Doctors Said H : Would Wot Live

Poter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better and continued to improve until I was entircly well." C. H. Dack.

Makes Homely Women Pretty

No woman no matter how regular her features may be can be called pretty if her complexion is bad. Orino Laxative Fruit Syrup aids digession and clears sallow blotched complexions by stimulating the liver and bowels Orino Lazative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take Remember the name Orino and refuse to accept any substitute. C. H. Dack.

A Buring Wasp. Some wasps live in part upon honey, which they collect from the most open petaled flowers, and thus to a very moderate extent they may be regarded in the light of flower fertilizers. Kirkland says in the first volume of the American Naturalist that "toe paper hornet (Vespa maculata) often enters my nucleus hives when I am rearing Italian queen bees and captures the young queen in the midst of her little colony, usually just after she has commenced her first laying. I have seen this depredator enter the small hive, drag out the queen and fly away with her to the woods" (page 52). Some of the species of the genus polistes store up honey which is poisonous, from the fact that it has been collected from poisonous flowers. They are found in South America, where also species of

the genus chartergus occur-waspe that make a very remarkable and tough nest, with funnel shaped combs inside, arranged one inside of another, nest fashion, but not in contact except at their points of suspension. At the apexes of these cones occur the apertures of entrance for the inmates to pass up among the conical tiers.

Steering the Ship.

The work of steering a great ship, even with the aid of modern machinery, is much more delicate than one would imagine. The larger and faster the ship the greater is the difficulty. It is not enough to hold the wheel in the same position to keep the ship on her course, for the wind and waves and the currents of the ocean tend constantly to knock the ship off her course. The great wall of steel (for the hull may be 700 feet long and sixty feet high) offers a broad target for the wind and waves. The art in steering is to humor the ship to these forces and when she is deflected bring her back quickly to her course. If you could watch the binnacle, especially in bad weather, you would see the needle of the compass constantly shifting from side to side, which means that the great steel prow is not going forward in a perfectly straight line.-Francis Arnold Collins in St. Nicholas.

New York's Cab Drivers.

A driver has to have a license. That myster' us official, the mayor's marshal, grants one upon the payment of 25 cents and two written testimonials of honesty. A man may come out of Sing Sing, whither he has been sent for highway robbery or stoning the minister's cat or any other crime, if he presents two greasy letters-one of any Jones and the other of any Smithstating that he is an honest fellow he will get a license. No inquiry is made. His references are never looked up. Indeed, if you are a desperate criminal -guilty of murder or failure to pay alimony-you can do no better than take out a license and hide on top of a cab. So into the business drift all sorts and conditions of rogues. Under the aegis of the law (the aegis being a twenty-five cent badge) they rob you and me.-Vance Thompson in Outing Magazine, ---- -

Gold! Gold! Gold! **Precious Yellow Gold.**

You want. I want it. Everybody wants it and we want it NOW. Read, Investigate and grasp this opportunity.

Thousands Hesitated, Procastinated-Passed the Great Mohawk up and Lost a Fortune. This may be Another Mohawk. Don't Pass it by.

Do you know, that out in the desert of Nevada, there is a city barely four years old, on which the EYES of the ENTIRE WORLD are centered? Why? Because of its Enormous Production of the YEL-LOW GOLD. The city of

Goldfield, Nevada.

The greatest GOLD camp in the world's history. Has produced more high grade ORE in the last three years than any camp in the world.

Rightly nemed.-"GOLDFIELD," for it is truly a LARGE field when the acreage of the "proven area" is taken into consideration, which, as shown by the map of the district covers the greater part of six sections, extending from the Diamondfield Black Butte mines on the north to the Goldfield Portland on the south. *

Between these mines above quoted are a number of BONANZA Mines, whose daily output of High Grade Ore is astounding the world and adding to its wealth, Millions each month. To-Wit:

The Great MOHAWK, now producing \$110.000.00 each 24 hours. Florence, from which B. J. Reilly took out \$800.000.00 in 100 days. Sandstorm, which made the leasers large fortunes. Red Top, a regular and constant shipper of High Grade Ore. Jumbo, whose stock sold in April 1906, at \$1.25, now \$500 The Great Combination, pays regularly monthly dividends of \$48,000.00 Laguna, recently proven by diamond drills to have Bonanza Ore. Great Bend, which has very rich Sylvanite Ore.

Portland, whose recent strike of \$400.00 ore exter

ing in mnies in all the Nevada camps. And it's a pretty safe thing to fol-low these men. they don't invest unless there is something in sight.

Three lines of railroads are building into this district as fast as possible and we know that costly railroad lines are not built unless there is tonnage in sight.

I have spent both time and money in trying to get in with the Mine Makers and am confident that I have found a property in which the chance of loss is reduced to a minimum-for this reason:

There are Three (3) Chances to Win on One Investment.

The Nevada Pearl Mining and Leasing Co.

They own five (5) full claims and (2) leases: Capitalized at 2.000.000 of the par value of \$1. 600,000 shares have been issued to pay for the five (5) claims and (2) leases, 1,400,000 remaining in the treasury, the property of the Company.

The five claims are known as the Matchless Group, lying adjacent to the Portland Mine and south of the town of Goldfield, and believe they have a continuation of the great Combination vein recently opened up on the Portland. Assays from the out cropping veias as good as any in the district.

