

LOWER HOUSE WILL PROBABLY URGE THIS.

Believes It Will be for Best Interest of Those in Charge of Government Forces There.

the ground of the estimates for the charge the p.eraration of the sundry civil bill in which the appropriation for the canal is incorporated.

The proposed visit is the outcome of a suggestion from Representative James A. Tawney of Minnesota, chairman of the appropriations committee in the last congress, who was at the isthmus following the adjournment last March. He believes it will be to the best interests of the service, as well as to those directly and indirectly in charge of the administration of the forces at work there if the members of the appropriations com- bonds acceptable under the existing mittee having in charge the prepara- requirements of the department, with tion of the sundry civil bill go to the isthmus with the estimates for the such deposits shall be returned after next fiscal year and consider them | January 1 in installments to be fixed carefully with the officials having su- by the secretary of the treasury. This nervision of expenditures for all kinds action is taken to meet the commerof work being done. The suggestion cial and industrial needs of the counhas met with a hearty response from try at this season and is believed to those identified with the commission's be prefeable to waiting until a time work, who believe that a great deal of of acute stringency, when the only good will result from a heart-to-heart alternative would be a large general talk between the congressmen who deposit. The latter policy the secreprepare the appropriation and the of- tary desires to supersede by one ficials who spend it, and that it will which shall have as its ultimate obclear away in advance any misappro- ject the adjustment of the operations hensions or misunderstandings that of the treasury department as rapidly may exist as to the justness and pro as may be practicable, under existing priety of allotting the money esti- law, in such manner as shall preclude mated to be necessary for the year's their being in any sense a disturbing work.

TWO-CENT FARE FOR KANSAS.

Railway Commissioners Likely to Take Summary Act'on. Topeka, Kas.-It may not be necessary for the State Board of Rail-

road commissioners to take much time before ordering in an emergency passenger rate of 2 cents per mile. George W. Kanavel, chairman of the board, said that he believed that it would not be necessary for the board to have a hearing at all. He thinks

MONEY TO MOVE THE CROPS. Secretary Cortelyou Announ New Plan.

New York-The first considerable transfer of currency to the west for the movement of crops and other interior needs of the country was made by the subtreasury Friday. Five hundred thousand dollars was transferred to Chicago and another \$500.000 to San Francisco.

Secretary of the Treasury Cortelyou announced a new plan of depositing government funds in New York, Boston and othe: cities to a ford relief to the money market in the approaching crop movement period. Secretary Cor-Washington-An examination on telyou will, commencing next week, place each week at such points in the appropriations for continuing work | country as he shall designate governon the Panama canal submitted by ment funds to such an amount as he Secretary Tait for the fiscal year of deems sufficient to prevent an acr'e 1900 is to be made by members of monetary stringency and possible the next congress who will have in panic when the demand for money is greatest at the height of the crop movement.

> The plan for financial relief was made known Friday in the following official statement to the Associated Press:

"Secretary Contelvou announced Friday that beginning with next week the treasury department will make each weel: for a period of not less than five weeks derosits in national banks at New York. Boston and other points, the security required to be approved state, municipal and railroad the understanding that if called for

factor in the business world." Investigation of the results attained under the old treasury plan of wait-

ing until the last moment and then placing a large single amount of government funds in New York disclosed to Secretary Cortelyou that as a rule the placing of a large amount of money, while it really helped, was generally ill-timed and either came too soon or too late.

BRAZIL GETS ITS BACK UP. The Hague Arbitration Court Decision

IS NOT Satisfact Rio Janeiro-An official recital of the position of Brazil in the matter of the organization of a permanent court of arbitration at The Hague has been made public. I says that Brazil does not insist upon a superior position in the Anglo German-American project for the organization of a new permanent court of arbitration. It pronounced itself as against the creation of such a court as an utterly useless step, inasmuch as there exists at The Hague a permanent court of arbitration created by the convention of 1899. Brazil also puts itself on record as against the classification of the sovereign states represented in the conference into states of first, second, third, fourth and fifth class. Independent and civilized nations it is declared should not be invited to a conference in order that they may sign conventions in which they are classed and classify themselves as powers of the third and even of the fifth order.

LACK OF MEN STOPS MINE AND RAILROAD WORK.

Harriman Lines Order Fuel from Australia and Repeat Warning to Dealers and Consumers.

Omaha-The scarcity of labor in the west has reached what the Union Pacific officials term an alarming stage and they say it places an ominous aspect on the situation for the coal consumer the coming winter. The Union Pacific is repeating its urgent appeal to coal dealers to stock up on their supplies now while they may, but is meeting with discouraging results. They assert that for some unaccountable reason the coal men are not ordering as they should if they want to help in trying to forestall suffering.

Coal mine labor is so scarce that some of the Harriman lines have ordered coal from Australia and lately they made arrangements for the purchase of 2,000 tons a week from Illinois, paying \$1 a ton for the coal and \$7 for freight to Garfield, Utah. At least 1,000 men are needed in

the coal mines of Wyoming and Utah alone, where labor is so scarce that Jans are drawing as high as \$170 per month. Agents have been sent all over the country to induce men to go west to work in the mines. The Oregon Railway and Navigation company has brought out of Chicago, Cincinnati and Pittsburg as many as 1,000 men at a time, paying their fares.

Recently this road sent an official to New York to induce immigrants to go west. He arrived on a day when the transatlantic liners landed 11,000 people in New York city, but as far as the records show not one of this horde landed west of Pittsburg. If so much difficulty on account of

getting coal to run the railroads it is naturally anticipated there will be greater difficulty in supplying private consumers next winter and consequently the railroad managers have been Assuing warnings to consumers to lay in a supply. Many of the dealers of the western states have heeded this warning, but many more are playing the part of the "foolish virgin." Great trouble is anticipated for this winter unless the warning of the managers is heeded. An espe-

# PROBLEMS OF THE PRESENT DAY

## of the Same by Preside

Provincetown, Mass .-- The laying of the corner stone of the Cape Cod Pilgrim memorial monument Tuesday gave President Roosevelt his first opportunity of the summer to break silence upon public questions, and the forty-minute speech which he delivered from a platform on top of Town Hill, was one of vigor and directness upon matters of national importance. Among other things he :bias

"On the New York stock exchange the disturbance has been particularly severe, most of it. I believe to be due to matters not particularly confined to the United States and to matters wholly unconzected with any governmental action, but it may well be that the determination of the government in which, gentlemen, it will not waver. to punish certain malefactors of great wealth, has been responsible for something of the troubles, at least to the extent of having caused these men to

combine to bring about as much financial stress as they possibly can in order to discredit the policy of the government and thereby to secure a reversal of that policy so that they may enjoy the fruits of their own evil doings.

"That they have misled many good people into believing that there should be such reversal of policy is possible. If so, I am sorry, but it will not alter my attitude. Once for all, let me say that, as far as I am concerned, and for the eighteen months of my administration that remain, there will be no change in the policy we have steadily pursued, nor let up in the effort to secure the honest observance of the law, for I regard this contest as one to determine who shall rule this government-the people through their governmental agents or a few ruthless and determined menwhose wealth makes them particularly formidable-because they are behind the breastworks of corporate organi-

zation. "I wish there to be no mistake on to prosecute criminals, rich or poor. But I desire no less emphatically to have it understood that we have undertaken and will undertake no ac-In the man of great wealth, who has
