Clerical errors have been responsible for the very high school tax that has been levied for Monroe, district No. 76. It seems that when the state auditor certified to the amount of the bonds issued for this district he made his statement read as though there were three bonds of \$2,100 instead of one, and in adding the old bond of \$500 for the school house that was sold and torn down, the total bonds which the county clerk was levying a tax to pay the interest on was \$6,350, when it should have been \$2,550. As a result this accumulation makes a balance in the bond fund of over \$1,500, and when the old bond for \$500, due July 1, this year, is paid, there will still be a balance of over \$1,000 to meet the last bond which is not due for several years. For the next three or four years the school taxes will be something like normal, as we will have no bond tax to pay for some years. Monroe Republican.

The Union Pacific will run a special excursion from Grand Island to Omaha next Sunday, June 24th, for which the exceptionally low rate of \$1.75 for the round trip from Columbus has been announced. Tickets are good only on excursion train which leaves Columbus at 7:50 a. m., returning leaves Omaha at 8:00 p. m. same day. The beautiful parks of Omaha and the Denver-Omaha ball game are the attractions. It is estimated that from 100 to 200 people will go from Columbus.

Mr. Harriman recently astonished the public by showing what the Union Pacific and related lines could do in an emergency. Another striking example of the enterprise of the Harriman lines is shown by the Union Pacific's announcement: "Effective July 1 next, local passenger fares between all main line points in Wyoming, Colorado and Utah will be 3 cents per mile, at 25 per cent reduction from the present tariff." This will result in a substantial reduction in the one-way rates between the Missouri river and Denver and other Colorado points, and also in through interstate rates between points on the Union Pacific system.—World-Herald, Omaha, Neb., June 16th 1906.

Thursday morning a serious accident occurred at the Kent & Burke ranch south of the river. While working on scaffold near the top of the new elevator now in process of construction, Mr. J. S. He has regained consciousness but once for a short time since his injury, and is in a very bad way apparently, as it was a terrible fall. Mrs. H. B. Reed, while driving the mail wagon on Route 3 for her husband yesterday, had a runaway in which she suffered painful if not serious injuries. An ugly gash was cut above her left eye and her body was bruised in many places. The runaway occurred near the Seefeld place and G. Launer who was plastering there, was the first to reach Mrs. Reed, whom he found unconscious. A bolt broke letting the double tree down against the horses legs, frightening them into a run. Mrs. Reed held the lines till the long Shell Creek hill was reached when the tongue came down and the wagon was tipped over twice. Mrs. Reed could not open the doors of the mail wagon and she was tossed from side to side a helpless prisoner. Mr. Reed was summoned by telephone. The buggy was demolished and the mail was not delivered on the route until this morning. Mrs. Reed was resting easy this morning.

One of the prettiest parties ever given in Columbus was the "rose" party given last Friday afternoon by Mrs. A. Anderson and Mrs. L. W. Snow at the home of the former in honor of Mrs. P. J. McHugh of Fort Collins, Colorado, Mrs. Anderson's sister. Everything suggested the rose. The invitations and programs bore beautiful hand painted roses, the work of Mrs. Snow. The rooms were veritable bowers of roses and the ice cream which was served bore the impress of a rose mould. One of the most delightful features of the party was a musical program every number of which was dedicated to the rose. The program follows:

- Mrs. E. C. Adams.....Piano To a Wild Rose.
- Mrs. Leo Geitzen.....Vocal Under a Rose
- Miss Daisy Cash.....Vocal The Mission of a Rose

The bonds of the three Columbus banks were accepted, making them depositors for the city funds, and the draft bonds of Barney McTaggart, Thos. McTaggart, Henry Seipp and Albert Geiger were accepted.

An ordinance was passed regulating the collection of the poll tax and aiming to make it more generally payable in cash.

Mayor Phillipps says that the council is confronted with the problem of improving the service of the water works system in some parts of Columbus and that the ordinance with reference to the water metre will be enforced more rigidly.

The council committee has outlined changes in the gas ordinance which it deems essential to protect the city's interests and the suggestions are in the hands of C. J. Garlow and the other promoters of the gas plant for consideration.

### Ralph Coolidge Maimed in Horrible Accident.

Ralph Coolidge had both of his legs cut off under a freight train yesterday at noon and his own father, Joe Coolidge, drove the engine which hauled the train and saw the horrible accident with his own eyes although at the time he did not know it was his son who was whirled under the fast moving train.

It was about one o'clock and Joe Coolidge was pulling his freight train for a siding in the Columbus yards at a speed of more than twenty miles an hour. Ralph Coolidge was standing with Jerry Carrig on the north side of the U. P. tracks on Washington street about four blocks east of the U. P. station, and he recognized his father's face through the cab window of the engine as it passed, knowing that his father would stop on the siding and wishing to talk with him a few minutes, he made a run and tried to catch the iron bar at the corner of a box car, he succeeded in getting hold with only one hand and instantly he was thrown off his balance and both feet were whirled under the wheels of the car and cut off just below the knees. He had the presence of mind to turn over quickly to extricate his legs and this saved his life.

Jerry Carrig was at his side in a moment and within five minutes the buggy of Dr. Evans was on the ground to take him to the hospital.

Joe Coolidge saw every detail of the accident from the cab window and the moment his engine stopped reported it to the yard men saying "Some man was run over by this train." A switch engine was sent quickly to the scene of the accident but did not reach it till Ralph had been taken to the hospital. And Joe Coolidge did not know it was his own son until the crew of the switch engine reported it to him.

Both legs were amputated just below the knees and as the Journal goes to press the patient is resting easy.

Ralph Coolidge is an industrious young contractor with a young wife and a child about two years old.

A curious coincidence is the fact that Jerry Carrig was the first man to see the accident last winter in which Wm. Dineen lost a foot.

and such sums as may be required are withdrawn upon presentation of check. This is a check upon expenditures and reduces to a minimum the possibility of errors in accounts. The First National Bank is conducted along safe lines and the interests of depositors fully safeguarded.

On motion same was adopted. Moved by Supervisor Newman that the county board of equalization now adjourn until August 13, 1906, at 3 o'clock p. m. Motion carried.

### County Board.

Last week was a busy one at the court house. Supervisor Newman declares that the supervisors ground out more business the last day of their session than had ever been done before in the same length of time by a board. The transactions of the supervisors, sitting as a board of equalization, are given elsewhere.

It is too early yet to secure a correct report of the assessors. County assessor Galley, assisted by Bud Newman, is working hard on his state report, but has not yet got his figures in form for publication. And his report will likely be modified by the state board so that final results will not be ready for publication before late in July.

In general it may be said that the valuation of Platte county property will be increased nearly \$400,000. About half of this increase is in personal property and there was a notable increase in the value of town property over farm property, the former being about \$95,000 and the latter \$85,000 over the figures of last year.

The most interesting part of the assessor's returns is in a table of farm statistics which it would be well for farmers to file away and keep for future reference.

The table follows:
