The Food Value of a Soda Cracker

You have heard that some foods furnish fat, other foods make muscle, and still others are tissue building and heat forming.

You know that most foods have one or more of these elements, but do you know that no food contains them all in such properly balanced proportions as a good soda cracker?

The United States Government report shows that soda crackers contain less water, are richer in the muscle and fat elements, and have a much higher per cent of the tissue building and heat forming properties than any article of food made from flour.

That is why Uneda Biscuit should form an important part of every meal. They represent the superlative of the soda cracker, all their goodness and nourishment being brought from the oven to you in a package that is proof against air, moisture and dust—the price being too small to mention.

The Manxman.

Most people are familiar with the vivid and natural pictures drawn by the pen of Hall Cain in his charming and interesting stories of the Isle of Man and will be pleased to learn that Columbus is to have an opportunity to witness the dramatic version of one of the latest of these. The Manxman. Some of the most pronounced successes in the theatrical world have been made by the dramatizations of Mr. Cain's. The Eternal City and the Christian which were insignificant when compared to the faror created by the presentation of the Manxman. The play is deep in plot, strong in sentiment and filled with elements of great beauty and dramatic intensity.

The richest man in the world. The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life.—McClintock & Carter.
