

A man never realizes the goodness of his neighbors until he is sick.

**PUTNAM'S FADELESS DYES** color more goods, brighter colors, with less work than others.

Yes, Alamo, there are some fair dealers who are not blunders.

Lewis' Single Binder straight is cigar made of rich, mellow tobacco. Your dealer or Lewis' Factory, Peoria, Ill.

**Striking Advice.**  
Mrs. Anxious (mother of two marriageable daughters)—Really, I don't know whether to send Grace and Ethel to the seashore or the mountains this summer. What do you advise?  
Mrs. Knowing—Well, I would advise Sulphur Springs for a change. Sulphur, you know, is one of the principal requisites in matchmaking.

**Pushing Cape to Cairo Line.**  
In a report in the London Times it is stated that the Cape to Cairo railway in South Africa has been opened so as to run over the Kafue river on a bridge which stands on 13 spans, each 100 feet, with pillars resting on a bed 16 feet under the water. Kafue river is 266 miles north of Victoria falls, and the distance from Cape Town is 1,908 miles. The railroad, however, is now at Broken Hill, 347 miles beyond the falls, the line having been pushed on while the bridge was building over the Kafue river.

**His Interest Was Personal.**  
An eccentric member of the British parliament who died recently endeavored vainly during a quarter of a century to get passed into law a bill for preventing persons from standing outside windows while cleaning them. During his last session the old fellow complained to a colleague that his object in introducing the bill had been quite misunderstood by the house for these 25 years. "I introduced the bill," said he, "not for the sake of the window cleaners, but for the sake of the people below on whom they might fall. The idea of the bill was suggested to me by the fear that a window cleaner might fall on myself."

### TAKE OUT STAINS.

**THOSE MADE BY FRUIT JUICE MAY BE EASILY REMOVED.**

Use Sulfur Water for the Bright One And Acids for the Bad One, One, But Great Precaution Is Needed.

With the frequent service of fruits, the table linen is apt to suffer. Before sending to the laundry the tablecloths and napkins should be examined carefully and the spots removed, as many stains, taken in season, can be removed easily from linen by putting the stained portion over a bowl and pouring a stream of boiling hot water through it. When the spots are obstinate, however, acids must be used. This part of the work always should be done under the supervision of the mistress, to see that all needful precautions are taken to prevent destroying the fabric itself.

Oxalic acid, allowing three ounces of the crystals to one pint of water, will be found useful to be kept on hand for this special purpose. Wet the stain with the solution and hold over hot water or in the sun. The instant the spot disappears rinse well. Wet the stain with ammonia, then rinse again. This many times will save linen.

Javelle water is excellent for white goods and may be made at home or purchased at the druggist's. A good rule for making it calls for four pounds of washing soda, dissolved in four quarts of soft water. Boil ten minutes, take from the fire and add one pound of chloride of lime. Cool quickly, bottle and keep tightly corked. This is strong, and must be handled with extreme care.

Peach stains are the hardest of all fruit stains to remove, but a weak solution of chloride of lime with infinite patience in its application, frequently will effect the desired result.

### EXCELLENT STUFFED HAM.

Simple Directions for Cooking This Appetizing and Palatable Dish.

What to Eat gives directions for a stuffed ham, which ought to be very good. For a buffet supper it would be especially attractive. A medium-sized sugar-cured ham is boiled in the usual manner. When done, either slash with a knife, making long, slanting slashes, or puncture to the bone with the carving steel. Prepare a stuffing of bread crumbs seasoned with prepared mustard until the crumbs are quite yellow. Moisten with the water in which the ham was boiled. Mix with the dressing one onion chopped fine, a few sprays of parsley, minced, and plenty of pepper, black or red. Press this dressing in the slashes or punctures, and glaze the ham over with white of egg. Take a large handful of crumbs, some as large as a grain of corn, and others larger; spread these over the top of the ham and moisten them with cream. Place in the oven long enough for the crumbs to brown, which will be long enough also to let the stuffing get hot. Garnish the dish with parsley or fine bunches of watercress.

