

MISS BESSIE FARRELL.

MISS BESSIE PARRELL 1011 Third Ave., Brooklyn, N. Y., is Presi-dent of the Young People's Christian Temperance Association. She writes:

"Peruna is certainly a valuable nerve and blood remedy, calculated to build up the broken-down health of worn-out women. I have found by personal ex-perience that it acts as a wonderful restorer of lost strength, assisting the stomach to assimilate and digest the food, and building up worn-out tissues. In my work I have had occasion to recommend it freely, especially to women.

"I know of nothing which is better to build up the strength of a young mother, in fact, all the ailments peculiar to women, so I am pleased to give it my hearty endors' ment."

Dr. Hartman has prescribed Peruna for many thousand women, and he never fails to receive a multitude of letters like the above, thanking him for the wonderful benefits received.

Damage Done by Rats.

"The western farmer is waking up to a realization of the fact that he is, as the agricultural department told him some time ago, losing not less than \$100,000,000 a year from - rats." says J. H. Van Burden, a Milwaukee grain merchant. "It costs about 50 cents a year to feed a rat. We know and fed them as much grain as they would eat for a year. It is a conservative estimate to place our rat population at 150,000,000. About one-third of them live in the large cities, where they do not get so much grain."

State As a Farmer.

"Nothing raised last season speak of owing to the incompetence of the farmer." says State Accountant Fairfield, in his report on the state industrial home for women at Milford. The home has never been famed for farming and as it has been customary for the farmer to act as coachman and caretaker of live stock manual labor he is not supposed to free for all pace, \$500. have much time for farming. Yet decessor and an effort is now being or purse. made to increase his wages.

Notwithstanding the fact that the Lincoln asylum for the insane has 800 acres. 200 of which are farmed. that institution has to buy potatoes, cron and oats. The patients there do a great deal of farm work. However, there is a large amount of stock to feed. The state accountant found 58 cows, 162 beef cattle, two bulls, seven horses, two mules, six sheep, 101 hogs, 300 chickens and three geese. The institution has 520 acres in pasture and hay land, 200 in crops, 80 acres leased to the Chicago, Burlington & Quincy Railroad company and leases 160 acres of school land from the state at \$2 an acre.

Feud Between Insurance Officials.

The insurance departments of Nebraska and California have become involved in a bitter feud. Three Pacific coast companies are mixed up in the deadlock while the Bankers' Life of Lincoln cannot get into California. Insurance Auditor Pierce and Commissioner Wolf are the leaders in the fray. Pierce says the California commissioners would not give Nebraska tinction of having filed a complaint companies a square deal.

Acting on the reciprocal clause in the insurance code Insurance Deputy Pierce refused licenses to the Firemen's fund, the Pacific Coast Mutua! and the Pacific Life, all California companies. Unless Commissioner Wolf shows good cause, aside from the examiners' reports, for keeping Nebraska companies out of California it is not improbable that the three California companies will be held up in this state indefinitely.

Kick on Union Pacific.

The right of the Union Pacific railroad to discontinue running daily freight trains on its branches is to be the subject of a hearing before the railway commission March 4. The taking off of trains affects the service at such towns as Beatrice, Norfolk, Grand Island, Columbus and Kearney. The Commercial club of Norfolk raised a row over the lessening of train service and a freight train run daily between Columbus and Norfolk was reinstated. Other towns now complain and the matter will be inquired into by the commission. The commission has held in the case of a station at Dickens, Lincoln, county, that a railroad cannot close a station without permission of the commission. The taking off of trains is considered a more important matter than the closing of stations. The Union Pacific company has explained that an engine should haul 1,200 tons but in the case of many freight trains on branch lines they have been hauling from 80 to 150 tons. Trains are run every other day instead of daily as a

Editors Criticise Railway Board.

Three editors who were attending the state press association called on the state railway commission and expressed dissatisfaction with the work done by the commission thus far. The callers were J. R. Sutherland of the Tekamah Herald, Mr. Cobb of the Emerson Enterprise and A. W. Ladd of the Albion News. They met Commissioners Winnett, Williams and Clarke and Secretary Clark Perkins and complained that the commission had accomplished nothing except the settlement of trivial complaints and that in fact the commission had not yet been thoroughly organized. Mr. Sutherland complained that closed meetings had been held and that the people were not taken into the confidence of the commission. The commissioners explained their work and promised to keep the callers supplied with information in regard to the business of the commission. Mr. Sutherland was once secretary of the old board of transportation that was so much criticised. Meeting of County Assessors.

Secretary George D. Bennett of the state board of equalization and assessment has called a meeting of county assessors to be held at the state house Saturday, March 10, at 1 p. m. Since the adoption of the county assessor law it has been customary to hold meetings for the purpose of discussing the work of assessing property. This year for the first time in four years real estate is to be reassessed. In addition to this work the last legislature imposed upon assessors new duties in assessing railroad property for local assessment. This work is to be done under the law known as the terminal tax law. Other changes, mostly relating to the assessment of real estate, were made by the last legislature and it is thought best for the county assessors to get together and discuss their duties. Secretary Bennett has arranged to have the state board of assessment and equalization attend the meeting. This board comprises Governor Sheldon, Treasurer Brian, Land Commissioner Eaton, Auditor Searle and Secretary of State Junkin.

Demand Railroad Station.

A station kept open by the Northwestern read at the town of Crookston, Cherry county, is what Max E. Viertel wants. He called on the railway commission and filed a voluminous complaint asking that an agent be maintained at the station built many years ago but never opened. Mr. Viertel said among the last acts of the old board of transportation was an order requiring the Northwestern road to build a depot at Crookston. The work was done in the fall and the company promised to have an agent on duty in the spring. In the meantime the supreme court declared the board of transportation unconstitutional on account of the irregular passage of the act creating it. This decision left nobody in power to enforce the order of the board and the depot has never been opened.

Terminal Property Value.

The Mason City & Fort Dodge Railroad company is the first to file a report of taxable property which under the terminal tax law, under which railroad property is assessed for city purposes for the first time in Nebraska this year. This report was filed last the country publisher and his pa- week with Secretary George D. Bennett of the State Board of Assessment.

CURED HER CHILDREN.

Girls Suffered with Itching Eczema-Baby Had a Tender Skin, Too-Relied on Cuticura Remedies.

"Some years ago my three little girls had a very bad form of eczema. Itching eruptions formed on the backs of their heads which were simply covered. I tried almost everything, but failed. Then my mother recommended the Cuticura Remedies. I washed my children's heads with Cuticura Soap and then applied the wonderful ointment, Cuticura. I did this four or five times and I can say that they have been entirely cured. I have another baby who is so plump that the folds of skin on his neck were broken and even bled. I used Cuticura Soap and Cuticura Ointment and the next morning the trouble had disappeared. Mme. Napoleon Duceppe, 41 Duluth St., Montreal, Que., May 21, 1907."
