

Indian Education That Counts. The Indian school at Chillico...

At Chillico and many of the other government schools the young Indians get the right sort of education...

This is the education that counts, says the St. Louis Globe-Democrat. The Chillico school was in practical operation at the St. Louis world's fair...

Chinese Students' Uniforms. The establishment of government schools in China, and the equipment of students in uniforms is furnishing a market for military clothing...

KILL THE WEEDS. The best time to root out a troublesome weed is the first time you notice one growing on your land...

THE BARBERRY AS A HEDGING PLANT. Among the many bright spots in childhood's memory there is none which gave more pleasure than that of the barberry hedge...

PEANUT BUTTER. The manufacture of peanut butter is on the increase and is becoming an important commercial product.

Count Boni de Castellano has planned a terrible revenge on the Gould family. He contemplates going on the vaudeville stage.

FARM, ORCHARD & GARDEN

THE FARMER'S CREEK

The following is suggested by Prof. Kirby, of the North Carolina State college, as the sort of creek to which all progressive farmers should subscribe and religiously adhere:

We believe in small, well-tilled farms; that the soil must be fed as well as the owner, so that the crops shall make the farm and the farmer rich.

We believe in thorough drainage, in deep plowing, and in labor saving implements.

We believe in good fences, barns conveniently arranged, good orchards and gardens, and plenty of home-raised hog and hominy.

We believe in raising pure-bred stock or in grading up the best to be gotten; they equal the thoroughbreds.

We believe in growing the best varieties of farm crops and saving the choicest for seed.

We believe in fertilizing the brain with phosphorus as well as applying it to the soil.

We believe in the proper care and application of barn-yard manure.

We believe that the best fertilizers are of little value unless accompanied by industry, enterprise and intelligence.

We believe in rotation, diversification and thorough cultivation of crops.

We believe that every farm should own a good farmer and every good farmer will eventually own a good farm.

RABBIT TRAPS.

One of the incidents and expenses of orcharding on a large scale not likely to be thought of by the casual observer is the constant warfare which it is necessary to wage on the rabbits so likely to do great destruction to young apple trees.

KILL THE WEEDS.

The best time to root out a troublesome weed is the first time you notice one growing on your land. It will take but a minute then, as it is just one plant, or one little patch of plants.

THE BARBERRY AS A HEDGING PLANT.

Among the many bright spots in childhood's memory there is none which gave more pleasure than that of the barberry hedge which grew near the old schoolhouse.

PEANUT BUTTER.

The manufacture of peanut butter is on the increase and is becoming an important commercial product. "Peanut butter is made by grinding peanuts very fine."

WINTER.

Wheat, 60 bushels per acre. Oats, 40 bushels per acre. Corn, 100 bushels per acre. Potatoes, 100 bushels per acre.

POULTRY NOTES.

You need not expect your hens to lay regularly if you confine them to a diet of corn. Vary their food as much as possible.

There is simply no excuse on any farm for not furnishing shade and plenty of pure fresh water for the poultry.

Millet seed is the finest food for chickens as well as older fowls. Scattered among dry leaves it will make a drove of chickens busy and happy for hours.

Line is cheap, is a good disinfectant, is easily secured, and is one of the best purifiers, and should be used often as a wash for coops, perches, nest boxes and the sides of the house.

Go out to the hen house and look at the pan you have been giving the fowls their water in and see how full of straw and other litter it is.

During warm rains, put the palms, ferns, and all house plants, in fact, out of doors. The drenching rain will do them good.

An application of kerosene emulsion each week to the rose bushes will keep them free from aphids.

Summer pruning of shrubs may be made this month. It is easy to keep back a too luxuriant growth by pinching off the shoots.

If you want carnations for winter blooming, nip off the buds now and set the plant to branching out.

The first blooms on asters, verbenas, stocks, drummond phlox, etc., should be cut so as to encourage branching and more blooms.

BULK IN SWINE FOOD.

Swine are by nature omnivorous feeders. They eat flesh, herbage, cereals, roots and fruits. Their food in their natural state has a good deal of bulk.

MAKING A GOOD MILKER.

The real good milker is made the first year. But this is not meant that breeding is a matter of no importance, but she must be made to do good service the first season if she is to keep it up.

DILAPIDATED FARMHOUSES.

In driving about the country one cannot help noticing many places where the owner's lack of thrift is evident in the dilapidated condition of much about the house, barn or farm.

THE STUDY OF BEES.

