

# U. S. DISPENSATORY

Describes the Principal Ingredients Contained in Peruna.

Are we claiming too much for Peruna when we claim it to be an effective remedy for chronic catarrh? Have we abundant proof that Peruna is in reality such a catarrh remedy? Let us see what the United States Dispensatory says of the principal ingredients of Peruna.

Take, for instance, the ingredient hydrastis canadensis, or golden seal. The United States Dispensatory says of this herb, that it is largely employed in the treatment of depraved mucous membranes, chronic rhinitis (nasal catarrh), atonic dyspepsia (catarrh of the stomach), chronic intestinal catarrh, catarrhal jaundice, (catarrh of the liver) and in diseased mucous membranes of the pelvic organs. It is also recommended for the treatment of various forms of diseases peculiar to women.

Another ingredient of Peruna, corydalis formosa, is classed in the United States Dispensatory as a tonic. So also is cubeba classed as a stomachic and as a tonic for the mucous membranes.

Cedron seeds is another ingredient of Peruna, an excellent drug that has been very largely overlooked by the medical profession for the past fifty years. The seeds are to be found in very few drug stores. The United States Dispensatory says of the action of cedron that it is used as a bitter tonic and in the treatment of dysentery, and in intermittent diseases as a substitute for quinine.

Oil of copaiba, another ingredient of Peruna, is classed by the United States Dispensatory as a mild stimulant and diuretic. It acts on the stomach and intestinal tract. It acts as a stimulant on the genito-urinary membranes. Useful in chronic cystitis, chronic dysentery and diarrhea, and some chronic diseases of the liver and kidneys.

Send to us for a free look of testimonials of what the people think of Peruna as a catarrh remedy. The best evidence is the testimony of those who have tried it.

## U. S. NAVY

exists for four years young men of good character and sound physical condition between the ages of 17 and 25 as apprentice seamen; opportunities for advancement; pay \$10 to \$24 a month. Electricians, machinists, blacksmiths, cooper, shipwrights, carpenters, cooks, etc. between 17 and 25 years, enlisted in special ratings with suitable pay; hospital appointments, 16 to 26 years. Retirement in three-fourths pay and allowances after 10 years service. Applicants must be American citizens.

First clothing outfit free to recruits. Upon discharge travel allowance 4 cents per mile to place of enlistment. Write nearest office for list and information. Write to: U. S. Navy Recruiting Station, 1000 Broadway, New York, N. Y.

### CHEAP LANDS

Unexcelled for general farming, stock, dairying, fruit, truck, etc. convenient to city by trolley and transportation facilities. Write nearest office for list and information. U. S. Bureau of Land and Industrial Agency, Room 1000, 1000 Broadway, New York, N. Y.

### New York's Early Name.

Manhattan island was once named New Orange for 15 months. When the English took it from the Dutch the name New Amsterdam was changed to New York, and then when the Dutch recaptured it in July 1673, they called it New Orange. It held that name until the English retook it in November, 1674, when the name New York was restored and has been retained ever since.

### Stimulate the Blood.

Brandreth's Pills are the great blood purifier. They are a laxative and blood tonic, they act equally on the bowels, kidneys and skin, thus cleansing the system by the natural outlet of the body. They stimulate the blood so to enable nature to throw off all morbid humors and cure all troubles arising from an impure state of the blood. One or two taken every night will prove an invaluable remedy.

Each pill contains one grain of solid extract of sarsaparilla, which, with other valuable vegetable products, make it a blood purifier unexcelled.

Brandreth's Pills have been in use for over a century, and are for sale everywhere, plain or sugar-coated.

### Danger in Salt Baths.

Salt water, so strengthening ordinarily, is most weakening when too warm. On most ocean boats there is an abundance of warm water in the bathrooms, and the daily salt bath is a great tonic, but beware of getting it too hot. It will turn you faint if you do, even if you are accustomed to an equally high temperature in fresh water at home.—Travel Magazine.

### Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fitness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

### In His Father's Footsteps.

Allan Sankey, son of the famous singing revivalist, is following his father's footsteps as a composer, and some of his hymns are popular in New England revival meetings.

### Give Defiance Starch a fair trial—try it for both hot and cold starching, and if you don't think you do better work, in less time and at smaller cost, return it and your grocer will give you back your money.

### Some day there may be universal peace. If it comes it will be when one man has succeeded in gobbling everything and at the same time convinced everybody else that he is too strong to be fought.

### Panthers and Grizzly Bears.

Shin Furs Pelts McMillan, Fur & Wool Co., Minneapolis, Minn. Write for prices. Be severe when the fault demands it, but don't owe the man a grudge. Some men make a specialty of posing as horrible examples.

## NOISES FROM MEADOWBROOK FARM

By William Pitt

The noisy, singing hen is generally the hen that lays.

