It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Cure to any one suffering from kidney or bladder trouble." The Burlington's Homeseekers' Information Bureau, which has been recently organized to assist homesteaders in getting hold of free homesteads of 640 acres in Nebraska for mixed farming and dairying, is proving a great success, and the operations of that person are now taking on useful and practical shape.

Mr. D. Clem Deaver, the agent of the bureau, has arranged to personally conduct excursions of homesteaders from and Omaha Lincoln the 1st and 3rd Tuesday of each month to the territory of these free Kinkaid lands, for the purpose of assisting desirable farmers to locate on the homesteads that are not available for a farmer to succeed by mixed farming.

Those who expect to succeed should have ready means for the immediate improvement of the land in the way of fences and buildings, and money enough to start with a herd of cows a hand cream separator. This ought to be a good opportunity for an energetic farmer of moderate means to secure a farm.

The Burlington makes no charge for the services of the agents, and Mr. Deaver has on file a complete plat of available lands in the sixteen counties along the Burlington road, where these homesteads are located.

Those desiring to obtain information relative to taking up a homestead, can obtain a folder free of cost, and further information, by calling on or writing Mr. D. Clem Deaver, agent of the Burlington's Homeseekers' Information Bureau, 1004 Farnam St., Omaha, Neb.
