

The Backbone of a Mighty Nation

Is good food—food for brain, food for brawn, food that is strengthening, that gives energy and courage. Without a proper appreciation of this great fundamental truth no nation can rise to greatness.

As an article of food, soda crackers are being used more and more every day, as is attested by the sale of nearly 400,000,000 packages of **Uneseda Biscuits**, which have come to be recognized as the most perfect soda cracker the world has ever known.

And so **Uneseda Biscuits** will soon be on every table at every meal, giving life, health and strength to the American people, thus in very truth becoming the backbone of the nation.

A hundred years ago, the best physician would give you a medicine for your heart without stopping to consider what effect it might have on the liver. Even to this good day cough and cold medicines invariably bind the bowels. This is wrong. Beeze Laxative Syrup with Honey and Tar acts on the bowels—drives out the cold, clears the head, relieves all coughs, cleanses and strengthens the mucous membranes of the throat, chest, lungs and bronchial tubes. 20th Century Druggists, Platte Center. KRYPTOKS—NOW IS THE TIME.

Do you know there is a wonderful power in the little word "now." If we make it our motto through life? It is really the secret of success in anything we undertake.

Little defects in the eyes increase daily, and delay is frequently serious. You have only one pair of eyes; if they are defective, glasses will usually restore the sight to its normal condition, but if you wait too long, even the greatest skill may be powerless to help you. If you are in doubt as to the kind of glasses to secure, let us fit you with a pair of "Toriscus-Kryptoks." Toriscus glasses are so constructed that they give the eye a larger scope of vision than is possible in ordinary lenses, and, fitting more closely to the face, protect the eyes from dust particles and reflections from light. Kryptoks are made in Toriscus shape, combining the qualities of the two, making it the most perfect lens in existence. To know more about the Kryptoks write to the Columbian Optical Co., Temple Court, Denver, Colo., the sole makers and distributors of these lenses in the West. A booklet giving full information will be sent free of charge.

LINDSAY

The Opinion. A small blaze occurred in the kitchen of O. E. Charnquist's residence Wednesday morning but was soon extinguished by the timely aid of neighbors.

Died:—At the home of her son, Alfred Olson in Lindsay Sunday morning July 30th, Mr. John Olson, after an illness of several months duration. Funeral services were held from the M. E. church at Looking Glass Monday and interment at the cemetery at that place. The deceased was an old settler of the Looking Glass community and moved to Lindsay to live with her son shortly after the death of her husband several years ago. The sorrowing ones have the heartfelt sympathy of all in this their sad bereavement.

The body of Mads Anderson, who died in Oregon in June 26, did not arrive until yesterday morning. His daughters, Mesdames S. S. Sorenson and Chris Hendrickson are here and will give their father a burial service at the Danish church and then the body will be laid aside his wife who died ten years ago. Mr. Anderson was about sixty years of age and lived here for fifteen years until three years ago when he went to Oregon to live. A letter was received from him on the 24th saying he was well and hearty, and the daughters were very much surprised to learn of his death, by telegram two days later.

Genoa.

James Pearsall of Columbus was in the city the first of the week renewing his old acquaintances.

Mrs. J. M. Kennedy, while sitting in her yard listening to the address on the 4th, was taken suddenly ill, from which she has not recovered at this writing. The attack was caused from a combination of physical troubles.

Ralph Pagsley moved with his family last week to his new home at Monroe where he will keep books for a mercantile firm of which he has become a member. Mr. and Mrs. Pagsley have a host of friends in our city who will miss them exceedingly.

The death of Mrs. N. J. Skoug on Saturday last, though expected, cast a shadow of gloom over the entire community. Mrs. Skoug has been gradually wasting away, from a cancer, for the past year. Everything that medical skill could do was done to arrest the dread disease but without results, and she passed away the last of the week after weeks of suffering. The deceased was one of Genoa's most highly respected ladies having been a resident for many years. Besides an aged father and mother and several brothers and sisters she leaves two small children, a husband and two stepchildren to mourn her premature death. The funeral services were held at the residence on Monday afternoon and the remains laid to rest in the Genoa cemetery.

St. Edward.

William Vincent arrived Monday from Nisbet, N. D., where he has been since last October on his Dakota farm. He reports that crops are looking fine in Dakota and that his father will not return to Nebraska until later in the fall.