The Company also owns a lease on the Great Combination ground. (which mine is now paying regular monthly dividends of \$42,000) and a strike of sulphide ore on this lease would send the stock to par at once.

The Company also owns a lease on the Rabbit's Foot claim of the Palace Goldfield, on which there is a 60 foot shaft in which stringers of ore have been cut assaying from \$50 to \$400 per ton, which is a guarantee that when the shaft has obtained a depth of 200 feet they will find the same rich sulphide ores now opened up in the adjacent mines.

And this would mean \$2 per share for stock. And the opening up of sulphide ores on the Matchless Group would mean another MOHAWK. Thuk of it, Mohawk new \$19 and going up each day. All prominent Brokers of Goldfield predict that when the leases expire (Jan'y 1st 1907) the Mohawk will sell at \$50.00 per share.

Prominent Engineers Predict that Numerous Mohawks will be opened up with Further **Developements.**

A colde taken at this time of the year is generally hard to get rid of but it will not be able to withstand Bee's Lazative Honey and Tar. That will cure all colds, coughs croup, whooping cough, etc., by driving them out through the bowels. If you have a cold try it and if not cured get your money back. No opiates. Sold by 30th Century Drug Store. Platte Oanter, Neb.

Bee's Lexative Boney and Tar the original lazative cough syrup acts as a cathartic on the bowels. It is made from the tar gathered from the pine trees of our own country, therefore is 20th Century Drug Store, Platte Center the best for children. It is good for coughs, colds, croup, whooping cough. esc. Try our free offer. Sold by 20th Century Drug Store, Platte Center, Neb.

Tone the liver, move the bowels cleanse the system. Dade's Little Liver Pills never gripe. Sold by 20th Century Drug Store, Platte Center, Neb.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates. which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered.

G. B. Burhans Testifies After Four Years.

G. R. Burbans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during he four years that have elapsed and] am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."

Cost of Paint

The difference between the cost of good paint and inferior paint is very little in comparison with the total outlay for painting a house.

The time and labor is the big item. Seems very foolish to spend a great deal of time and money putting on paint which will not last. It is much wiser to use old-fashioned "white

The Hessians Played. It is a matter of record that upon the first official celebration of Independence day by the Continental congress music was secured for the occasion by forcing the Hessian band, which had been captured by George Washington at Trenton in the previous December, to play in the public square all day, to the great delight and amusement of the people. It is also stated that these involuntary celebrants were obliged to practice appropriate airs for three weeks previously in order that they could not plead ignorance as an excuse.

Curious Coincidences.

When the Ring theater, in Vienna, was burned, with great loss of life, one of the other playhouses of the Austrian capital was playing Pailleron's "Le Monde ou l'on S'Ennuie;" when the Stadt theater, in Vienna, was burned another theater in that city was playing "Le Monde ou l'on S'Ennuie," and on the evening of the day when the fire in the charity bazaar in Paris took place the Theatre Francais was announced to play "Le Monde ou l'on S'Ennuie."

One year back MOHAWK Stock went begging at 10 cents. NOW \$19.00 per share.

The Backward View on a Lost Opportunity is not Pleasant.

To show the rapid advances of these stocks and the enormous profits made the price of the stocks above quoted are given below, taken from the San Francisco Stool Frahango on the dates shown

San Francisco Stock Exchange, on the dates spown:

What class of speculation equals this? The answer is NONE. Possible only in MINING .. And to make these profits it is only necessary to get in with the MINE MAKERS and clear of the MINE FAKERS.

To Further Illustrate the Possible Profits

A friend of mine bought 500 shares of Mohawk at 40 cents. He recently sold 100 shores of the same at \$3.80 per share, leaving him a cash profit of \$180 and 400 shares of Mohawk stock, which is now worth \$19 per share, making him a total profit of \$7780 on an investment of \$200 in a period of eight months.

Does This Look Good to You? Where can You Equal This? Only Possible in Legitmate Mining. Remmember that One Good Investment in Mining Stock will give you More Profit than a Life Time of Saving and Labor

REMEMBER. You have three chances to win. It might be another MOHAWK. If one strikes the ore your stock will be worth ONE DOLLAR. If they make the second strike your stock will go to TWO and possible FIVE. If all three make good, you have the investment of your life.

YOU YOUNG MAN: Just on the threshold of life: Do you realize that an investment of \$50.00 to \$250.00 in this stock might make you independent for life. Might buy you a farm. Might set you up in business. Might make you more money than you could accumulate by a lifetime of hard toil and grinding economy. Might make it possible for you to live in ease and comfort.

AND YOU MR. MAN. With your money in the bank, drawing 3 per cent, and the bank making from 5 to 10 per cent on your money (and some times the Banks fail) Is not the possible profit here offered, worth the risk? Are you doing yourself justice when you pass this up? Wake up Opportunity is knocking at your door. The most conservative citizens in Columbus are buying this stock. WHY?

They want to get into some Company in this district of High Grade ore This appeals to them on its offering of Three chances to Make Good.

They know that the Lease on the Combination must win for the Combination is a proven Mine.

Those who have investigated know that the Lease on the Palace Gold Field has rich ore at a depth of only 60 feet, which is a guarantee that when the shaft reaches the sulphide zone it will have shipping ore

And They also know That the Matchless claims of 100 acres on developement, might make another Mohawk."

They Want to Make Money. Don't You?

Investigate! But Don't Procrastinate and Lose this Opportunity
