FLOTILLA TO ESCORT PRESIDENT TO NEW ORLEANS.

Everything in Readiness for the River Jaunt to Attend the Deep Water Convention.

St. Louis.-Governors, United States senators and congressmen and foreign diplomats arrived here Sunday to board steamboats to make the trip on the Mississippi river to New Orleans to attend the Lakes-to-the-Gulf Deep Waterways association convention. The arrivals are guests of the Business Men's league of St. Louis on the trip. The first boats to depart for New Orleans, where the convention will open October 30, were the four torpedo boats which have been here since October 1. They got away early Sunday and will await the fleet carrysion that Nebraska owes the existing the deep waterway delegates at Memphis. SOME QUESTIONS THAT NEED T BE PASSED UPCN.

State May Appeal to Sackett Law to Secure Opening of Roads.

Inquiries have been addressed to the secretary of state regarding the marking of the ballot in the coming election, and the secretary is waiting for the attorney general to pass on the question before making a statement. One party desired to know for whom a vote would count if a voter should make a cross in the circle at the head of the ballot and then vote for one candidate for judge on another ticket

Without having given the matter any study the legal department of the state said off hand it would appear that the party after whose name the mark was made would receive the vote and the candidates on the other ticket for the same office would not receive the vote. For instance, if a democrat should

make a cross in the democratic circle at the head of the ballot and then vote for one of the candidates on the republican ticket for judge, it is the belief of the legal department that the vote would count for the one repub-

> lican candidate for judge and for all the candidates on the democratic ticket except the three judges. Or the election board might throw out the ballot entirely, though it would be an injustice to the candidate after whose name a cross has been made, but no more so than to two of the judicial candidates on the other ticket, for each person is entitled to vote for

"Little black swellings were scattered over my face and neck and they would leave little black scars that would itch so I couldn't keep from scratching them. Larger swellings would appear and my clothes would stick to the sores. I went to a doctor, but the trouble only got worse. By this time it was all over my arms and the upper part of my body in swellings as large as a dollar. It was so painful that I could not bear to lie on my back. The second doctor stopped the swellings, but when they broke the places would not heal. I bought a set of the Cuticura Remedies and in less than a week some of the places were nearly well. I continued until I had used three sets, and now I am sound and well. The disease lasted three years. O. L. Wilson, Puryear, Tenn., Feb. 8, 1908."

Try This in November.

Thousands upon thousands of families who have not been regular eaters of Quaker Oats will begin on the first of November and eat Quaker Oats once or twice every day for thirty days of this month; the result in good health and more strength and vigor will mean that every other month in the year will find them doing the same thing.

Try it! Serve Quaker Oats plentifully and frequently for the thirty days of November and leave off a corresponding amount of meat and greasy foods. You'll get more health, more vigor and strength than you ever got in thirty days of any other kind of eating.

While you are trying this see that the children get a full share.
