

## Don't Poison Baby.

FORTT YEARS AGO almost every mother thought her child must have PAREGORIC or landanum to make it sleep. These drags will produce sleep, and A FEW DROPS TOO MANY will produce the SLFEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, landanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison". The definition of "narcotic" is: "A medicine wevich relieves pain and produces sleep, but which in poisonous dosesproduces stupor, coma,convul sions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CON TATN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Letters from Prominent Physicians addressed to Chas, H. Fletcher.

benefcial for children as your Castoria is s, deserves the highest praise. I
han it in use everywhere."

 and have no hesitancy in recommending it for. the complaints of infants
and children."