Nothing on the farm, or anywhere else for that matter, is more interesting than our honey bee. One can watch them for hours and never tire in the least.

MEDICINES AND POULTRY.

We are convinced that doctoring poultry is of little avail. Probably birds could be cured if they would have their diseases diagnosed as humans do and then be put on a regular course of treatment involving the giving of medicine several times a day.

PEANUT BUTTER.

The manufacture of peanut butter is on the increase and is becoming an important commercial product. "Peanut butter is made by grinding peanuts very fine."

WINTER.

Wheat, 60 bushels per acre. Oats, 40 bushels per acre. Corn, 100 bushels per acre. Potatoes, 100 bushels per acre.

COUNCIL HOUSE OF CREEK INDIANS

HISTORIC STRUCTURE MAY BECOME COURT BUILDING.

Citizens Likely to Buy Hall of Justice at Okmulgee, I. T., Where Indian Crimes Were Judged and Criminals Executed.

Okmulgee, Ind. T.—In the event that Okmulgee becomes a county seat under statehood the citizens of the county are more than likely to buy the old Creek council house for a court building.

The council house is one of the historic buildings in the Indian territory. It is made of a very fine grade of sandstone called cotton rock and is situated in a yard shaded by maple trees three-quarters of a century old.

The council house was not only the seat of the Creek legislature, but it served the Indians as a hall of justice for the trial of their prisoners. Beneath the cluster of trees on the shady side of the walk many a prisoner has been executed within the past 28 years.

Sometimes, however, the executions took place in the small cemetery on the hill beyond the present Frisco tracks. The last Creek execution occurred there in July, 1898.

When the fatal shot was fired the young Uteche's eyes were sweeping the lovely Creek hills and uplands. He fell with a smite on his face. His

Job of going through life without working for a living. But young Joicey's father was a level-headed man. He sent his son to a good middle class school, where there was no danger of his being infected with snobbery, and where a thorough grounding in science took the place of Latin and Greek.

Lord Joicey had disadvantage of Starting in Life Rich—Knows Business Thoroughly.

London.—Decidedly the most interesting of the new peers is Lord Joicey, who has been raised from a baronetcy to a barony, and has taken the title of Baron Joicey of Chesler-Street in the county of Durham.

BAD COMPLEXIONS

Discovered Blood Causes Pink Pills and Bore—Dr. Williams' Pink Pills

"I abused my stomach, my blood got out of order and then my face broke out with pimples and boils," says T. E. Robertson, of 197 Addison street, Washington, Pa. "This was over two years ago. My stomach was in bad shape. After eating I would have to rest awhile or I would suffer the most severe pains in my stomach. On arising I would often be so dizzy that I could hardly stand up. The slightest exertion would start my back aching so that I often had to sit down and rest awhile. At times I experienced a pain around the heart which alarmed me but which I suppose came from my stomach trouble."

"I began to break out on the face with pimples and later with boils which confined me to the house a week or more at a time. One day I saw Dr. Williams' Pink Pills for Pale People advertised in the paper and I thought I would give them a trial. I took several boxes of the pills before all the pimples and boils left me, but I am now glad to say that my blood is good. I do not have any eruptions and I no longer have the head and stomach troubles I have described. I am very grateful for what Dr. Williams' Pink Pills have done for me and I have recommended them and always will advise those who are suffering from bad blood or stomach trouble to try them."

If you want good health you must have good blood. Bad blood is the root of most common diseases like anemia, rheumatism, sciatica, neuralgia, St. Vitus' dance, nervousness, indigestion, debility, partial paralysis and locomotor ataxia. Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid, on receipt of price, 50c per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

Even an electric button won't accomplish much unless it is pushed.

There's no need to hunt for a trouble; it will find you just as quick.

Attractive Colorado Booklet. One of the most attractive of the summer vacation booklets that have been issued is "A Colorado Summer," put out by the passenger department of the Santa Fe railroad.

Force of circumstances is a poor excuse for the taking of a wrong path. The bearer of unpleasant tidings rarely appreciates how hard he strikes. Hold fast to a truth without regard to what others may think of you. The value of wealth cannot be estimated by those who do not possess it. It does one no harm to call attention to the good that may be seen in others.

Assumption of humility does not always carry with it the appearance of honesty. Because others may overestimate your value is no reason for your doing likewise. Jumping at conclusions without facts shows a ready mind, if not a well-balanced one. Words can be used so as to increase their importance even in telling an ordinary story. The ravages of time come creeping along no matter how effectively they may be concealed.
