When it is considered what it has cost to give birth to this fing, what it has cost to maintain it and what it sease to this nation and to the world, there is no honor toe great that should not be conferred upon it.

Our fing was born in the throes of liberty, wounded in the battles of freedom and sanctified in the cause of humanity.

It should be honored for all the security it guarantees; all the mercy it proclaims; all the power it implies. It is the flag that has been ever raised in honor and never lowered in disgrace. It is the flag that represents liberty of thought and religious right, and floats today beautifully hovering in the breeze around her Cuban protege, a protectorate against "man's inhumanity to man." The flag that gracefuly waves in the Orient, a respected monitor in the Celestial empire, guiding the world in the solution of a divine problem, remonstrating against avarice and admonishing against treachery.
