STROTHER & STOCKWELL, Proprieto

RENEWALS-The date opposite your na rour paper, or wrapper shows to what time you on is paid. Thus Jan05 shows the payment has been received up to Jan. 1, 1905 Feb05 to Feb. 1, 1905 and so on. When payment is made, the date, which answers as a receip wall be changed accordingly.

DISCONTINUANCES-Responsible subscri ers will continue to receive this journal until the are notified by letter to discontinu when all arrearages must be paid. If you do no wish the Journal continued for another year af ter the time paid for has expired, you should proviously notify us to discontinue it.

CHANGE IN ADDRESS-When ordering shange in the address, subscribers should be sur to give their old as well as their new address.

The sugar trust appears to be a sort of Cassie Chadwick-an all-around crook.

As a harmonizer of democractic factions the dollar dinner at Kearney was not a glittering success.

Some very "small potatoes" are frequently given big names. "Little Giant" Thompson for instance.

As usual, the republicans of Dodge county have a candidate for congress. He is spoken of as an "orator and a banker. There are several bankers living in Fremont, but if there is an "orator" among them he moved there recently.

The new stock yards senator from Illinois, who owes his election to the Roger Sullivan democrats, has enrolled himself as an Aldrich creature before taking his seat. There was no neces sity for such haste. It was understood where he would land before the job to elect him was pulled off.

saloon out of business in all but ten voted for the building of a railroad counties in the state, and then it would that had never been built, and when be an easy matter, after the wet terrihis attention was called to a little item tory had been restricted to ten counties, to pass a state wide prohibitory law banishing the open saloon from the state. By working for the first proposition, he says, "every interest of the latter is being served as well." As a

of \$955.000 which his state had borrowed from the general government fifty-four years previous, he replied that the debt had been outlawed and could not be collected. It was learned later that Hale held possession of the railway bonds voted by the South power for obtaining results, Harrison should not be ignored. He organized Dakota county and that his attorneys and carried to success the fight for the collected the amount due on them bedaylight law. He had the ear of fore South Dakota became a state. Governor Shallenberger after the leg-

To them there ned the gum shoe campaign against is much wirtue in the supposed an-Sheldon among the prohibitionists cient doctrine, "the greater the truth which resulted in the election of Shalthe greater the libel." lenberger. Although Elmer Thomas

The Aldrich combine does not rel received the doubtful honor for driving ish the frequent use of the terms Sheldon into political oblivion, it was "trickery" and "juggling" by the pro-Harrison who was really the man begressives in their speeches on the tariff schedules. The rule of the august senate against personal allusions has been invoked by one of the enraged bourbons. The progressives may have to employ circumlocution on the floor of the senate, but their constituents known of no reason why outside trickery should not be called trickery. The Aldrich combine should read the comments of the republican and independent press on their daily performances. Trickery is the mildest term applied to the methods whereby votes have been forced without information jokers inserted to deceive the unsophisticated, increase palmed off as "modifications," and greedy extortion disguised as protection needed to equalize differences in cost.

> As to the solicitude of the Aldrich combine regarding the political future of the insurgents, one does not know whether to laugh or swear at it. Is Pickwickian or Pecksniffin? The progressives' names have already become household words; they stand for honor intelligence, courage and loyalty to principal. The stand-patters are doing their utmost to endanger the future

of their party yet they profess to be

Really, the bourbons cannot be a

LEGALIZED **UDAGE** AMERICA.

The protective tariff has built up a in a reasonable time, gave the conystem of morals in this country that not sumers this advantage of cheap home only is wicked, but it allows to be done by authority of law what the man who dose it would never do in his private casoity as a citizen. It permits a man not only to cover his neighbor's goods, Iket. Original protection was designbut to take them away from him by ed to help the industry temporarily in force of law .- From a recent speech by Mr. J. P. Doliver of Iows in the United States Senate. Some people of the United State

are a moral people. They have earned and attained this distinction through relatively high standards o life and conduct as individuals. Th many exceptions to the rule do no destroy the fact that the average home life of the Americane, their average daily intercourse, their average mangement of public institutions and their average code of individual principles are distinctly moral. It is true, then that the same people, through their overnments, national, state and muniicipal, not only countenance, but act ually indorse and voluntarily main tain certain standards of conduct that they would not for a moment think of applying to their family teachings, their neighborly relations or their

business connections? the highwayman behind the gun in It is true-painfully true; and n one can pursue the subject intelligent ly without realizing that it is true. Take the example used by Senator Dolliver. Mr. Dolliver is a republican. He is a protectionist. All he demands is that the system of protection be adjusted to its fundamental creed. That creed, mind you, may be faulty; many think it is faulty. But. at least, it is tolerable, even on moral

grounds, whereas the expansion of the system, its practical working at this time in many instances, is utterly incompatible with the common understanding of plain right and wrong. That creed, in a word, was that a new industry in a new country should be

products, the protection should be removed in order that the manes should have the advantages of a cheap marorder that the comsumers might be helped permanently. But the system has degenerated into a practice of helping the industry permanently and the conumer never.

The natural course of the true protective system would be for an industry to demand less and less protection as it becomes stronger and stronger; but, on the contrary, the more powerful an industry becomes, the more protection it demands and usually receives.

The enormous and unnatural riches accumulated by the protected trusts is a humiliating monument to the acquiescence of the American people in a system by which abnormal profits are extorted from the public. In many of its bearings this system, as now open ated, is nothing less than légalized brigandage, the vicious extortion o tribute through the convenient agency of the purchase price. You do not see

person, but the system carries back to the unholy coffers of the men who control the makers of laws a large part of your hard earned money-not in the form of legitimate profits alone, but also in the form of the vasual's tribute. And what is true of the protective system is often true of other legalized extortion. Men have one set of morals for their private lives and another set of morals in granting away the peuple's rights for inadequate returns. Men have one set of morals in dealing with their business associates and another set of morals when representing the public in transactions of farreaching consequence. Men have one set of morals when acting for an indi-

minors. This cause came on for hearing on the

It was during the administration of Andrew Jackson, in 1836, after the national debt had been paid, that money commenced to accumulate in the national treasury, and when the surplus had reached \$39,000,000, the twenty-six states, then composing the Union, looked with selfish eyes upon

WHAT THE STATES OWE.

hind the guns.

the money. The representatives in congress from these states demanded that the coin be divided among the

several commonwealths according to their representation in the national halls of legislation. The representatives contended that a surplus was dangerous; that the money actually belonged to the states under the States Rights idea as maintained by the democratic party. Jackson, who has since become one of the saints of the democratic party, did not agree with congress. He claimed that the money belonged to the general government,

Business men who patronize Uncle Sam's mail order printing house and Uncle Sam's parcel post department, cannot consistently find fault with those who buy goods of mail order houses in Chicago and favor a law that would make it possible to have the goods ordered sent by mail.

The Lincoln Star asserts that on the first of July the state of Nebraska will be out of debt, and will not owe a penny. And now the Star believes would be a good time for piling up another big debt. The Lincoln paper says the salaries of officers should be increased, the state house rebuilt, the state university enlarged, etc., all of which the people of the capital city, of course, enthusiastically endorse. If the state has any money to squander, why, certainly, spend it at Lincolnrun the state in debt and enhance the value of real estate in the various additions surrounding the town. What right have people living in other parts of the state to object to Lincoln hogging everything in sight and then asking for more. In order to give Lincoln an opportunity to grow at public expense it is clearly the duty of Governor Scallenberger to call special session of the legislature for the purpose of creating a state debt of two or three million dollars by increasing the salary of his office holders and building a new capitol building at Lincoln.