You garden seed order in yet? Ought to be. Hurry up.

The health of the flock is dependent largely upon a good dust bath.

Plan for the draining of that swamp. Why let it remain idle longer?

Put yourself in the horse's place. You wouldn't like blinders, now, would you?

It is not good practice to put manure in the hole in setting young trees.

The best time to fight the scale is in the spring before the buds begin to swell.

An empty salt sack used to rub the horse down with will make the coat glisten.

Will the coreless apple be followed by the cobless corn and the rindless watermelon?

Don't forget that a thinking cap should be included in your spring equipment of tools.

Lima beans cannot be grown on poor soil, and should never be planted while the ground is cold.

The earlier that the colt is broken the easier it is for the animal and the better is the job done.

The large importations of wool emphasize the fact that more sheep ought to be raised in this country.

Again we say, clean up the orchard, burn all rubbish. Insects will trouble you less next season if you do.

The well balanced farm is the one where stock is kept to rebuild the soil which the grain crops have depleted.

The percentage of profit on any farm is dependent upon the kind of management the farm has, remember that, Mr. Farmer.

The San Jose scale louse is no respecter of persons, attacking all orchard trees, rose bushes, berry bushes, vines and shrubs.

A progressive dairyman will not put up with scrub stock, and a scrub dairyman may be given well-bred stock and soon bring it down to his level.

The more evenly manure is spread over the land the better will it be incorporated with the soil. Don't leave it in lumps. The manure spreader is a great help.

Western farmers are coming to appreciate more fully the value of alfalfa as a forage crop. It may cost extra trouble and expense in getting a good stand, but it pays.

A good hen man when asked whether he gave his hens pepper, said: "No!" and the emphasis was so strong that we concluded that it was not a good practice.

The chicken with a broken leg can be easily saved if worth saving by encasing the leg in a splint made of narrow strips of strong cotton cloth saturated in melted glue.

Rotting vegetables in the cellar are disagreeable and unwholesome. Now is the time of year when the cellar needs straightening up and the vegetables stored there looked over.

Lifting that mortgage may cost lots of backache and long hours, but think how good it will seem when you can look out over your broad acres and realize it is all yours.

The man who said that poultry culture was made up of a chain of little things, one link out of place making a bad link in the whole chain, struck the nail pretty nearly on the head.

Handsome is as handsome does, whether the poultry are handsome, pure bred, prize winning stock or not. It's the eggs laid during the season of high prices that determine the real value of the hens.

Mr. Yerkes, the commissioner of internal revenue, gives it as his opinion, after investigations in Europe and this country, that denatured alcohol can be made at a cost not to exceed 35 cents a gallon.

The best adviser on farm practice is not the distant expert, as a rule, but the successful farmer right in your own neighborhood. He understands the conditions under which your difficulties arise as no outside expert could.

If you want the calf to grow up hornless take him when he is not more than three weeks old and after clipping away the hair so as to be able to get at the little knobs which in time will be horns, wet the ends of the horns and rub thoroughly with a stick of caustic potash. No horns on that calf if the job be thoroughly done.

### A novelty which some seedmen are offering is what is called corn wheat. It would be well for farmers to let agricultural colleges and experiment stations investigate the value of such a novelty before experimenting with it.

Disgusting sight, those manure laden cattle, and no doubt if one could learn the true inner feelings of the patient creatures we would find that they were disgusted too; disgusted with their owners for letting them live in filth.

Fruit trees should be planted, not set, with emphasis on the planted. The soil should be given a careful preparation as for any other crop and the tree carefully placed and the dirt worked in around the roots. Hasty, careless work is responsible for many an unthrifty tree.

The making of paper from corn stalks is being investigated by the agricultural department, and should the experiments prove commercially successful, the result will be of two-fold advantage in lessening forest destruction and giving farmers a market for a by-product.

The reason young wood on fruit trees kills back during the winter is that it was not properly ripened in the fall, owing to poor drainage of the soil. Where there is too much moisture the growth of the trees is not checked and hence the new wood is not matured to withstand the freezing of the winter.

Congressman H. C. Adams says: "If any young fellow asks my advice about making farming a business, I ask him, 'Are you man enough? If not, don't do it, but go and be a lawyer or a doctor or a preacher or something of that sort.'" This sounds different from the old adage that if the boy wasn't good for anything else make a farmer out of him.

The pear scab fungus can be kept in check by spraying with Bordeaux mixture used at time buds begin to swell, again after buds are out and just before blossoms open, a third application after falling of blossoms and a fourth and fifth spraying are advisable where the disease is very bad. The last two sprayings can be given at intervals of ten days to two weeks.

Here is the portrait of the fortunate farmer as painted by the Katonah (N. Y.) Times: "The farmer's hair may be bushy, and his skin bronzed; but his eyes are clear, his digestion is like that of a three-year-old mule, his conscience like the ether above his head, and his bank account as fat as his favorite shoat. He is the most independent creature that wears the garb of civilized man."

