Our citizens were greatly shocked on Friday last by the news that John Lawson, living just east of town in Platte county, had been found dead in the road just this side of Battle's farm. His body was discovered by the Moore brothers, who were coming into town with a load of hay. They first met his team, which they stopped and started to bring back to town. They soon found Lawson lying by the side of the road, and one of them hastened to town for medical aid but life was extinct when Dr. Davis arrived on the scene. Mr. Lawson had been in town and was on his way home with a load of shingles when death overtook him and it is the opinion of the physicians that he was dead before he fell from his wagon and that death was caused from either heart failure or the bursting of a blood vessel in his brain. The deceased was an old, highly respected and prosperous resident of this section and leaves a widow and several children to mourn his sudden death. The funeral was held on Sunday and the remains interred at the First's cemetery east of town.—Geece Leader.

While the Loup river does not cut away the land along its banks as bad as the old Missouri, still there are places in Platte county where nearly whole farms have been swallowed up. One of the worst places of this kind is a mile west of Osceola, on the farm adjoining J. C. Dawson's place on the west. Here the river has been gradually cutting until within the last fifteen years it has moved the channel from a quarter to a half mile north. Where it is cutting now there is a small ravine, and should it reach that something will have to be done to check it.
