MUCH OF IMPORTANCE DOING IN WASHINGTON.

President-Elect Taft to Confer With Knox and Others Regarding Cabinet Makeup.

Washington.-Washington promises to furnish the greater share of matters of news interest this week. Colonel Goethals, engineer in charge of the Panama canal work, will appear before the sub-committee of the house committee on appropriations. He will be questioned regarding the estimates of the isthmian canal com-

mission. The president will send to congress message regarding the care of dependent children and will confer with president-elect Taft. Mr. Taft will be fairly busy during the week. He left Cincinnati Monday for Washington where he will receive the report of the engineers who went to Panama

with him. While in Washington Mr. Taft expects to confer with Senator Knox and with others relative to cabinet appointments.

The cabinet gossip, which is regarded as the most reliable, is that no one has been determined upon for the treasury portfolio.

Senator Knox and Frank H. Hitchcock have been asked and have accepted the positions of secretary of state and postmaster general.

As to the other places, unconfirmed rumor with a fair percentage of likelihood for correctness, makes the cabinet as follows:

Attorney General-Mr. Wickersham of New York. Secretary of War-Mr. Wright of

Secretary of Navy-Mr. Meyer of Massachusetts. Secretary of the Interior-Mr. Bal-

linger of Washington state. Secretary of Agriculture-Mr. Wilson of Iowa. Secretary of Commerce and Labor

-Mr Nagel of Missouri. It is the general understanding that Mr. Taft wishes to fill the treasury portfolio, either from Illinois or Ohio. Should the appointment go to his own state, it is likely that it will fall to Myron T. Herrick. The seeming Pacific denies vigorously a story tumult of candidates from Illinois is regarded as militating against, I than for that state's chances.

Mr. Taft also will consult with the president and others regarding his inaugural speech.

Lusitania Has Stormy Trip. New York.-Held back for two days by fog and heavy seas, the Cunard steamship Lusitania came to its dock Sunday after the roughest voyage ever experienced by the boat bewas carried away by a boarding sea last Thursday. For three days the Lusitania battled with the waves and slow time was made.

Knoxville, Tenn.-It was reported here that the Harriman interests have obtained possession of the Clinchfield, Carolina & Ohio railroad. This is the line just completed from the Virginia coal fields, through Johnson City, to a connection with the Seaboard Air Line at Bostic, N. C., 208 miles. Train service will be established on the road at once.

Liberty Bell May Come West Philadelphia-The Interstate Commerce commission has granted a permit for the free transportation of the Liberty bell and a guard of Philadelphia policemen to the Alaska-Yukon exposition at Seattle, Wash., and it is probable the famous old relic w'il be taken to the far west the coming summer. Mayor Reyburn has received a number of petitions from several Pacific coast cities requesting that the bell be sent west and will recommend the city councils that the request be granted.

Hard Sledding for Tax Dodgers. Publicity of assessments as a remedy for tax shirking by large property owners is proposed in a bill introduced in the lower branch of the legislature Friday by Bowman of Nuckolls. The act is intended as well to furnish a check upon the work of the county assessor and his deputies. It provides that he shall publish in detail in one or more newspapers the names and holding of all persons, firms and corporations that are listed for taxation in the sum of \$500 or over. Reciprocal Demurrage. Banning's demurrage bill, S. F. No. 71, was placed on the general file with amendments proposed by the railroad committee. This bill is said to be the choice of the joint railroad committee and will probably pass. It contains some concession to railroads and is said to be satisfactory to shippers. One amendment allows the railroad company to require an advance deposit amounting to 20 per cent of the freight charges, but not more than \$10 per car. Another extends the time of cars of 60,000 pounds capacity from forty-eight to sixty hours. was given to S. F. No. 4, by Buck of Otoe, a bill to prevent the adulteration of agricultural seed. Myers of Rock on agriculture took features of both and recommended the passage of a bill. The bill is practically a copy of the Iowa law, but the committee on agriculture decided not to retain the Iowa provision permitting two per cent of sweet clover in alfalfa seed. Buck tried to have this retained on the ground that seed dealers and botanists said it was impossible to get pure alfalfa seed. Gammill of Frontier made a forceful speech in which he denounced adulteration of alfalfa seed and declared it could be prevented and that it was adulterated purposely. He and other senators told of the damage done by the weed called sweet clover. Howell of Douglas wanted to defer action, but was unsuccessful.

Follow Treasurer's Plan.

Case's till providing that the state treasurer may credit the university with ninety-five per cent of the amount of money which would be derived from the one-mill levy on the grand assessment roll of the state, in order that a difinite amount may stand there to be drawn against by the regents, seemed likely to get tangled up before its passage but the final inclusion of a small amendment satisfied the objectors. Taylor of Custer. and Nettleton of Clay, and it was allowed to go through committee of the whole. The objection was that the bill apparently contemplated mapping out a road for future legislatures and binding their hands unless a repeal of the law was taken. To obviate this, which Case said was not contemplated, the bill was made to read 'of the coraing biennium."

Valentine Wants Hatchery. Several citizens of Valentine, Nobraska, are in Lincoln, interested in getting a bill under way to secure an appropriation of \$5,000 for a subfish-hatchery at Valentine, where at present there is a small sub-station. They say that the northern part of the state is the proper place for such development, because the streams and lakes of that region are the only place where trout and black bass thrive. They think the benefit derived from a sub-station will more than offset the cost, since it will obviate the fish car that now has to be run there. If the station were established all this would be done away and ordinary exthe shipper for loading and unloading press shipments of stock would be out of the water seldom more than a day. When two or more telephone companies cannot agree upon the terms for physical connection of systems, the railway commission is empowered to arbitrarily make the terms. One section of the bill provides that no company may secure a temporary injunction against the railway commission when it issues an order, but should the company go into the courts it may appeal to the district court from the order. The penalty is a fine of \$50 to \$1,000, and second violatica forfeits the charter.
