Men Trying to Get Fraudulent Title to Rosebud Lands Fined and Sent to Jail.

Denver-As a result of the work of the special grand jury, which closed its session Saturday and reported to Judge Lewis, about seventy indictments against men prominent in Colorado, Nebraska, New Mexico, Nevada and eastern states were returned for coal and timber frauds, although a few alleged mining fakirs and a couple of cases of postoffice robberies were also included in the list.

Washington-Information was received at the general land office that B. F. Jetter and C. B. Van Trees of in concert in matters affecting their Butler, Mo., have pleaded guilty before interests as elevator proprietors and the United States district court for grain dealers. The defendants, it is the western district of Missouri, and have been fined \$1,000 each and sentenced to four months in jail for conspiracy, under section 5440 of the sufficient number of public elevators United States revised statutes.

visions of Same. Pittsburg, Pa.-Governor Albert B. Cummins of Iowa delivered the principal address Monday night at a meeting of the Pittsburg board of trade. Governor Cummins spoke on "Reciprocity," and William R. Corwin, secretary of the New York committee of the American Reciprocal Tariff league also made an address.

Governor Cummins characterized the placing of duties upon many things as an American habit and said:

"I stand just as firmly and as persistently for a reduction in some of the duties in order that the home buyer may be protected as I do for recipro cal arrangements that will enlarge our sales abroad.

"The course of trade conclusively establishes that the duties are excessive. If the iron and steel manufacturer of the United States can sell his products in the markets of other countries in open competition with all the manufacturers of the earth, and if in so doing he makes a fair profit upon his sales, the man who still holds that our manufacturers need the high duties in order to enable them to compete successfully n their own markets with foreign producers has surrendered his good sense in his idolatry at the shrine of that miserable maxim filched from the language of the great | American game.

"I am not astonished to witness the progress that these manufacturers are making abroad, but it fills me with amazement when I hear it proclaimed that they need a protective duty of from \$8 to \$100 per ton to enable them to hold the markets of their own country against the iaroads of their rivals from other lands.

"I am for tariff revision and for tariff reduction as a measure of justice to the buyers of protected commodities. It seems to me that we have gone mad in our zeal for the seller and have abandoned the buyer to the mercy of monopoly, combina-

"The people have borne excessive tariff with marvelous patience but they will not bear it in silence, and little by lttle they are coming nearer to their own. The way is beset by many difficulties, but they will be overcome and it will not be long before a congress will convene that will be as swift to give them the relief to which they are united as the congresses of the last few years have been resolute in denying."

### NEILL MAY INVESTIGATE. Bureau of Labor May Try to Adjust

Trouble. Washington-Commisioner Charles P. Neill of the bureau of labor refused to state whether he had received from President Roosevelt the various appeals made for executive intervention to prevent the threatened telegraphers' strike. In reply to the direct question as to whether the president had requested him to consider the various appeals with the view of taking some action looking to a satisfactory adjustment of the threatened

strike, the commissioner said: "Just at this time I must refuse to make any statement for publication or to answer any questions regarding any action the government may take

to avoid the impending strike." FORAKER DEFENDS NEGROES.

The statement, which the senator says he makes as a "plain duty to the truth as well as to the accused soldiers," and because he is "more familiar with the testimony than anybody else," is an answer to a published statement that the testimony conclusively showed the soldiers of the Twenty-fifth batalion did the shooting.

He urged the convention in its discussion of the present land laws, a criticism of which he said had been the cause of the calling together of the convention, to confine its discustion to the effect of these laws on the entire country, and not on any particular section of the country. The public lands, he said, were not an asset of any particular locality. They belong to the people of the entire nation. He said he wanted to get the point of view of the people of the west and he wanted them to get his point of view. He welcomed criticism which was constructive, but he thought that criticism which was merely an attack without a suggestion for improvement was worthless.

Secretary Garfield.

Mr. Ballinger confined his address to a history of the land office and its duties. He explained at length the present land laws.

Senator Teller was the first speaker to voice the complaints felt by a majority of the members of the convention. He said they did not complain of the laws; but that the offcials were disobeying the laws. In speaking of the coal lands he said that congress alone had the power to pass on the question of policy in disposing of these lands and to decide on what shall be charged for them. The policy in dealing with agricultural lands should be to get them into the hands of those who would live on them. He objected to landlordism either by the rich or by the government.

Dr. Wilson, in taking the chair just before adjournment, compared the convention to a stockholders' meeting and the representatives of time government to the directors of the corporation.
