

vented by a Greek about 1224.

The hand that rocks the boat is the hand that moves the world to anger.

The latest thing in fruit is a strawberry the size of a potato. Have a alice?

A fish trust is merely a logical process of evolution. In nature the big fish eat the little ones.

One reason why girls shun domestic service, when you come to think of it, is that so few of them know how to cook.

Doctors' fees in China are from two to ten cents, and we frankly state that we have no doubt they are worth it.

At Buchanan, Mich., a turtle was found that had been under a dam for 20 years. That's a long time to be under a dam.

Grocers emphatically repudiate the idea that they are organizing or intend to organize a trust. They haven't even a canned agreement.

Eight-hour day for mothers? Tut, tut! Most of them would be satisfied if baby stays asleep long enough to guarantee them an eight-hour night.

A New York policeman interfered with an eloping couple, taking them for burglars. This might properly be termed "an arrested marriage."

A silver dollar coined in 1804 has just been sold to a Philadelphia man for \$3,600. We have a much newer one that he can have for a less sum.

Nothing looks so proud as a big baloon sailing through space and nothing looks so draggled as that same balloon hanging from the branches of a tree.

Those Indiana young women who have resolved to marry no man who hasn't at least \$4,000 in cash seem to forget that there is any such thing as love in the world.

In an 'endurance race" for automobiles it is not expected that either the automobile or the driver can endure the test of bumping into bridges or being dumped into a ditch.

A horse in a country town in Illinois saw an automobile for the first time the other day, and five minutes later dropped dead. "Poor old Bill!" ner 'He always did have

Investigation of Express Rates. The state railway commission adopted a resolution to continue its investigation of rates charged by express companies in Nebraska and to prosecute vigorously the suit filed by the attorney general to test the valid ity of the Sibley law and to keep faith with the federal court. This resolution was adopted as a substitute for the resolution of Commissioner Williams, which was that the commission give the express companies fifteen days in which to file rate schedules and if they failed to do so in that time to enforce the provisions of the Sibley act.

Douglas county will contribute more The resolution adopted was introto the support of the state than any duced by Member Clark and it sets other county paying in over \$227.000. out that the attorney general by and Inasmuch as the state officers have with the consent of the railway comsaid there shall be no deficiencies for missioners, filed a suit in the state the next legislature to look ater, and supreme coudt to test the validity of the Board of Public Lands and Buildings and Purchase and Supply has the Sibley act and that the express companies transferred the case to the said the same thing, the next legislafederal court. The commission then agreed not to attempt to enforce the off financially. penalty clause until after the legality of the act had been decided. By reason of this agreement or affidavit on the part of the commission, the federal court refused to grant an injunction to the express companies, b" said if the commission did attempt to enforce the penalty clause, application could again be made for an inout that the commission desires to keep faith with the federal court and therefore it will continue the investiunder way, and secure a decision on

a lot of sense."

The telemenaphone, a new invention, is designed to take the place of the depot porter who announces the departure of trains. It can't be any more unintelligible than the present occupant of the job.

A Pittsburg woman wants a divorce because her husband thought bean soup was all she ought to eat. If he wants another wife after the courts have granted him his freedom it might pay him to look around in Bos-

San Salvador has given a subsidy of \$5,000,000 to an American company to build a railroad across it. San Salvador may as well say good-by to revolutions. A railroad company of that size will see to it that the country is peaceably governed.

The other day a bride stepped from her father's house, ran the gauntlet of flying rice and old shoes, and reached the carriage. She was about to enter when an old shoe, hurled by a guest, struck one of the horses. He plunged and frightened his mate. The nair ran, and the bride began her happy life with a broken leg. In time, remarks the Youth's Companion, we shall outgrow the thirteenth century style of humor which leads us to add discomfort and embarrassment, if not danger, to a nerve-trying ceremony.

Mrs. Agassiz, the widow of the great teacher of science, was herself as much interested in the cause of education as was her famous husband. The first president of Radcliffe college, she was all her life the warm friend and personal sympathizer with and adviser of young women: and her great wealth was used, not for ostentatious luxury, but for many quiet charities. "A memory written all white" is the beautiful way in which Mrs. Julia Ward Howe summed up ber life.

life.

violation.

Something suggestive to young men with artistic skill is to be found in the recent decision of the secretary of commerce and labor, that owing to the scarcity of the supply here lithographic artists may come from abroad under contract. The lithographic companies have been unable to find skilled workmen enough at home, and have had to import them; and the demand for fine lithography is so great that much work is sent abroad to be done by foreigners on American paper and American presses.

"Never be contentious. Concern yourself with your duties, and your rights will take care of themselves." A bit of parting advice from a general to the graduates of West Point, but applicable to all men, young or old. college graduate or not.

QUESTION OF HEN'S IDENTITY.

Man in Court Released When Mother Proves Fowl Is Her Property.

Boston .- Upon the identification of hen, a big buff-colored cochin and eight fluffy little chicks, depended the fate of John Cullen, of Hyde Park, in Dedham court, where he was arraigned on a charge of larceny. A number of hen fanciers were in court. They sized up the hen's legs, examined her bill and looked over the chicks with a critical eye, while Cullen waited in anxious expectancy. The hen was finally identified by Mrs. J. P., Cullen, of Garfield street, the defendant's mother, and he was discharged.

Cullen was in Dedham with a hen under one arm. A suspicious peeping sound attracted the police. the mill.

"I hain't seen nuffin' or no chickens." said Cullen when accosted. In spite of his protests one of the officers thrust his hand into the man's coat pocket and found a number of chickens.

Cullen declared that he found the hen in the woods near the home of his mother and that he was returning it to her hen yard.

Uses Fireflies as a Lamp. Riverside, N. J .- Caleb Hatch was out late the other night with his bicy cle with no lamp, and not caring to risk riding through the town without Waiters Aid Hotel Guest in Search For a light on his wheel he picked up a half pint whisky flask by the wayside and put a dozen fireflies in it. This

he flung on the front of his machine and the flashing "lightning bugs" saved him from arrest, as the local policemen were satisfied when Hatch telry. rode by with his wheel "all lit up."

Naples.-A cargo of live fish from Australia has arrived here, the species called "blue eyes." Prof. Count Morner, the Swedish consul at Sydney, discovered that the fish lives wholly on mosquito larvae, and the Italian government ordered its representative in Australia to send him home a cargo of the fish. They will be distributed among all the regions infested with insects and malaria.