Secretary Wilson's proposed substitute for the annual free seed distribution in which a quarter of million dollars of the government money is practically wasted, was not adopted by congress. The secretary's plan provided for the use of the money in the purchase of the most perfect seed and its apportionment to persons and localities where strict supervision and responsibility could be secured and thus obtain definite results, and the maximum of good to the country at large.

A poultry diary is well worth the trouble it takes to keep it. Each day note the doings of the poultry yard—the cases of sickness, your treatment, and the results; the effect of feed; when the first pullet egg was laid; when you introduced new blood; and lots of matters which at the time may seem trivial, but which next year may prove very important. Try the diary plan for one year.

City folks who have never had any farm experience and who have become inoculated with the germ of agriculturalitis, and are contemplating giving up a livelihood to risk their fortune on a farm, should remember that the farmer has a task master quite as exacting as any soulless corporation and that he is his own master only in so far as he obeys the laws of nature and works out his own salvation. It takes brains, brawn and business push to make farming pay. The average city man put on the average farm would raise chiefly a crop of financial ruin and bitter disappointment. Think twice, go slow, take one step at a time are good rules for the would-be farmer who are now making a good living in town or city.

While a big crop of increasing prosperity is the lot of the American farmer, his British brother is experiencing rather a hard lot, for it is stated that the condition of agriculture in the United Kingdom is steadily declining, due, it is said, to the continued exodus of the farm laborers to the large cities. The increasing dependency of the people upon foreign countries for food is shown by the statement that in 1845 the wheat production of the United Kingdom was sufficient to supply about 90 per cent of the population. The home-grown wheat now feeds only ten per cent. The area devoted to corn has declined 40 per cent in 30 years. During this period there has also been a great increase in the consumption of imported meat.

When carrying on fertilizer tests the farmer should remember to leave a check plot by which he may make comparison to discover the exact effect of the treatment. The check plot is simply a small section in the same field left untreated, although the soil preparation and cultivation of the crop is identical with that of the fertilized ground. Where the farmer attempts to judge of results by comparing the crop obtained with the crop obtained on the same ground before the fertilizer was put on he is almost sure to err, for seasons differ so greatly in rainfall and supply of solar heat that one year cannot be used as a standard by which to judge another year. But where a plot of ground is left untreated and sown with seed and cultivated in the same manner as the rest of the field it can be determined just how profitable the soil treatment has been.

### HARDSHIPS OF ARMY LIFE.

Left Thousands of Veterans with Kidney Troubles.

The experience of David W. Martin, a retired merchant of Bolivar, Mo., is just like thousands of others. Mr. Martin says: "I think I have had kidney disease ever since the war. During an engagement my horse fell on me, straining my back and injuring the kidneys. I have been told I had a floating kidney. I had intense pain in the back, headaches and dizzy spells and the action of the bladder was very irregular. About three years ago I tried Doan's Kidney Pills, and found such great relief that I continued, and inside a comparatively short time was entirely rid of kidney trouble."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

### Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be removed the hearing will be destroyed forever; also cases out of 100 are caused by Catarrh, which is nothing more than an inflammation of the mucous membrane of the middle ear. We will give One Hundred Dollars for any case of Deafness cured by our treatment. Send for our Circular. Sold by Druggists. J. C. CHENEY & CO., Toledo, O. Take Hall's Family Pills for constipation.

### Disease Puzzles Doctors.

A mysterious disease is troubling the Dutch medical profession. It has broken out in the district of Oudorp, not far from Utrecht, and Prof. Spronck, of Utrecht, after all the best efforts he can devise, has had to confess himself perplexed. The disease is a contagious affection of the heart, and the patients invariably develop high fever. There have been more than 100 cases. Prof. Spronck has made a careful analysis of blood taken from patients, but has utterly failed to find a cause or an origin for the epidemic.

### THIS IS WORTH SAVING.

Valuable Advice and Recipe by Well-Known Authority.

The following simple home-made mixture is said to relieve any form of Rheumatism or bache, also cleanse and strengthen the Kidneys and Bladder, overcoming all urinary disorders, if taken before the stage of Bright's disease: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime.

A well-known authority states that these ingredients are mainly of vegetable extraction, and harmless to use, and can be obtained at small cost from any good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back or weak bladder or Rheumatism, should give this prescription a trial, as no harm can possibly follow its use, and it is said to do wonders for some people.

### SOME POINTS ABOUT NEEDLES.

The Evolved Product of Centuries of Invention.

