City Election.

Had a stranger dropped into our city yesterday, not knowing that April 2 was the date for the general municipal election, he would never have thought that such a thing was then going on in Columbus. But there was a real election, and every candidate printed upon the official ballot was elected with good round majorities, though the vote was the lightest cast in Columbus for Typewriters, cash registers, sewing years. The judges and clerks had the machines cleaned and repaired. Carl same snap as the candidates, and the result was that the whole work of the day was cleaned up and the usual crowd of spectators at the final count had before 9 o'clock gone home.

The democrate elected every man on Pollock & Co., their ticket because the republicans did not put up any one who would stand pat and oppose them. They just stood and look on like a bunch of boys watching a marble game. Everybody, however, is entirely satisfied and the elected officials will have the hearty co-operation of the citizens in their earnest desire to give us a first-class economical city government. Our new councilmen are Sam Gaes, jr., First ward; S. J. Ryan, Second ward, and George Willard, Third ward. The outgoing members being Jacob Greisen, J. H. Galley and Wm. Zinnecker.

The city election in Columbus yesterday was about the tameet affair ever pulled of in our city. Every place where the parched tongue could be moistened was closed tight, and the usual display of "vote for this man and vote for the other fellow" was not in evidence and the usual night-before fixing was greatly missed by a bunch who year by year has been loaded down with most every thing useful on election day. The republicans made no provisions for their followers to get out and dig, and those candidates who were placed in the field pulled off their ticket, and of course the result was that the democrats fectly smooth and does not bag.
