Summing it up, the ruling of the interstate commerce commission on advertising contracts between the railroads and newspapers will result in placing this business on a sound business bases. The agitation at this time is quite similar to that of almost twenty years ago. At that time the railroads issued annual passes to newspahaps once in awhile a little local advertising a publication of a time card. But there has been a gradual change. The railroads began to appreciate the value of advertising, and this department was added, until today some of but it will not be able to withstand the best advertising men in the coun- Bee's Lazative Honey and Tar. "The people of the United States vs. Theodore, Roosevelt, President," will be the title of a suit that will b filed as soon as the chief executive returns from the Isthmus, if James B. Green, a negro lawyer of this city carries out his intention. The lawyer will take up the case of the three comanies of the Twenty-fifth Infantry, whom the president 'discharged because of the Brownville, Tex., race troubles. The negro soldiers, it will be remembered, refused to divulge the identity of several of their number who engaged in a shooting affray with citizens of the town, and the president forthwith issued a sweeping order discharging the battalion, which took from the members the right to serve again in the military or naval service of the nation, and furthermore abrogated their civil rights. This order, contends Mr. Green, is in violation of the constitution, and he proposes to bring suit to compel the setting aside of the presidential order and the re-

turn of their civil rights to his clients. Only by a courtmartial can men be punished as the president punished them, is the contention.-Washington Correspondence.

There is wailing and weeping in Annapolis and West Point because of the new railroad rate bill. It has been the practice of the railroads to carry the embryonic Admirals and Generals to the annual football game without charge. When the usual courtesy was diplomatically asked this year, it was learned that, under the mercial clue indicates that Columbus ruling of the Hepburn bill, the cadets people are alive to their opportunities would be compelled to pay their own fares. The war department after a one of the best locations in the state full investigation of the matter, has there is no reason why Columbus can- bowed its head to the inevitable and not get some of the good things that has ordered the cadets, if they want to chase the pigskin against the jackies of the other service, to scrape together the price of a railroad ticket or stay in barracks. -- Washington Correspondent.

Bixby in the Lincoln State Journal says that Egyptian darkness still prevails in Platte county because at the last election there were two democratic votes cast for every one republican vote, and he also claims that next to Douglas and Lancaster, Platte county has the most saloons. We admit we are not proud of the distinction of be ing the strongest democratic county in this state, and we wish it were oth erwise. Outside of the men who hold nomination practically means an election, no one can be proud of it. This preponderance of democratic strength in this county is anything but a sign of superior wishes or good common sense, yet we are a peaceful law abiding community and our schools com pare favorably with any in the state But it is the privilege of every man. whether native or foreign born, to vote as he pleases, and some day our friend | 20th Century Drug Store, Platte Center Bix may be able to record the fact that darkness has been dispelled.

This is Thanksgiving week. The president of the United States and the governor of the state of Nebraska have, by proclamation set apart Thursday of this week as the day of yearly Thanksgiving, and have requested the people to express their gratitude to God for the bounties of the year, to "enter into his gates with Thanksgiving and into his courts with praise." All through history there have been festivals of Thanksgiving. It was reserved for the pilgrim fathers to make the festival one of annual observance and from the custom it has become an annual holiday throughout the country. So precedent and gratiobservance of the day. One of the features of the annual Thanksgiving festivals is the family reunions. The members of scattered households, wherever they can congregate at the old home and so far as spared the old circle is renewed. This aspect makes the day hallowed. In the larger significance of Thanksgiving day all the people have a part. Hereabouts no great calamities have occured. Industry has had fall employment. The earth has been liberal in her yield. Prosperity and contentment abound.
