Congress.

Currency legislation by the present congress seems improbable.

The house passed the bill appropriating \$1,500,000 for participation by all the time. the United States in the international exposition to be held in Tokio, Japan, in 1912. The bill lacks only the president's signature to make it a law.

An omnibus territories bill embracing fifteen measures, favorably considered by the committee, was passed by the house Tuesday under suspension of the rules. The various provisions of the bill deal exclusively with legislation pertaining to the terri-

Passage by the house of the general deficiency appropriation bill, carrying an appropriation of \$17,368,572, marked the completion by that body of the last of the great supply measures of the government. The bill was put through under suspension of the rules, with no time allowance for general debate.

Nebraska members of the house have arrayed themselves on the side of the president as against Speaker Cannon.

Senator Bulkely (Connecticut) spoke in favor of the passage of his bill to authorize the president to re-inlist the negro soldiers of the Tyenty-fifth infantry, and declared that if possible he would secure action on it.

Announcement is made that no riv ers and harbors bill other than an administrative measure will be passed at this session of congress.

In the public building bill Iowa fares very well. Davenport gets \$60,000 for improvements to its building: Council Bluffs \$65,000 for additional grounds and improvements; Ottumwa, \$165,000 new building; Fort Dodge, \$130,000 for improvements, extensions and repairs; Estherville, \$60,000 for a new building: Ames, \$60,000 for a building; LeMars, Red Oak and Fort Madison, \$10,000 each for a new site; Denison and Iowa Falls, \$7,500 each for new sites; Burlington and Mason City, \$5,000 additional each to complete their buildings; Cedar Rapids, \$10,000 additional to complete its building.

### Political.

Mr. Bryan says the result in Penn sylvania is a good argument for the direct primary. Senator Dolltver will make some

speeches in Iowa in the interest or Senator Alison Judge Evans has resigned the chair

manship of the Missouri democratic state committe because he is a candi date for governor.

President Roosevelt has "taken notice" of the \$2,000,000 public building bill and may veto the measure.

Bryan carried the Alabama primary over Johnson by three to one. Pennsylvania democrats are divided on the question of supporting Bryan.

California democrats to the Denver convention are instructed to vote as a unit for Bryan. Secretary Taft announced the

terms of the agreement he reached with the Panama government on his recent visit there, which, it is believed, if carried into effect, will guarantee the absolute integrity of the elections to be held in July. Tammany Hall will be represented

at the democratic convention at Denver by a delegation 650 strong. All arrangements for the journey have been completed. The democratic territorial conven-

Missouri is to be for Mr. Bryan in the Denver convention first, last and Secretary Metcalf has detailed Ad-

miral Robley D. Evans, late commander-in-chief of the Atlantic fleet, to duty with the general board of the navy, which has to do with the preparation of plans for naval campaigns for use in time of war. Attorney General Bonaparte has

written the circuit judges of the district of Philadelphia asking for a quick hearing of a test suit of the commodities clause of the new rate. Omaha ministers are up in arms against Sunday baseball.

Evelyn Thaw is said to be in a mood to drop her suit to annul the marriage with Harry Thaw.

Mr. Bryan got the endorsement of Michigan democrats, but fell down in the Keystone state.

Governor Brooks of Wyoming says there is no doubt but what the eastern buyers are taking advantage of wool growers and offering low prices for the clip because the growers are in debt for sheep bought last fall.

The outlook is not encouraging for any financial legislation the present congress. Senators and representatives are wide apart. William A. Martin, sole surviver of

the John Brown jury, is visiting in Washingtaon. His home is at I elaplaine, Va. He is 77 years old. Rev. S. A. Coffman, a Methocist ciergyman of Fremont, W. Va., killed

# Washington.

A resume of the present session of congress elicits the interesting fact that there were more important questions presented to and discussed by congress on which the public generally or sections or casses demanded action than ever before in its history. Representative Norris of Nebraska

has been the recipient of many congratulations on the part of his colleagues of the house for the able and impartial manner in which he presided over the republican caucus on two occasions.

The house refused to concur in the conference report on the postoffice bill because of the ship subsidy section and passed the campaign publicity bill with an amendment decreasing representation of southern states. Senator Brown and Representative Norris presented to the president in the strongest possible manner the name of William M. Geddes of Grand

ships to the Tokio exposition. Senator Newland endeavored to get

the bill appointing an inland waterway commission before the senate. Mr. Burkett, of Nebraska, objected to its consideration in advance of the from the primary indicate that Wil- house building bill. Mr. Newlands voted down almost unanimously.

Senator Rayner made an appeal to Arizona.

THIRTY-SEVEN DEALT WITH BY THE SENATE.

Gains in Arbitration Recorded as Dis trict Victories for American Diplomacy.

Washington.-With little discussion and less publicity, the United States senate has at this session placed its approval of thirty-seven treatiesmore in number if not in importance than had been ratified during the twenty years preceding. In making effective so many agreements with the nations, international advancement has been made along three distinct lines. Twelve nations have agreed by treaty with the United States to arbitrate future disputes, which is taken to mean nothing less than that the world has now been established on the plan of arbitration.

