RUN DOWN FROM GRIP

Piek Pille Have Carel is Form of Dobility in de of Cases

16

"Four years ago," mys Mrs. F. Morrison, of No. 1923 Carson street, South Side, Pittsburg, Pa., "I took a cold which turned into the grip. This trouble left me all run down. I was thin, had backache much of the time, had no ap-petite, my stomach was out of order and I felt nervous and unstrung. "While I had the grip I had a doctor,

but I really suffered more from the condition in which the influence left me than I did from the disease itself. I felt enerally wretched and miserable and the least exposure to cold would make me worse. I couldn't seem to get any better until I began to take Dr. Williams' Pink Pills. I very quickly noticed a consist after I began taking them and they restored me to good health and strength. Dr. Williams' Pink Pills are a wonderfully good medicine. Thanks to them I am now in fine health and have had no return of my former trouble. I recommend the pills to everyone who is ailing and take every opportunity to let people know how good they are." Dr. Williams Pink Pills cured Mrs.

Morrison because they actually make good, red blood. When the blood is red and healthy there can be no debility. The relation between the blood and nervous system is such that the pills have a very decided action upon the nerves and they have cured many severe nervous disorders, such as partial pa-ralysis, locomotor ataxis and St. Vitus' dance, that have not yielded to ordinary treatment. Their double action, on the blood and on the nerves, makes them an ideal tonic.

All druggists sell Dr. Williams' Pink Pills, or they will be sent by mail post-paid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Wil-liams Medicine Co., Schenectady, N.Y.

The farm without its apple tree is reproach to any farmer.

After the long, hard day's work the horse is entitled to a good clean, soft, dence as to the kind of treatment they peared. I have been well now for nine dry bed. Does he get it?

The pure, clean water pail is a large factor in successful dairying and stock raising.

Water the milk by all means. Be sure the water is pure and that it is introduced into the milk through the COW.

Quick, nervous moves among the hens scare them and tend to make them wild.

Cheap sait should never be used in butter, as it contains impurities which are apt to injure the flavor.

The man who plants a tree is wise but the man who plants an apple tree is doubly wise, and thrice blessed.

Arrange it so that the cattle can have free access to salt, as it will then be eaten in smaller quantities at a time as they need it.

Fall work is necessarily heavy, but have a care that you do not tax the muscles to the point where recuperation is difficult.

It is said that the new rate law is working to the advantage of California fruit growers, as each road must provide its system of refrigerator cars.

The cause of mottles in butter has been attributed to various conditions among them the presence of butterdustries and the awakening of general milk and the uneven distribution of salt

Save time in the potato field by having one gang of pickers gather up the marketable potatoes, another the most; and a third to clean up everything How a

It pays to be kind to the COPPER SAFE FROM LIGHTNING. cows and to win not only their confidence but their love. ----

By growing leguminous crops nitro gen can be restored to the soil, but when potash and phosphorus are needed it is the common practice to supply them by means of the commercial fertilizer. However, there is a theory gaining favor that by the proper rotation of crops and the changing of the pasture from one part of the farm to the other the phosphorus and potash can be maintained.

Mediaeval Spain, as she is called so often, is not so far behind the rest of the world when it comes to agriculture. There, as in America, they have learned the value of agriculture, and recently a gigantic siphon has been completed by which the waters of the Aragon and Catalonia irrigation canal are carried across the valleys of the Sosa and Ribabona, making fertile more than 247,000 acres of land. The siphon consists of two main tubes, fivereights of a mile long and 12 feet 5 inches in diameter, lined with steel plates three millimeters thick, bound with iron hoops and encased in concrete. These tubes have a capacity of 7,700 gallons per second.

One of the most significant signs of a is the rise of agricultural in

DAY OF TRIUMPH POSTPONED.

Dudekins Has Yet to Get Even with Witty Charmer.

She had been having fun with poor Dudekins for # long time, and he was wishful to get even with her. His Idea took the form of a brilliant conundrum, whose answer Dudekins thought was locked in his manly chest.

"I have a conundrum for you, Miss Frances," he said, when he next met

"Ah!" she responded. "What is it? Who gave it to you?"

"I made it up myself!" he asserted bridling somewhat. "Indeed! What is it?"

"Why are my clothes like the moon ?

She besitated a moment, and Dudekins began to look triumphant. "You may think," she said, slowly-

and Dudekins somehow felt the sand slipping from under him-"it is because they have a man in them, and you have a perfect right to think as you please. But, Mr. Dudekins, opinions differ!"

Adopt American Ideas. • The Russian military authorities are considering the adoption of khaki uniforms, the czar having been especially interested in one recently worn runs. by an American army representative at St. Petersburg. The military authorities are also considering Ameri-can accoutrements, including web cartridge belts and cavalry saddles, with

a view to their adoption.

A Man of 70 After Finding Coffee Hurt Him, Stopped Shert.

When a man has lived to be 70 years old with a 40-year-old habit grown to him like a knot on a tree, chances are he'll stick to the habit till he dies.

best worker.

But occasionally the spirit of youth and determination remains in some men to the last day of their lives. When such men do find any habit of life has been doing them harm, they surprise the Oslerites by a degree of will power that is supposed to belong to men under 40 only.

"I had been a user of coffee until three years ago-a period of 40 years -and am now 70," writes a N. Dak. man. "I was extremely nervous and debilitated, and saw plainly that I must make a change.

"I am thankful to say I had the nerve to guit collee at once and take on Postum without any dawdling, and

Many a farmer has selected his seed of agricultural problems is turning the corn with care, only to neglect its subattention of students in the direction sequent care, so that the vitality was of agriculture.
