stepped outside. He then opened the door softly and, holding the cap in his hand, said,

It is the heaviest of fatty oils, having a density of 0.96, and is particularly adapted to the oiling of fast moving machinery because the heat generated keeps it in a liquid state.

Engineer Has Fine Record.

Thomas Ridley of Pittsburg, formerly an engineer on the Pennsylvania road, was retired on a pension two years ago. When Andrew Carnegie was a poor young fellow Ridley helped him once or twice and the two have been close friends for many years. "Old Tom," as he is called, visited the multimillionaire recently. The latter presented him with a book on the flyleaf of which is the inscription, "Old Tim Ridley, one of my first and one of my best friends. One of the few, rapidly growing fewer, who called me Andy and have the right to do so. New York, Dec. 15, 1905. Andrew Carnegie." Ridley, who is 80 years old, carries a \$525 gold watch, with a 74 pennyweight gold chain, bearing an inscription stating that it was presented in recognition of his courage and loyalty in refusing to run his train into a fire in Pittsburg on July 22, 1877, as ordered to do by a committee of rioters.

Has Done Good Work in China.

One of the most interesting women visitors in this country in many years is Lady Hart, an English woman who has given time and fortune to the work of the Chinese mission schools of Hongkong. Throughout the war Lady Hart remained at her post and continued her good work of instructing the Chinese into some idea of modern sanitation. She is not a proselytizer and though nominally the mission is for the spreading of Chrisinstructing women and young girls in principles of morality and domestic science. She reports a rather confoot for the first time in almost ten

FOUR YEARS OF AGONY.

Whole Foot Nothing But Proud Flesh -Had to Use Crutches-"Cuticura

Remedies the Best on Earth."

"In the year 1899 the side of my right foot was cut off from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. At last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Dintment often during the day, and kept it up for seven months, when my limb was healed up just the same as if I never had trouble. It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day after five years of suffering. The cost of Cuticura Ointment and Soap was only \$6, but the doctors' bills were more like \$600. John M. Lloyd,718 S. Arch Ave., Alliance, Ohio, June 27, 1905."

If the best man's faults were written on his forehead, he would have to wear his hat well down over his eyes.

N., Minneapolis, Minn., Jan. 6, 1900. Don't Be Too Sensitive. There are people-Yes, many peoele—always looking out for slights. They can not carry on the daily intercourse of the family without finding that some offense is designed. They are as touchy as hairtriggers, if they meet an acquaintance who happens to be pre-occupied with business they attribute his distraction in some way personal to themselves, and take umbrage accordingly. They lay on others the fruit of their irritability. Their disposition makes them see impertinence in every one they come in contact with. Innocent persons, who never dreamed of giving offense, are astonished to find some unfortunate word of momentary tactiturnity mistaken for an insult. To say the least, the habit is unfortunate. It is far wiser to take the more charitable view of our fellowbeings, and not suppose that a slight is intended unless the neglect is open and direct. After all, too, life takes its hues in a great degree from the color of our own mind. If we are frank and generous, the world will treat us kindly; if on the contrary, we are suspicious, men learn to be cold and cautious to us. Let a person get the reputation of being "touchy" and everybody is under restraint; and in this way the chances of an imaginary offense are vastly in-