### No Sex in Initials.

There is a bad trick in business letter writing to which men as well as women are addicted, said a business man. "I mean the way people have of signing merely initials and leaving you without a clew as to their sex, consequently without a correct form in which to reply to their communication and without a properly complete notion of their identity."

"For example, I have been for three weeks in desultory correspondence with a client who signed 'S. T. Smita,' we will say. The handwriting was somewhat feminine, and I had my secretary address the answers to 'Mrs. S. T. Smita.' We received a correction this morning from Samuel T. Smita, and discovered that our correspondent is a man."

### Two Good Salads.

Potato Salad.—Boil, peel and chop fine several potatoes; peel and slice half as many onions; have skillet ready with enough bacon fat to fry the onions until tender; salt the potatoes and add to the onions, stirring until well mixed; lastly, add one cup of good vinegar, cover closely and set back to simmer awhile, then serve.

Cabbage Salad.—Boil together one egg, well beaten, one tablespoonful of butter, one tablespoonful of sugar, one-half teaspoonful of salt, three-fourths cup of vinegar, until it thickens; stir constantly; have cabbage chopped fine and pour over it hot. If you will add one-half cup of thick cream to the above, it makes a fine dressing for lettuce.

### Embroidered Linen Belts.

Embroidered linen belts are cheap enough, still there cannot be the individuality about them as may be seen in a belt made at home from a single motif of handsome embroidery set on at the center back to a strip of white linen closing in the front with a buckle of one's own choosing, while, perhaps, the buckle will be the only part of the belt that has had to be purchased. Now that the three little bows are worn at the throat much money may be saved by making these at home, the smallest scraps of silk being available for the purpose.

### A Profitable Divorce.

France now consumes more than seven times as much asphalt as it did in 1901. A separation from asphalt might have been better, after all, for the French than the separation of church and state.—Louisville Herald.

### Martin's Lament.

Martin kicked the black cat under the sofa and threw himself petulantly into a chair. "If I could just learn that three-o'clock fare trick," he growled, "I'd have any other conjurer in history beaten a city block."

### POPE'S STRONG COMMON SENSE.

Pope's Refusal to Be Made an Invalued by a Pen Prick.

The following story is told of Pius X. by the Rome correspondent of the London Pall Mall Gazette: The other day he was writing at his desk, when his pen began to splutter. He decided to change it, but it stuck, and it was only after a strong pull that it came out, promptly pricking him under his nail, for which probably he would have followed the natural impulse to put it in his mouth, and we would have heard nothing more of the incident had there not been an ink-stain also. His exclamation brought his secretary, who washed away the blood with disinfectants, to obviate microbes, and bound it up, at the same time suggesting a doctor's visit. "No, no," said the pontiff laughing. "It would be known to the press at once; I should be killed and buried by them before he could arrive!" Those surrounding him would have liked to make the slight mishap an excuse for stopping the audiences, but Pius X. was somewhat annoyed at the suggestion, saying, "Enough, enough! What is a pen-prick! You make me ridiculous. I have not ceased to be a man and become a baby!" So he was present at the ceremony in commemoration of his predecessor, making jokes about his bandaged finger.

### GOOD COLORS FOR HOUSES.

It is not generally known—not even among painters—why certain tints and colors wear much better than others on houses, and the knowledge of just what tints are best to use is, therefore, rather hazy. One writer on paint, in a recent book, says that experiments seem to show that those colors which resist or turn back the heat rays of the sun, will protect a house better than those which allow these rays to pass through the film.

Thus red is a good color because it turns back, or reflects, the red rays, and the red rays are the hot rays.

In general, therefore, the warm tones are good and the cold tones are poor, so far as wear is concerned. In choosing the color of paint for your house, select reds, browns, grays and olives which, considering the various tones these tints will produce, will give a wide range from which to choose.

Avoid the harsh tints, such as cold yellows (like lemon), cold greens (like grass green, etc.), and the blues. It must be understood that no virtue is claimed for tints in themselves, irrespective of the materials used in the paint. Any color will fade, and the paint will scale off, if adulterated with lead or canned paint is used, but if one is careful to use the best white lead—some well-known brand of a reliable manufacturer—and genuine linseed oil, the warm tints mentioned above will outwear the same materials tinted with the cold colors.