The foundation for continued friendly procedure in adjusting questions with the Orient is believed to be contained in the treaties with and the legislation in respect to Japan, to which is added the friendly visit of the fleet to that part of the world.

A basis of settlement has been arrived at with Great Britain, by which longstanding questions between Canada and the United States are assured of satisfactory adjustment. To these important accomplish-

ments, directed throughout by Secretary Root, may be added a number of lesser magnitude. The territory available as asylum for the fugitive from justice has been further restricted through extradiction treaties with Spain, Portugal, Urugay and San Marbeen concluded with Peru, Salvador and Portugal.

The gain for arbitration is regarded as a distinct victory for American diplomacy, initiated by the instructions to the American delegates to The Hague conference. The result so far is approval of general arbitration treaties with Great Britain, Japan, France, Italy, Spain, Switzerland, Mexico, Portugal, the Netherlands, Sweden and Denmark. Besides the general arbitration treaties eleven of the international treaties resulting from The Ernest S. Kenison, who killed Saia Hague conference were approved. They include these subjects: Recovery of contract debts, opening of hostilities, laws and customs of war on land, rights and duties of neutral powers: submarine contact mines, bombardment of naval forces, naval war and the Geneva convention, right of capture in naval war, discharging projectiles from balloons and the final act

of the peace conference. As to the orient the important ac complishment is the bringing of Japan into the group of nations committed to arbitration. Besides this are the conventions with that country which guarantee in Korea and China protection for inventions, trade marks and copyrights.

Reduction of Freights. The general hearing on the proposition of a reduction of freight rates in Nebraska has closed and no further presentation will take place unless the railway commission asks for a supplemental hearing. The railway employes are yet to be heard. Talks were made by C. E. Spens, general freight agent of the Burlington lines west, General Solicitor J. E. Kelby of the same road, Freight Traffic Manager J. A. Munroe of the Union Pacific. and General Solicitor N. H. road men allege that the commission must base rates in Nebraska only on business beginning and ending in the state, and must not consider traffic through the state, beginning in the state and ending outside, or originating outside the state and terminating within the state. After this is done, according to the railway attorneys, who quote the Wisconsin Railway commission as authority, 80 per cent of the value of the lines and equipment in the state must be taken as the basis for dividend earning, 80 per cent of the equipment having been found necessary to carry purely state traffic. Mr. Kelby said the Burlington carns only 2 per cent on its taxable value in Nebraska on state business, and Mr. Munroe said the Union Pacific earns only 1 per cent on Nebras-

ka business. General Freight Agent Spens confined his talk to the difference in conditions between lowa and Nebraska is about 50 per cent of the density of traffic in lowa, and that the cost of carrying decreases with the increase of density of traffic. He said he did not blame the shippers of Nebraska for comparing Nebraska and Iowa rates, but he thought when they understood the conditions they would understand the matter.

Light on Railroad Values. T. A. Polleys, tax commissioner of the Chicago, St. Paul, Minneapolis & Omaha railway company who spoke before the State Board of assessment. appeared to be boosting for a raise in the assessed valuation of other railroads in Nebraska or to be looking out for an assessed valuation that may be uzed before the railway commission as an argument for leave to increase freight rates. He showed the board how it might increase the valuation of his own road from \$42,500 a mile in Nebraska to \$47,000, and then he talked an hour or two to show the board that really \$35,000 was about right. Towne of New York as their commencement orator, and he has accepted the invitation. The alumni orator is to be G. W. Gerwig of Allegheny, Pa. The annual concert of the school of music will be held on the evening of June 6. On Sunday, June 7, Chancellor E. Benjamin Andrews will deliver the baccalaureate sermon. The Phi Beta Kappa crator will be Chancellor G. E. McLean of the University of Iowa. As the class play, the senior class will present "The Three Musketeers" on June 9. June 10 will be alumni day.

Objection to Cut in Rates. C. C. Wright of the Northwestern spoke before the railway commission and asserted that his road could not stand a reduction of class rates; that it is now making only 2.2 per cent on its valuation, and during the nine months of the enforcement of the Aldrich bill made only 4.4 per cent on all business in Nebraska, and for the banner year ending June, 1907, made 6.07 per cent on state and in terstate business.

Board of Trade. A quiet effort is now being made to revive the project of forming a board of trade or commercial exchange in Lincoln and there is talk of erecting a large office building to serve as a board of trade, a club house and an office building. The Commercial club has now about \$7,000 subscribed on a building fund, for which at least \$25,-000 will be needed. If the board of trade project is sucessiul the grait and lumber interests would undoubtedly join the Commercial club in erecting the building.

New Secretary Chosen. Christopher Schavland of Madison was the unanimous choice of the State Board of Assessment for secretary. The election occured on the first ballot, Mr. Schavland was born in Norway and is 41 years of age. We had not long to wait for Stoessel. Punctually at one o'clock he came into the room. He was dressed in a black frock coat, his voice was weak and he looked older and more wrinkled than when he was on trial a few months ago.
