Rates in Nebraska So Knifed that Inter-State Business is Not Remunerative.

Omaha-"Present and recent legislation in western states will most injuriously and seriously affect railroads," declared John N. Baldwin,

general solicitor for the Union Pacific railroad on his return from the east.

"The representatives of the railroads in the east are deeply concerned regarding the greatly adverse conditions which have arisen in the midst of this era of prosperity. Taxes have increased 20 to 25 per cent, mater.al 30 per cent and labor 12 per cent. At the same time freight rates have been cut an average of 15 per cent and cassenger rates 33 per cent. It a horse for twenty-four hours from is a condition of affairs that spells | W. E. Miller, a liveryman, and rode ruin.

"In Nebraska our rates have been cut to such an extent that strictly intra state business is not remunerative. 'But you are paying dividends,' the people say. Yes, we are, but it is our interstate business which earns them. Eighty five per cent of our business is interstate and only 15 per cent is business, within this state.

"But this argument that we are paying dividends is invalid, fo, the supreme court has said that the state cannot point to interstate business producing profits as an argument for lower rates any more than the carrier can point to its losses on its interstate business to justify higher rates on its intra-state business.

"Governor Hughes of New York vetoed the two-cent fare bill in that state and he did so on the broad ground that it was arbitrary legislation. He said it might become confiscatory. New York has 160 people to the square mile. Nebraska has less than fourteen people to the square mile. In other words, New York has 8,297 miles of railroad, 100 people to the square mile and 10.8 miles of railroad for each 10,000 people, while Nebraska has 6.411 miles of railroad. 60 miles of railroad for each 10,000

THE HAYWOOD TRIAL. Counsel for William D. Haywood at Boise, in their efforts to discredit the testimony of Harry Orchard, put a witness on the stand whose testimony strongly indicated that the explosion in the Vindicator mine was an acci-

dent and not a crime. In the Haywood trial at Boise, Idaho, a ruling by the court materially limited the showing of the defense as to the alleged counter conspiracy by the mine owners.

William F. Davis, who, according to Harry Orchard, was a leader in several of the mine crimes in Idaho, was put on the stand by the Haywood defense and denied Orchard's statements. His testimony was weakened somewhat by Senator Borah's severe cross-examination

The first direct testimony in the defense of William D. Haywood was chiefly directed toward showing that Harry Orchard, blaming Frank Steunenberg for the loss of his interest in the Hercules mine, had threatened to have revenge by killing him, and that the conduct of Orchard and K. C. Sterling, both before the Independence explosion, when they were frequently seen together, and afterwards, when Sterling called off the bloodhound that was following Orchard's trail, justified the inference that the mine owners inspired the crime.

In an address that occupied two sessions of the district court at Boise, Idaho, Clarence Darrow, of Chicago, outlined to the jury the defense of William D. Haywood to the charge that he murdered former Gov. Steunenberg. In broad description, it is to be a denial of every material count in the testimony of Orchard, with a showing that Orchard killed Steunenberg

AIM AT EXPRESS COMPANIES.

Complaint Filed with Interstate Commerce Commission Under Law.

Washington-One of the most important cases yet filed with the interstate commerce commission under the new railroad rate law was on Friday presented, which alleges that the express companies, through their power and facilities as common carriers, are usurping the prerogatives of the banking associations and at the same time employing the capital of the banks in the conduct of their business. It is alleged that the exchange business of the express companies and the relations which they have with the rai roads enable them seriously to discriminate against regular commercial institutions.

September and December Options Advance on Reports of Crop Damage. Chicago-Wheat on Thursday went above the dollar mark, the September option selling on the floor of the Board of Trade for \$1, and the December delivery for \$1.03½. The sharp advance was unexpected to the majority of traders and it came with startling suddenness. The advance was caused by the report of a statistician who last April estimated that the winter wheat crop would amount to 325,-000,000 bushels. This estimate was based on the expectation that Kansas

would produce 60,000,000 bushels. A supplemental report was issued by the statistician declaring that the crop would probably fall 10.000,000 hushels below this amount because of

Earl Chism has confessed at Clin- ton, Ia., to robbing the banks and post offices at Reynolds and Taylor Ridge, III. The general manager of the Erie railroad said representatives of the International Association of Machin- ists had received \$10,000 a year from the road for years and when payment was stopped they called a strike. The Hamburg-American line, through its managing director, Herr Ballin, gave an order to the Harlan & Wolff firm, of Belfast, for a 50,000-ton steamer. The ship will be the largest	trical display visited Creighton and vicinity last week. The known dan- age in town amounts to about \$10,000 and it is probable that many instances of destruction in the country have not yet been heard from. The Tecumsch Military band has voted to disband, for the present at least. An instructor was hired early in the season and the band was active but for some reason the instructor was dismissed and since then there has been nothing doing. The Knox county teachers' institute will be held August 26 to 30. Prom- inent speakers who will be present in- clude State Superintendent McBrien and Governor Cummins and Senator Dolliver of Iowa. One of the events of the week will be a steamboat excur- sion up the Minsouri.