### PUTTING IT RATHER ROUGHLY.

Leading Question Asked of Methodical Writer.

There is a certain writer in Boston—a man of remarkable versatility—who once gave a friend in the publishing business in New York a resume of the details of his average day's work.

"I am as methodical in my work," said the Boston writer, "as any business man. My daily tasks are so diversified and so arranged that I am able to afford myself considerable variety during the 12 hours per diem that I employ in authorship. For instance, from eight in the morning to ten I do my verse; from ten to 12 my criticisms; from three to five I am engaged upon a history of the world intended for perusal by children." And so he continued to give his visitor the whole scheme. When he had concluded, the New Yorker, an exceedingly blunt individual, rather unkindly inquired:

"And when, sir, do you think?"

Career of Veteran Engineer.  
Charles Haynes Haswell, 97 years old, is a practicing engineer in New York city, and was an interesting figure at the laying of the new Engineers' clubhouse corner stone by Mrs. Carnegie the other day. He saw Robert Fulton's first steamboat on the Hudson river, and expects to take a prominent part in the Fulton and Clermont centennial next year. In the civil war he was chief of the engineer corps in Gen. Burnside's expedition and received high praise for his work.

### Gen. Mercier, in England.

Gen. Mercier, who has fled from Paris to England, where he hasn't been enthusiastically received, once delivered in the French senate an elaborate speech on the feasibility of invading England.

### MORE THAN MONEY.

A Minister Talks About Grape-Nuts.

"My first stomach trouble began back in 1895," writes a minister in Nebraska, "resulting from hasty eating and eating too much. I found no relief from medicine and grew so bad that all food gave me great distress. It was that sort of gnawing, hungry feeling in my stomach that was so distressing and I became a sick man. Grape-Nuts was recommended as a food that could be easily digested."

"Leaving the old diet that had given me so much trouble, I began to eat Grape-Nuts with a little cream and sugar. The change effected in 24 hours was truly remarkable, and in a few weeks I was back to health again. My work as a minister calls me away from home a great deal, and recently I drifted back to fat meat and indigestible foods, which put me again on the sick list."

"So I went back to Grape-Nuts and cream and in four days I was put right again. The old dull headaches are gone, stomach comfortable, head clear, and it is a delight to pursue my studies and work."

"Grape-Nuts food is worth more than money to me, and I hope this may induce some sufferer to follow the same course I have."

Name given by Postum Co., Battle Creek, Mich.  
"There's a reason." Read the little book, "The Road to Wellville," in page.

### COULD NOT KEEP UP.

Epghan Down, Like Many Another Woman, with Exhausting Kidney Troubles.

Mrs. A. Taylor, of Wharton, N. J., says: "I had kidney trouble in its most painful and severe form, and the torture I went through now seems to have been almost unbearable. I had backache, pain in the side and loins, dizzy spells and hot, feverish headaches. There were bearing-down pains, and the kidney secretions passed so frequently, and with a burning sensation. They showed no improvement. I became discouraged, weak, languid and depressed, so sick and weak that I could not keep up. As doctors did not cure me I decided to try Doan's Kidney Pills, and with such success that my troubles were all gone after using eight boxes, and my strength, ambition and general health is fine."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

### GAS USED UNDER LIME KILNS.

Innovation by Connecticut Company Is a Success.

The New England Lime company, of Westwood, Conn., asserts that it is the first to introduce gas as fuel for lime burning. The method is pronounced an entire success. The growing scarcity of wood fuel led to the discovery of gas as a substitute for wood, and the company no longer considers the gas method an experiment. The efficacy and reliability of gas have been demonstrated beyond a doubt. Had it been impossible to find a substitute for wood, said a member of the company, it would have meant the restriction and perhaps the total abandonment of the business. Gas fires are absolutely clean at all times—no clinkers and no cinders—and the lime produced is much whiter than that burned by wood. Gas also produces a more intense heat, and consequently increases the capacity of the kilns. The daily output at the company's kilns is increased from 50 barrels per kiln to 100 barrels, or a total of 700 barrels daily.

