**Cured Hay Fever and Summer Cold**  
A. J. Nashbaum, Batesville, Ind., writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Fuley's Honey Tar and it quickly cured me. My wife has since used Fuley's Honey Tar with the same success." Ohas. H. Deck.

Considerable anxiety was occasioned among our people during the fore part of the week on account of a rumor that smallpox had broken out among the Japanese railroad laborers camping in our town. Dr. Pugh made an investigation and found that several of the sons of Mikado were afflicted with a peculiar ailment. The symptoms being a rash outbreak all over the body and shooting pains through the arms and lower limbs. None of the symptoms of smallpox were in evidence however and upon further investigation the doctor found that the disease is characteristic of the Japanese and Chinese people. It is known to medical science as Beri-Beri and frequently results fatally. The trouble in this case was caused by a change of diet from rice to corn bread and swine hom. It was a case where the Jap couldn't stand to be fed on the fat of the land without becoming sick.

**Humphrey.**  
*(From the Democrat)*

Peter, the eight year old son of Mr. and Mrs. Broder Kelson met with an accident last Friday evening which may be the cause of losing one of his feet. He was out playing around the brick yard with several of his companions and while in that part of the building where they unload the clay into a crusher, he in some way slipped into the crusher with one foot. The crusher is constructed with rollers in such a way that anything coming in contact with the rollers is drawn through them almost instantly. Chas. Kramac who was feeding the crusher at the time managed to catch hold of the boy just as he slipped in and at the same time succeeded in throwing off the belt of the machine by throwing a hammer into it. The boy's foot was drawn into the rollers up above the ankle, and practically all the skin on the foot and ankle was peeled off, but fortunately no bones were broken. The young man was quickly brought to town and a doctor called. The wound was thoroughly examined and dressed and on Saturday morning he was taken to St. Joseph's hospital in Omaha by his father and Dr. Lamb.

We are indebted to Fred Pratt and his typo, of the Humphrey Democrat for the appearance of the Signal on schedule time. After Mr. Allen departed on Tuesday our typo took ill and Fred and his man came down and helped us out of the predicament. Mr. Ramey of the Columbus Printing and Specialty House helped us with the efficient assistance of Miss Evans. All of which we appreciate. Yes, if ever any of these people get into jail we will be glad to help them out.

Mrs. Maggie McEvoy received the sad news that her grandfather, Edward Barrett, died early Thursday morning at his home in Omaha. Mr. Barrett was eighty-eight years of age and quite well known here. The funeral will be held Friday morning.

His patent came to the notice of the Calumet and Hecla copper mining people and they asked him to come to their camp near Lake Superior where they are put to great expense in removing debris from one of their reduction plants. Parker thinks his siphon will solve the problem.

It is the 25th anniversary of the church, and former pastors are expected to sit at the head of various tables, and pastors from nearby towns are on the program and a loyal love feast will follow.

It is alright to preach that a man should love his neighbor as himself it is so good and platonie. But it is not always possible. Take for instance the man who has just planted a fine garden and his neighbor has chickens which he persists in permitting to run at large. How can the man with the garden love that neighbor as himself? It simply can't be done as long as those chickens are not shut up tight.

## Opportunity is Written Big all Over the Month of August

It is house-cleaning time for us. We must get rid of what still remains of Summer stocks in Men's Clothing and Furnishings before the incoming of Fall stocks. Every day in August means a day of opportunity to you to buy clothing and the accessories of dress at greatly reduced prices. It would pay you to buy now and put away when you consider that the prices we quote here mean a saving of anywhere from a third to a half of regular prices. But that isn't the best of it—there are two months of Summer weather ahead in which you can get the full value in wear of what we ask you to pay now.
