SHALLENBERGER, DEMOCRAT, IS AHEAD OF DAHLMAN.

Westover's Friends Belive that H Will Come Out Triumphant in the Sixth District.

Omaha-Ashton C. Shallenberger is slowly creeping ahead of Mayor Dahlman in the face for the democratic nomination for governor. The work of canvassing boards as made known Friday reveals in nearly every instance a slight gain for the Alma man, which, if maintained, is certain

on the ticket. Returns from the various county boards specify whether democratic or populist, and it appears there is only the remotest ground for contest in the claim of Dahlman that populist and democratic votes are being added

to land him in the leading position

together. Friday was set apart by the majority of the county clerks for the official canvass, and in many places the final figures for the entire ticket will not be known for several days. In Douglas county the canvass may continue until the close of next week.

A compilation of the figures complete in nine counties, including Douglas county, shows the leaders to be Barton for auditor, Bishop for state superintendent, Cowels for land commissioner and Williams for railway ticket.

Westover is being given a race for first position in the Sixth congressional district by Johnson of Rushville. The returns so far received are from the extreme western section of the district. When the east begins to add its vote, Westover's friends believe he will win. Other congressional fights have been determined, practically, save in the First district on the democratic ticket, where returns are too incompete to indicate whether McGuire or Fitzsimmons is ahead, Gilbert, in the Fourth district, maintains his lead over the field, as had been predicted.

CUMMINS THE CAUCUS NOMINEE.

lature Refuse to Participate.

Des Moines.-The republican caucus this afternoon selected Governor Cummins as the party candidate for senator or the short term by an almost unanimous vote, there being fifty-nine of the 110 republicans present and participating. When the roll was called it became evident that the threat made in the morning that the standpatters would refuse to go into caucus had been made good in part. There were four present who might have been expected to keep away. Of these Senator Seeley explained his position and said he could not conscientiously take part in a republican senatorial caucus, and Representative Hambleton of Mahaska said the same.

Reads Will Fight Rate.

Chicago.-At a conference here on Friday of the legal representatives of railroads operating between Chicago and the Missouri river, a decision was reached to contest the decision of the Interstate Commerce commission in the famous Missouri river rate case. Exception is taken to the commission's order which was made some time ago, that reduction of 9 per cents per hundred pounds be made in the through rates from the Atlantic coast to the Missouri river. The rates are to go into effect September 15.

Bright's disease. The Rock Island Railroad company, through Attorney D. W. McHugh, anwered the complaint of Omaha lumber men who wish to reduce dates from points in the state to Omaha to a basis equal to those enjoyed by Lincoln. The answer states that Lincoln is entitled to lower rates because of the fact that it is nearer many of the

towns than is Omaha. Considerable excitement was occasioned in Long Pine when a colored man chased a white man into one of the business houses and threw an axe at him. The only damage done was to two large panes of glass, which were badly shattered by the axe. "Republican and democratic speakers, orators and nation savers all agree, says Labor Commissioner Ryder, that they never saw so little public interest in politics or candidates The contract price of corn or the average date of early frost in Nebraska are the engrossing subjects.

"Talking of prices, I was told by an Aurora man who has several farms that he has been offered 60 cents for all the corn he will deliver. He refused the offer. And let me say the government estimate of our corn crop is too high, while some of the railroad estimates are away off, in my judgment. We have several hundred reports here in the office now, that bear out this statement and I have been in a large number of fields on foot. A great deal of corn is thin and uneven, and fully 10 per cent of the total acreage planted has been lost. Nebraska will have probably 70 per cent of a full normal crop, not more.

"This must be said, however. Where we have good corn this year we have as fine a crop as heart could wish. A yield of 60 bushels to the acre can be looked for in some fields, barring a hard frost within two or three weeks. Forty bushels will be the tally in a great many instances, and 20 to 30 bushels will be realized in many more fields. But the big expectations of some folks on aggregate yield are due for a hard tumble.

Omaha in Evidence at Fair. People of Omaha have always at tended the state fair. But Thursday was the first time Omaha came down in a body. It was the first time Omaha come down headed by its Commercial ciub, its magnificent Ak-Sar-Ben and its leading business men. It was the first time that it was impossible to turn around on the ground without running into Omaha men. And the Omaha delegation did not look a bit different from the owners of the live who raised the fine county exhibits, or the men who put up the magnificent horticultural exhibit. In fact, in this last department Charles Saunders of Omaha was in charge, he being the president of the society. It was a great day for the fair and a great day for Omaha. Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its great-

er strength than other makes. Satisfied. "Look here!" grumbled the old farmer. "This here almanae is a fraud. It predicted snow for yesterday and, by gum, it was hot as blazes all day." "But my dear sir," responded the bland almanac peddler, "it snowed up