### DOCTOR CURED OF ECZEMA.

Maryland Physician Cures Himself—Dr. Fisher Says: "Cuticura Remedies Possess True Merit."

"My face was afflicted with eczema in the year 1897. I used the Cuticura Remedies, and was entirely cured. I am a practicing physician, and very often prescribe Cuticura Resolvent and Cuticura Soap in cases of eczema, and they have cured where other formulas have failed. I am not in the habit of endorsing patent medicines, but when I find remedies possessing true merit, such as the Cuticura Remedies do, I am broad-minded enough to proclaim their virtues to the world. I have been practicing medicine for sixteen years, and must say I find your Remedies A No. 1. You are at liberty to publish this letter. G. M. Fisher, M. D., Big Pool, Md., May 24, 1905."

### Rice Eaters.

In China and its dependencies, with a population of 400,000,000, or 25 per cent of the total population of the world, rice is the principal food supply. The same may be said also of India, with its population of 275,000,000, and Japan, with its 40,000,000. In addition to these it is a chief article of diet with other peoples of Asia and Africa, whose population is estimated at 100,000,000. The total reaches 815,000,000, or 50 per cent of the total population of the earth.—Boston Globe.

### A Good Opening for Young Men.

WANTED: Students to learn dentistry. One thousand to eighteen hundred a year as soon as competent. Cannot supply the demand. For particulars address Dr. Clyde Davis, Lincoln, Neb.

### Emigration of Russian Jews.

More than one-fifth of the Jews in Russia have within the last five years changed their places of residence, mostly by emigration.

### How Emperor William is Suffering Against a Dangerous Heredity.

Emperor William's father died of cancer of the throat. Emperor William himself had infantile paralysis, and has had to struggle with many diseases. It has been whispered that he himself is troubled with the same malady. Their carriage of his father. Royal blood is unfortunately most generally deteriorated. Emperor William knows this as well as he does, and in doing his best to eradicate the bad blood from himself and his family by the adoption of simple life principles, the visit of a countryman of his to Battle Creek, Michigan, while in this country, visiting the World's Fair in Chicago in 1893, Emperor William became acquainted with the Battle Creek idea of simple life, and has to a large extent adopted the methods in his family. His wife and children live the simple life and take Battle Creek light baths. Their uncle, King Edward, also has these baths installed in his Windsor and Buckingham Palaces for the use of himself and Queen Alexandra.

Among other things GOOD HEALTH, the oldest health journal in the world, tells about the Battle Creek idea and the simple life. Every number is bristling with up-to-date ideas. Sample copy 10 cents. One dollar a year. If you will cut this out and send to GOOD HEALTH PUBLISHING CO., Battle Creek, Mich. with a quarter you will receive a trial three months' subscription to this handsome illustrated monthly health magazine. Write to-day.

### Iceland's First Theater.

Iceland's first theater was founded only in 1897 and there is only one in the island—at Reykjavik—but it has taken firm root. The dramatic season opens in October and closes at the end of April, when a large part of the inhabitants go fishing.

### In a Pinch, Use ALLEN'S FOOT-EASE.

A powder. It cures painful, smarting, nervous feet and ingrowing nails. It's the greatest comfort discovery of the age. Makes new shoes easy. A certain cure for sweating feet. 30,000 testimonials of cures. Sold by all druggists, 25c. Trial package, FREE. Address A. S. Olmsted, Le Roy, N. Y.

### Inventor's Fondness for Music.

Thomas A. Edison, the noted electrician and inventor, is extremely fond of music.

60 Bus. Winter Wheat Per Acre That's the yield of Fisher's Red Cross Hybrid Winter Wheat. Send in 10 cents for free copy of book. Also catalogue of Winter Wheat, Red, Hard, Soft, and other varieties. Write to Fisher's Hybrid Wheat Co., Box 11, Le Roy, N. Y.

W. N. U., OMAHA, NO. 34, 1905.
