It must be another sign of prosper ity that so many towns are celebrat ing the glorious Fourth of July this year. Columbus certainly will have a lively time, and everybody in this neighborhood and their families are coming, and they will have the time of their lives.

The telegraphers strike at San Francisco continues. President Roosevelt proposes to investigate the methods of the telegraph companies and this in itself gives hope to the employers. Corporations usually prefer to settle their difficulties rather than to face one of Roosevelt's investigations.

United States Judge Pritchard has enjoined the state of North Carolina from enforcing the two cent railroad law until the courts shall decide whether the rate is fare and just or "confiscatory." These United States judges seem to render decisions without fear of Edgar Howard's displeasure and criticisms.

Some things are really queer. Some time ago Kansas voted for free sugar from Hawaii, but just recently the big fat man, who got the stomach ache while taking a pleasure trip through this state, has stirred up a hornet's nest in that state because he wants to give the Philippines the same privileges that are given to Hawaii. Kansas always did go to extremes any way.

Kuroki's Tact

General Kuroki has, by utilizing the tact for which he is noted, simplified the receptions which are to be tendered to him in this country by sending back to Japan the full dress uniforms of himself and staff immediately after the reception of President Roosevelt. If they had been worn it would have necessitated the wearing of like apparel by our own officers and caused much unnecessary fuss and feathers, which the Japanese hero heartily dislikes.

Percy A. Rockefeller, son of Wm. Rockefeller and nephew of John D. Rockefeller, is building a country home in Connecticut which is unlike any other ever planned. Perhaps the most extraordinary feature of it is confined air space in the walls, forming a non-conductor of heat, cold or moisture. The air space, it is said, will make the house warmer in winter, cooler in summer and dryer all the year around than any other man's home, rich or poor.