At a meeting of the Commercial club Monday night by-laws and a constitution were adopted and the organization was made permanent. One feature of the constitution was to allow anyone living within the territory of St. Edward to become a member of the club. Mr. Bert Taylor had contributed a quarter's dues to the secretary of the club and has the honor of being the first farmer to join the club. The dues are \$1.00 a year, payable quarterly in advance. After once joining the club, one is considered a member so long as he is not in arrears for dues. A committee consisting of Dr. O. A. Britell, W. F. Flory and S. J. Kennedy were appointed to investigate the probable cost of building an opera house and are to report at the next meeting which will be held in about two weeks. The proposition is to build the opera house by stock subscription. After the cost of the building and location has been determined, it is proposed that a number of the substantial business men and a number of the substantial farmers file articles of incorporation and open the stock books for subscriptions. Very little difficulty is anticipated in making such a proposition carry as a number of farmers have already expressed a desire to assist in such an enterprise. Dr. O. H. Flory, J. B. Carter and A. P. Peterson were appointed a committee to investigate the probable cost of a waterworks system. After their report if in the opinion of the club a system of waterworks seems to be within the possibilities for St. Edward, an effort will be made to hold a special election to determine the sentiment of the people upon the matter. A. P. Peterson, P. F. Cahill and S. J. Kennedy were appointed a committee to request the village board to make a small appropriation to test the efficiency of the King road on certain streets in St. Edward.

This move was prompted by the good reports which are coming from Hugh Smith who using a drag on the road running along the west side of his farm. President E. W. McFarland was tendered a vote of thanks for the prompt train service and numerous improvements recently made by the Union Pacific railroad company, both of which are directly resultant from his visit to the railroad officials at Omaha.

This community was shocked to learn this morning by cablegram that Steve Rich had died at his mother's home in Copenhagen, Denmark, on July 2nd, 1905, of inflammation of the liver, aged 38 years, 6 months and 12 days. In April of this year accompanied by his wife, he left for Denmark to spend the summer with his mother, but shortly after arriving over there he caught cold which settled on his lungs and afterward his old trouble developed, which resulted in his death. He leaves, beside a wife and mother, three brothers and a sister. Louis manager of a large dry goods store in Copenhagen, George and Carl of this place, and Mrs. Dorthea Harpoth, wife of a banker in Copenhagen. She was official court interpreter for a number of years for the King of Denmark.—St. Edward Sun.

Gay, the six year old boy of Nels Berlin, had one of his arms broken Thursday morning in a runaway. Monroe
(From The Republican.)

The Wells-Abbott-Nielman Co. of Schuyler have sold four of their elevators to the T. B. Ford Grain Co., of Central City, the elevator at Monroe being included in the sale. The deal was completed the first of the week and representatives of both companies were here making the transfer. John Gibbon is returned by the new firm as manager of the elevator, and as the Wells-Abbott-Nielman people will continue their flour depot here, he will also have charge of that. From now on exchange and retelling grain will be discontinued.

Leigh
(From The World)

Last Saturday morning the Chicago & North Western passenger train ran into a wagon and a span of mules near John Guidinger's farm three and one-half miles east of town. The wagon was occupied by a Mrs. Morefeld and fifteen year son. The mule had got across the track, but the wagon was still on the track. The occupants were hurled out, the box thrown three hundred feet and the wheels two hundred. It was truly marvelous that Mrs. Morefeld and son were not instantly killed. When they were picked up Mrs. Morefeld was found to be suffering from internal injuries and bruises to such an extent that she was unable to stand. The son was suffering from a dislocated arm and several sprains and bruises. On the train from Leigh as passengers were Dr. J. H. Lowery, John Tally and Mrs. Carson and daughter. Dr. Lowery rendered professional services and assisted in getting the injured parties to Howells where they were turned over to the company physician, Dr. Preston. The train was held at Howells for more than a half an hour to see that the patients were cared for and that it would not be necessary to take them to a city hospital. The Morefelds live near Orleans and were on their way from that place to Cornlea where Mrs. Morefeld has a married woman they were going to visit. The last reports state that the parties are getting along nicely and will be well in due time.

