Year 1907-8 Being Rapidly Filed in Mr. McBrien's Office.

Nebraska School Matters.

Reports of county superintendents for the year 1907-8 are being filled quite rapidly in the office of State Superintendent McBrien. Reports from Seward, Sarpy, Cedar, Stanton and Garfield were received. J. L. Jenkins of Garfield is the first superintendent to report from a western county. A number of the schools of this county shared in the appropriation made by the last legislature to weak school districts. The wisdom of making such an appropriation is shown by Superintendent Jenkins' report. In 1906-7 out of thirty-one school district five held school for a term of three months or less. According to the 1908 report, every district in Garfield county except one held school six months or more during the last year. Burwell, the only graded school in the county, collected \$110.25 for high school tuition.

Superintendent E. H. Hoch of Seward county reports for male teachers an average monthly salary of \$76.20 and for female teachers \$42.68. The report from this county last year showed \$61.22 for males and \$39.39 for female teachers. Under the high school tuition law Seward county collected \$1,797.90. Of this amount Beaver Crossing received \$333.25; Milford, \$191.25; Seward, \$540.25; Utica, \$383.-25; Germantown, \$43.50; Staplehurst, \$36.70; Cordova, \$139.45; Tamora,

\$69.25; Bee, \$61. According to the report of Superintendent C. S. Coney of Stanton county, quite an interest has been shown in the new library law passed by the last session of the legislature, \$553.81 being set aside by the rural districts of Stanton county for the purchase of reference books. The average monthly salary paid to male teachers, as shown by Superintendent Coney's report for the year 1907-8, was \$59.77 and female teachers \$45.24. This is about \$4 higher than was paid the previous year. District bonds to the amount of \$15,000 were issued by Stanton county during the last year. According to the report made by Superintendent H. A. Collins, seventysix teachers were employed in the
