And It is Estimated that for the Coming Year the Deficit Will Be Fully as Great.

Washington.-In his annual report for the fiscal year ended June 30, 1908. Postmaster General Meyer gives the total receipts for the year \$191,478,663 and the expenditures as \$208,351,886, thereby showing a deficit of \$16,873,-222, the largest in the history of the department, with an additinal loss from fire, burglary, etc., of \$37,056. The deficit of 1909, it is estimated, again will exceed \$16,000,000.

Attention is particularly called to a number of improvements in business methods of the department as tending to its advantage and the saving of considerable amounts. Recommendation is again made for the creation of the position of director of posts, at a high salary, and who shall hold office during good behavior, the object being to have a continuity of policies for the benefit of the postal service and the people of the United States.

The necessity for good roads is pointed out in connection with the development of the rural tree delivery service. It is suggested that should congress grant the department authority to utilize rural routes still further by the establishment of a limited parcel post, confined entirely to rural delivery routes, it would then be pos- Douglas streets, Omaha. "The special parcel post," says the postmaster general, "will enable the farmers to have small parcels delivered at their gates, to live better, and to obtain easily the necessaries of life." Permission is re- and body. Her dress was almost comquested to establish experimentally a limited parcel post in not to exceed four counties in order to demonstrate the practicab ity of the plan.

school houses in matters pertaining to the ordinary operation of the postal service, so as to emphasize the importance of careful addressing, the placing of the name and address of the sender on envelopes, etc., is recommended to be continued, so as to save hundreds of thousands of letters and packages from going to the dead letter office each year, as is now the case.

"Some two months ago I had a humor break out on my limbs below my knees. They came to look like raw beefsteak, all red, and no one knows how they itched and burned. They were so swollen that I could not get my shoes on for a week or more. I used five or six different remedies and got no help, only when applying them the barning was worse and the itching less. For two or three weeks the suffering was intense and during that time i did not sleep an hour at a time. Then one morning I tried a bit of Cuticura. From the moment it touched me the itching was gone and I have not telt a bit of it since. The swelling went down and in two days I had my shoes on and was about as usual. George B.
