INDICATIONS THAT BUSINESS SITUATION IS IMPROVING.

Many Iron and Steel Mills Are Running and Money Rates Are on the Decline.

New York-The prevailing opinion reflected in the financial district last week was of increased confidence that the condition of affairs was mending. Evidences were not universal that contraction had run its course, but from fields that were considered most significant the signs of betterment were accepted as testimony that the situation was shaping owards improvement. Figures compiled by the American Railway association of the number of idle freight cars showed a progressive reduction for the last two fornightly returns. These figures were highly influential in shaping opinion on the general situation. Scattering reports of resumption of work by factories which had suspended or largely reduced operations during the depth of the depression, although mixed with evidence of further curtailment in other directions, were a cheering factor. Especially in the iron and steel trade the reports of reopenings were notable. A recovery from the price of copper, which had been failing since the decision to reopen the Butte copper production, gave some reassurance

reopening in Montana. The declining money rates here and abroad were an element in the situation and the discrepancy in money rates here and in Europe induced some investment of foreign funds in New York. This was mostly confined to high-grade mortgage securities and to some takings of mercantile paper.

to the confidence in improvement in

that trade, which was expressed in the

Buying for foreign account was perceptible, however, in the stock market and the presence in foreign capitals of some of the most influential American financiers revived the supposition that foreign buying of stocks were not unrelated to this circumstance. The easing of the money market and the stirring of activity in stocks brought into consideration the subject of financial needs of the great corporations ment in the general bond market, but resulted somewhat disappointing. The bond market lacked breadth and the still selling do not måke a propitious

SAFETY FOR CHILDREN.

Warning to Boards of Education, Superintendents and Educators. The following circular has been sent

and Labor Commissioner Ryder: Owing to the recent calamity at Collinwood, a suburb of Cleveland, O., we deem it our duty to call the attention of boards of education, city superintendents, high school and village principals, teachers and other officials throughout the state who are responsible for the lives of the school children entrusted to their care to the law regulating fire escapes and egress from public buildings.

To guard against loss of life in this

state we urge upon all officials whose

duty it is to enforce the aforesaid acts

to see that the provisions of these laws are strictly observed. We regret to say that there are at least 300 public school buildings in villages, towns and cities in Nebraska where existing arrangements fail to meet the requirements of the law. In many places the situation is criminal. It is the small details that are too often overlooked or entirely neglected, which in the event of great emergencies would be the line between safety and danger. All doors should swing outward. Windows should never be allowed to become bound or neg-

lected to that extent that they will

not work with a touch of the finger.

Escapes of noncombustible material

should be erected where needed. The need should be regarded as immediate rather than in the distant future. We offer the suggestion that in addition to exits and fire escapes provided for by law there should be on every floor of a school building two or more stories in height a supply of ropes in every room, knotted and securely fastened to the walls ready for immediate use. The boys should be required to practice descending these ropes occa-

sionally and the girls should be required to watch the boys at practice. There should be frequent fire drills in every school, but it should be remembered that in a fire drill it is as important to see in how orderly a manner the pupils can leave the building, as well as how quickly it can be

AS TO OPERATING EXPENSES. Reports for Seven Months of Nebraska

Railroads. The excess of operating revenues over operating expenses has been decreased during the last seven months, according to the reports of seven railmission. The only exception is the Burlington, which reports its operating expenses for the last seven months as being 68 per cent of its revenues, while for two years before its operating expenses were 71.21 per cent of its revenue. The following table shows the relative percentage of income required during the last seven months and the

two years previous: Union Pacific......59 Burlington68 71.21 65.36 Great Northern77

The expenses of the Milwaukee have been practically a constant proportion of its income during the entire period. The Missouri Pacific, however, has suffered a very considerable decrease in its net revenues, faling from 28.85 per cent of the total operating revenue to 23 per cent.

DIVORCE AT STOCK YARDS.

Transportation and Yards to Be Handled by Separate Corporations. Lincoln-After a consultation of members of the State Railway commission and Frank Ransom, representing the Union Stock Yards company of South Omaha, it was decided that the company would organize a new company which will manage and control the transportation facilities of the old company. This new company will then make its report to the railway commission in accordance with the decision of the supreme court which held the stock yards a common carrier. The railway commission holds it has nothing to do with the price paid for feed stuff by shippers because the business of transportation ceases when the cattle are unloaded into pens and

therefore its jurisdiction ceases at the

Nebraska Car Famine. Lincoln-A car famine existed in Nebraska for the week ending March 4. On the Omaha division of the Union Pacific 233 box cars were ordered and 165 provided. On the Norfolk division of the Northwestern patrons called for 262 cars and got 115. On the Fremont division the demand for 189 cars was

met with 160. Will Restore the Service. Lincoln-The Union Pacific will re store the service which has been almost annihilated on the branch line of the system. C. J. Lane, assistant general freight agent, informed the railway commission that the order recently issued would be complied with

and the annulled trains restored. Lightning Starts Bad Fire. St. Paul-During a thunderstorm lightning struck and set fire to the

barn and granary of Chris. Kikkelsen,

about twenty miles north of here. The

harn and granary was entirely consumed, with seven head of horses. Farmer Gumble Hangs Himself. Fairbury-John Gumble, a larme living near Daykin, in Jefferson county, committed suicide by hanging. A coroner's inquest was held and decided that the man was suffering from

temporary insanity. Bids for State Buildings.

The State Board of Public Lands and Buildings has received bids for construction of a building at the Grand Island Soldiers' home and for the cottage at the Milford Sofdiers' ed, but a majority is in favor of spend-

cut by State Superintendent McBrien | STATE NEWS AND NOTES IN CON-

DENSED FORM.

The following offieers were elected: President C. C. Smith, Exeter: vice president, George Loom-

is. Fremont; secretary and treasurer, G. J. Hess of Lincoln. The Falls City Telephone company has asked permission of the state railway commission to increase rates. The present rates are at the rate of \$24 per year for business telephones and \$9 per year for residence service. The company states that its investment is \$21,483.76. The assertion is made that a telephone plant depreci-

ates at the rate of 10 per cent per annum. The suit of A. W. Bradley of Juanita, for \$4.500 damages was dismissed in federal court at Hastings because the defendant was named as the Chicago, Burlington & Quincy Railroad company instead of Chicago. Burlington & Quincy Railway company. Bradley claimed damages for the destruction of a barn and contents by fire which was alleged to have been started by fire brands from a Bur-

lington engine. A further reduction, says an Omaha dispatch. was made at the Omaha shops of the Union Pacific road. Orders for a 12 per cent cut in the forces there were sent from General Superintendent Park's office at headquarters to Superintendent McKeen and between 125 and 160 men were discharged. Officials estimate that about 145 men were let out. The shops had 1,800 last fall before the dull times came on. There are still

at work in these shops 1,800 men. In answer to the charges of discriminatory rates made by the Fairbury Iron Works, Attorney James E. Kelby has filed a statement to the effect that the rates complained of are interstate rates, which the state railway commission is powerless to change. The complaint of the iron works is the first step in a campaign begun by the Fairbury Commercial club to obtain better rates for the