Walter Guidinger, who has been attending Medical College in Chicago for the past two years arrived home the latter part of last week. He was summoned here account of the severe illness of his mother, Mrs. John Guidinger, who was taken with an attack of paralysis on the night of July 3rd.

Opening of the Shoshoni Reservation.

Registration for the drawing of the land of the Shoshoni Reservation will begin at Shoshoni and Lander Wyo. July 16th, and continue to July 31st, inclusive. Drawing for the land will take place at Lander Wyo., beginning August 4th, and continue until the land is disposed of. The land will be opened for settlement August 13th, 1906. There will be about 1,140,000 acres thrown open to settlement. The Engineering Department of the State of Wyoming has completed final arrangements for the irrigation of a large part of these lands by use of the abundant water supply of the Big Wind river, making it one of the finest and cheapest irrigation projects in the west.

Tickets will be on sale by the Chicago and North-western Railway, July 12th, to 25th inclusive, good returning until August 15th on which stopovers may be had in both directions at points in regular homeseekers territory within the limit of the ticket. The Round Trip Rate between Omaha and Shoshoni Wyo. will be \$20.00.

For circulars, maps or other information telling how to reach the reservation and register, address R. F. MILLER, Asst. Genl. Frt and Pass Agent Chicago & Northwestern Ry., 1201 Farnam St., Omaha, Neb., or any North-western Line Ticket Agent.

Humphrey.
(From The Democrat)

Miss Mary Dineen and Mary Schaefer went to Columbus Wednesday noon for a couple of weeks visit with relatives.

Fred Myers, who for several years was a barber in Humphrey, died at his home in Cornlea, Wednesday afternoon of this week. Deceased had been in poor health for some time but he was not considered in a serious condition until a short time before his death. Funeral services will be held from St. Francis church tomorrow morning and the remains will be placed in St. Francis cemetery.

Mrs. Mary Morfield and son formerly of Cornlea were run down by the east bound northwestern passenger last Saturday morning on crossing four miles southwest of Clarkston. Mrs. Morfield accompanied by her son were on their way from their home at Orleans to Cornlea to visit her daughter, Mrs. Anton Mohad, when the accident happened. It is not known whether the mules balked at the critical moments of crossing or whether the engineer failed to signal in time. The crossing is said to be a dangerous one as there is sharp curves on both the railroad and wagon road. Mrs. Morfield sustained internal injuries and the boy had one arm dislocated but it is thought both will recover.

Louisa, wife of Gottlieb Fischer, died at the family home south of town on Thursday, July 5, after an illness of only a few weeks with scarlet rheumatism and neuritis. The deceased, whose maiden name was Louisa Kallinger, was born in Wittenberg, Germany, April 29, 1849. In 1869 she came to America and settled in Illinois where in January, 1870, she was united in marriage to Gottlieb Fischer. In 1886 they came to Platte county and located near Humphrey where they have since resided. The deceased was a Christian woman, a devoted wife and mother. Her absence will be sadly missed. She leaves to mourn her loss, her husband, and three sons and two daughters, all of whom were present at the funeral. They are: William, Charles, and John, and Mrs. Charles Schroeder and Miss Mary. The funeral was held from the residence last Sunday afternoon and the remains were laid to rest in the Humphrey cemetery.

Makes the Liver Lively.

Orino Laxative Fruit Syrup gives permanent relief in cases of habitual constipation as it stimulates the liver and restores the natural action of the bowels without irritating these organs like pills or ordinary cathartics. Does not nauseate or grip and is mild and pleasant to take. Remember the name Orino and refuse substitutes. Chas. H. Duck.

Lake Tahoe

One of the most beautiful lakes in the world lies in the heart of the Sierras on "The Overland Route," 6,220 feet above the sea level, and is completely hemmed in by mountain walls, whose rugged peaks rise in many places to an additional height of from 2,000 to 4,000 feet. It is twenty-three miles wide and from 100 to 2,000 feet deep. The entire region surrounding the lake is picturesque almost beyond description, and a never ending delight to the eye. This region is reached only over the Union Pacific and its connection, the fast trains via this route reach California many hours ahead of all competitors. Inquire of W. H. Benham.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have saved years of suffering. Chas. H. Duck.
