WHEN TO WEAR GLASSES.
"A stitch in time" is particularly true in regard to eye defects, and many a person who wears glasses constantly could have avoided doing so by going to a specialist in time and having the slight defects treated, or securing glasses for private use.
When one does not heed the claim of the eyes for attention, it is found necessary to look for the proper relief in the way of glasses. It is then we call your attention to Kryptok Invisible Bifocal Lenses, which enables you to "see right and feel right." Each pair is sold under an absolute guarantee as to quality of material and efficiency of workmanship. Only the most skilled labor is employed in their manufacture and the cost of material used is thirty times that of the ordinary spectacle lenses, and still they cost you but little more than the old-style. They are the standard of perfection in the art of lens grinding, as they combine the "two sights" in what appears as one lens. If you wish to know more about them write to the Columbian Bifocal Co., Temple Court, Denver, Colo., for booklet giving full description.

Cured of Bright's Disease.
Geo. A. Sherman, Lisbon Red Mill, Lawrence Co., N. Y. writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick dust substance, and sometimes a clay substance. I believe I would have died if I had not taken Foley's Kidney Cure. Chas. H. Dack.
Crow Reservation.
The government has made all arrangements for the registration for the lands of the Crow Agency, which will be drawn July 2nd at Billings. The registration dates are June 14 to 28 at Sheridan and Billings, and the Burlington has offered exceptionally low rates to those wishing to take a chance in Uncle Sam's big lottery. The rates from all Burlington stations west of the Missouri river to Billings and Sheridan will be one fare for the round trip, with a maximum of \$20, which will make the rate from Omaha, Kansas City and Denver much less than a fare for the round trip. From all points east of the Missouri river and from Kansas and the south west the rate will be 75 per cent of the one-way rate, with a minimum of \$20. The tickets will be sold June 10 to 26 inclusive, with a return limit till July 10. All lodging places will be listed and committees at each town will meet the excursionists.
The mayor of Billings has wired General Passenger Agent Wakeley of the Burlington that everything will be done to take care of the registration crowd, and he will take personal charge of the police force. Tents will be laid out in the streets with board floors. Booths will all be connected with city sewers and the best sanitary arrangements made. The mayor says that Billings will be able to take care of 10,000 people at any one time.
Sheridan has already advised the Burlington that complete arrangements are being made to take care of the crowds for registration. Every available room and bedding and tents will be secured from Fort MacKenzie to accommodate a small army. Fine camping grounds will be prepared. Hotels and eating houses are stocking up and will be prepared to take care of all that come. The police force is taking measures to eliminate all undesirable elements, such as thugs and gamblers. The Chamber of Commerce and city council are taking vigorous measures to insure registration visitors a safe and comfortable time at Sheridan.