The point of a needle is a very important part of that useful little instrument, and there are many points about needles calculated to interest the general public. The daily consumption of needles all over the world is something like 3,000,000, while every year the women of the United States break, lose and use some 300,000,000 of those tiny tools. Few people while threading a needle have ever given a thought to the various processes through which the wire must pass before it comes out of a needle. Yet the manufacture of needles includes some 21 different processes from cutting the wire and threading the double needles by the eyes to separating the two needles on the one length of wire, heading, hardening in oil, cleaning out the sides of the eye, point-setting, and final polishing. For wrapping purple paper is used, since it prevents rusting. There are many sorts of needles, for surgeons, cooks, glovemakers, weavers, sailmakers, broommakers, milliners and dressmakers' use. The needle is the evolved product of centuries of invention. In its primitive form it was made of bone, ivory, or wood. Point by point its manufacture has improved, until this little but not insignificant instrument is now one of the highly-finished products of twentieth century machinery and skill.—Zion's Herald.

### A FRIEND'S TIP.

70-Year-Old Man Not Too Old to Accept a Food Pointer.

"For the last 20 years," writes a Maine man, "I've been troubled with Dyspepsia and liver complaint, and have tried about every known remedy without much in the way of results until I took up the food question."

"A friend recommended Grape-Nuts food, after I had taken all sorts of medicines with only occasional, temporary relief."

"This was about nine months ago, and I began the Grape-Nuts for breakfast with cream and a little sugar. Since then I have had the food for at least one meal a day, usually for breakfast."

"Words fail to express the benefit I received from the use of Grape-Nuts. My stomach is almost entirely free from pain and my liver complaint is about cured. I have gained flesh, sleep well and eat nearly any kind of food except greasy, starchy things and am strong and healthy at the age of 70 years."

"If I can be the means of helping any poor mortal who has been troubled with dyspepsia as I have been, I am willing to answer any letter enclosing stamp." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in page. "There's a Reason."

### Miss Winslow's Soothing Syrup.

For children teething, soothes the gums, reduces inflammation, allays pain, cures whooping cough, croup, hoarseness, and all other ailments of the throat.

Some men make it their business to interfere with the business of others. Dresses, Cloaks, Ribbons, Suits, etc., can be made to look like new with PUTNAM FADELESS DYES. No muss.

Many a woman has married a fool for love; but few mistakes would be made if fools never had money.

FILES CURED IN 6 TO 14 DAYS. PAZO OIL is guaranteed to cure any case of Itch or Scabies, itching of the scalp, itching of the face, itching of the hands, itching of the feet, itching of the body, itching of the eyes, itching of the ears, itching of the nose, itching of the throat, itching of the lungs, itching of the stomach, itching of the bowels, itching of the bladder, itching of the rectum, itching of the vagina, itching of the uterus, itching of the ovaries, itching of the testicles, itching of the prostate, itching of the penis, itching of the scrotum, itching of the anus, itching of the perineum, itching of the groin, itching of the neck, itching of the face, itching of the head, itching of the hair, itching of the scalp, itching of the beard, itching of the mustache, itching of the eyebrows, itching of the eyelids, itching of the nose, itching of the ears, itching of the throat, itching of the lungs, itching of the stomach, itching of the bowels, itching of the bladder, itching of the rectum, itching of the vagina, itching of the uterus, itching of the ovaries, itching of the testicles, itching of the prostate, itching of the penis, itching of the scrotum, itching of the anus, itching of the perineum, itching of the groin, itching of the neck, itching of the face, itching of the head, itching of the hair, itching of the scalp, itching of the beard, itching of the mustache, itching of the eyebrows, itching of the eyelids, itching of the nose, itching of the ears, itching of the throat, itching of the lungs, itching of the stomach, itching of the bowels, itching of the bladder, itching of the rectum, itching of the vagina, itching of the uterus, itching of the ovaries, itching of the testicles, itching of the prostate, itching of the penis, itching of the scrotum, itching of the anus, itching of the perineum, itching of the groin, itching of the neck, itching of the face, itching of the head, itching of the hair, itching of the scalp, itching of the beard, itching of the mustache, itching of the eyebrows, itching of the eyelids, itching of the nose, itching of the ears, itching of the throat, itching of the lungs, itching of the stomach, itching of the bowels, itching of the bladder, itching of the rectum, itching of the vagina, itching of the uterus, itching of the ovaries, itching of the testicles, itching of the prostate, itching of the penis, itching of the scrotum, itching of the anus, itching of the perineum, itching of the groin, itching of the neck, itching of the face, itching of the head, itching of the hair, itching of the scalp, itching of the beard, itching of the mustache, itching of the eyebrows, itching of the eyelids, itching of the nose, itching of the ears, itching of the throat, itching of the lungs, itching of the stomach, itching of the bowels, itching of the bladder, itching of the rectum, itching of the vagina, itching of the uterus, itching of the ovaries, itching of the testicles, itching of the prostate, itching of the
