MANY YEARS AGO.

Files of the Journal, Nov. 26, 1873. Nebraska presents a good record. Her population will now exceed one hundred and twenty-three thousand. She supports 781 public schools, 42 periodicals, 181 churches, and only 60 persons confined in prison.

The law of Illinois requires all threshing machine tending rods to be boxed, and it is stated that in consequence of a failure to comply with this law eighty-three persons in that state have been killed or maimed for life.

A company has been formed at Fremont for the purpose of digging for coal. The company are now engaged for work ten or twelve miles northwest of Fremont, and feel quite confident of success, as they have found a three inch vein and strong indications of more.

Preparations are now being made to bring to a public sale about 50,000 acres of land belonging to the Pawnee reservation. The lands which will remain unsold are mostly of an excellent quality, but 50,000 acres taken off will narrow down their range and confine them to much closer boundaries, and anyone acquainted with the Indian character knows that he wants "beaps" of land, and unless he can have a large range will be dissatisfied, and, like a wild animal, seek a new home.

As potatoes are scarce and corn meal not to be had, we publish the following receipt for hulling corn. We can eat "hog and hominy" anyhow: One quart of strong lye, prepared by pouring warm water upon a peck or more of ashes; add two quarts of boiling water to it, and put in the corn; let it boil until the hulls begin to start, which you can determine by taking out a few kernels and washing them in cold water. Skim out all the corn; rinse in two or three waters; put it into cold water, and let it boil up; turn off that water so as to extract all the lye; fill up with boiling water, and cook for four hours slowly; add salt to your taste; let it boil half an hour more, and serve. It must cook awhile to be palatable.

Colonel C. A. Miller has purchased the Newman Grove Herald and consolidated the same with his Madison County Reporter. This is as it should be. Newman Grove is a nice little village, but it hasn't room for more than one newspaper. The Reporter is the old, established paper and naturally held the field since it never failed to keep abreast of the lively competition. Political factions have caused the multiplication of newspapers to the serious detriment of those engaged in the business. A non-paying newspaper is one of the things a poor man ought to avoid as he would a pestilence. It is more kinds of trouble than you can count. Once in the city of Columbus on the Loop, when dear old M. K. Turner was alive, and D. Frank Davis was the editor of the Daily Telegraph—perhaps it was just as well not to say anything about it, but when something happens like the consolidation mentioned above, it causes a flood of sorrowful recollections to sweep across our mental horizon, and the first thing you know some impertinent member of the family asks, "What are you swearing about now?"—Birby in State Journal.

Monday morning, Charles E. Matthews, one of the pioneer residents of Columbus, died at St. Mary's hospital, not being able to withstand the shock of the operation he passed through the day before. Mr. Matthews was born in London, Canada, December 14, 1839, and was married to Elizabeth Hannan in 1859. In 1869 they removed to Columbus, where they have since made their home. For many years Mr. Matthews was engaged in blacksmithing, his shop being located at first where the Columbus Roller mill now stands and later on Thirteenth street. Mr. Matthews is survived by his wife and two children, George D. Matthews of Enid, Okla., and Mrs. G. L. McKelvey of Fullerton. For a number of years Mr. Matthews has been in poor health and he was taken to the hospital with the hope that the surgical skill might prolong his life, but his condition and advanced age, 70 years, made it impossible for him to recover. The funeral will be held Thursday afternoon at 3 o'clock from the Presbyterian church, being conducted by Rev. Hayes, the pastor.

The Lincoln State Journal has the following to say regarding a former Platte county resident who has made his mark in the world: Charles T. Magoon, former citizen of Lincoln and now governor of Cuba, is said to have decided to enter into a matrimonial engagement after many years of bachelorhood. His friends in Lincoln have not been apprised of his engagement, and they doubt the correctness of the report. Miss Hinchshaw, writing from Cuba to his home paper, the Richmond (La.) Clarion, says: "The Cuban capitol or palace, occupied by Gov. Charles E. Magoon, both in an official capacity and as a residence, is on the Obispo. This palace was formerly occupied by ex-President Palma, who since the insurrection has settled on a cattle farm in the eastern end of the island. Governor Magoon's marriage to a Cuban lady of high family has recently been announced."

Dan Bray of this city won the diamond medal for the interstate championship at Kansas City last week. His nearest competitor was Dick Lindermann, who also broke fifteen straight, and in the shoot-off with Bray missed the seventh bird. The Nebraska squad shot well all through the tournament, except in the challenge event, which was shot on the second day of the tourney in the rain, when Nebraska lost to Kansas City by the score of 89 to 93. W. D. Townsend of Omaha was in on second money on the first day.

The home of George Engle and family of Clark was again saddened by death last Tuesday, when their little son Charles, aged nine years, passed away, death resulting from a complication of diseases. The deceased was brought to Columbus Thursday for burial, Rev. Graesshoft conducting the services and interment was made in the Shell Creek cemetery.

Last Sunday evening Charles Johnson and Tom Sturek, who were confined in the county jail, the former charged with burglary and the latter with forgery, attempted to break jail. Deputy Sheriff Jaworski was notified and he went to the court house, taking a position where he could see what was going on inside. It soon came to the conclusion that it was time to interfere and discharged his revolver. Both prisoners were started and tried to assume an indifferant air when questioned as to what they were doing. The calls were screeched and enough evidence discovered to show they were planning an attempt to escape, a hatchet and a couple of case knives being found in one cell. The prisoners were then put in the cage for safe keeping until they were brought up for trial, when Johnson plead guilty and is awaiting sentence and Sturek was discharged.

A Kansas farmer has so far overcome his prejudice to automobiles as to harness one to his plow and turn over several acres of ground a day. He also uses it to run his corn sheller, wood saw and other machinery. This he does on a slow speed. When he wants to go on the road he puts in another speed and goes by the best of them. He hauls the products of his farm to market, taking a half dozen common wagon loads.

Laying of the Corner Stone of the Y. M. C. A. Building.

Columbus turned out en masse last Friday to take part in the laying of the corner stone of the new Young Men's Christian association building. Mayor Phillips had issued a proclamation designating the half day as a holiday and all the stores were closed during the exercises. The street parade, headed by the Columbus City band, included the Masonic bodies, fraternal and civic bodies of the city and the children of the public schools, marched to the building. A hearty welcome was extended to all by Mayor G. W. Phillips and the two principal addresses of the day were made by Governor Sheldon and George G. Wallace, as a representative of the Y. M. C. A. The ceremony of laying the corner stone was very impressive and witnessed by over 3,000 people, many from surrounding towns being present. The day was pleasant, an ideal one for the ceremonies. The laying of the corner stone marks an important event in the history of the city and one that will be remembered by all those who witnessed it.
