Tokio.-The proposition of the United States for the neutralization of the railroads n Manchuria came as a surprise and the publication of the details of the note, which was handed to the Japanese government on December 10 by the American ambassador, aroused an immediate chaos of disapproval. Putting aside all question of the ousiness or political advisability of the proposition, sentiment entered most largely into the attitude of the people of Japan. Omaha, Neb., Feb. 9.-The most interesting feature of the enormous sale of the Cooper preparations, now going on in this city, is what the medicines are actually accomplishing ually there is nothing in the general

among the people of Omaha. At the commencement of his visit here Mr. Cooper prophesied that during the later part of his stay he would receive hundreds of callers daily who came simply to thank him for what the preparations had done. He also stated that stomach trouble is the foundation for a great many diseases and that his New Discovery, as it is called, would prove very effective in all cases of rheumatism simply by

getting the stomach in working order. That this prophecy has been fulfilled cannot be doubted after a half-hour spent at the young man's headquar-

State General Fund Full.

For the first time in the history of the state, so far as known, the state treasurer has \$100,000 in the general fund and the state is out of debt. The state generally had scads of school funds on hand and for many years has had \$8,000,000 of such funds invested in interest bearing securities, but usfund and often that fund is far behind and school funds are used to take up state warrants presented for. payment. As fast as general funds come in they are used in such cases to take up state warrants that have been registered to the credit of the school

The unusual occurrence of \$100,000 in the general fund and no outstanding warrants to take up, caused Treasurer L. G. My hands were raw all over, inside and out, and the eczema was spreading all over my body and limbs. Before I had used one bottle, together with the Cuticura Ointment, my seres were nearly healed over, and by the time I had used the third bottle, I was entirely well. To any one who has any skin or blood disease I would honestly advise them to fool with nothing else, but to get Cuticura and get well. My hands have never given me the least

bit of trouble up to now. "My daughter's hands this summer became perfectly raw with eczema. She could get nothing that would do them any good until she tried Cuticura. She used Cuticura Resolvent and Cuticura Ointment and in two have used Cuticura for other members of my family and it always proved successful. Mrs. M. E. Falin, Speers Ferry, Va., Oct. 19, 1909."
