EXCHANGES

### ST. EDWARD

From the Advance.

Last Saturday afternoon B. F. Abbott bought the W. A. McCutcheon 80 acre farm south of St. Edward for a consideration of \$10,100. This establishes a new high record for real estate in this vicinity but Mr. Abbott has without doubt come into possession of one of the best farms in the vicinity.

Mrs. Jas. O'Donnell fell last Thursday evening, fracturing a bone in her hip. Her condition was considered very critical and Saturday she was taken to St. Mary's hospital, Columbus, for an X-ray examination. She was brought home Wednesday afternoon and is reported to be improving as rapidly as could be expected.

### SHELBY.

From the Sun.

Rev. and Mrs. Franklin Lohr, who have been visiting here at the home of their daughter, Mrs. W. A. Cornish for the past two months, returned to their home at Columbus Monday. Mr. Lohr was confined to the house while here with a severe attack of rheumatism.

Charles Merrill went to Omaha Tuesday and returned home Wednesday bringing all the Starkey children except the oldest girl. We are informed that Starkey had left the children to look out for themselves and they have been brought home to be cared for by relatives.

J. P. Lott, father of Mrs. D. C. Cole, died at his home in Rising City last Friday morning after an illness of only a few days. The direct cause of his illness we are informed was pneumonia. He was 62 years old and was one of the early settlers in this vicinity, having homesteaded the farm known as the Ham farm place. Funeral services were held last Saturday and the interment made in the Rising City cemetery.

### HUMPHREY.

From the Democrat.

Mrs. Max Elms and children of Columbus were in town the first of the week, visiting Mrs. Elms' sister, Mrs. Joseph Vanderheiden.

It seems certain within a very short time arrangements will be completed whereby the Humphrey Telephone company's lines will have connection with the St. Bernard line. Messrs. Garlow and Staedelman of the Humphrey company, in company with a few Humphrey

business men, attended a meeting of the stockholders of the St. Bernard farmer line at St. Bernard, and a proposition agreeable to the two companies was proposed and practically accepted.

Are we going to let the band question drop or are we going to help push it along to a successful organization? Any live and up-to-date town has a band, and we don't see why Humphrey cannot have as good a band as any town in this part of the state. By having band concerts a night or two each week trade can be drawn to town which would otherwise not come, even trade from other towns will be drawn. A good band is a good advertisement for a town and should be assisted by the citizens.

### MONROE.

From the Republican.

Will Graham of Mondamin, Iowa, is here visiting this week.

Louis Schroeder of Columbus has a force of men here moving two houses on to the farms of C. W. Hollingshead and S. C. Terry.

Dave Williams is having his house improved by a new coat of paint and fixed up. It looks as though Dave was getting ready for the near future.

Mrs. White who has been running the Commercial hotel here since last November served their last meal Wednesday noon and left Thursday for Hastings, where they will run a hotel.

George Hland came up from Columbus the first of the week, where he has been for some time, confined to the house with sickness. He is now on the road to recovery, however, and will soon be in his usual health.

Forrest Butler of Columbus has rented the W. O. Pugsley farm, between here and Genoa, and will farm it the coming summer. The place was recently bought by August Dietrich, but he decided not to move onto it and rented it to Mr. Butler.

Farmers report their winter wheat in bad shape, many of them saying that the last freezing in February killed it. While it may be a little early, still there is only a field here and there that shows any green, and those who have examined the roots say that a large per cent of it is dead.

People who get results advertise in the Journal.

### PLATTE CENTER

From the Signal.

Mr. and Mrs. Pat Smith and children, who have made their home the past few years in Holt county, returned to Platte county last week and will reside on the Joe Oady farm, 9 miles west of town.

When will people stop encouraging beggars and fake peddlers? Every few days one or more of this class of people canvas this town. Monday morning two well dressed men walked in from the south and proceeded to "work" our people. One of them had wire clothes-hangers and the other needles and other trinkets. Both told hard luck stories. One was lame, at least he carried a cane, though he frequently forgot to limp. The other was sick with consumption. They succeeded in picking up several dollars, people buying their truck, not because they had any use for it, but "just to help them along." They left on the evening train, each with his hide as full of whisky as it would hold, and a bottle full in his pocket. Tuesday a woman was calling at residences and business houses, selling lamp mats. She said she and her family were driving from Dakota to Lincoln, the whole family were sick, they hadn't had a bite to eat that day, and had no money to buy even a loaf of bread with. And she could produce a flood of tears every time she told her story. We never saw as leaky a person. It is a wonder that any of that family are alive today, for this is the third time in the past two years that they have been here, and each time they were in the same desperate condition. Down at the stock yards she had a comfortable house wagon, and a good team of horses, a healthy looking man and several sleek dogs that didn't look as though they ever saw a sick horse or felt the pangs of hunger. The proper way is not to listen to such people. They are adepts in their line, but without exception entitled to no consideration. Turn them down, say "No" to their appeals and they will be forced to earn an honest living or starve.

### CENTRAL CITY.

From the Nonpareil.

Miss Kate Osterman and her little niece, Alice, had an exciting experience Monday afternoon as they were driving to town. As they came along the railroad track about two miles west of town a passing train scared their horse and it began to plunge and run. It finally ran into the fence at the side of the right of way and upset the buggy. Miss Kate was dragged for quite a distance between the buggy and the fence and finally lost her hold on the lines. After she had done so, little Alice managed to reach over the dash board and recover them, after which she kept the horse in the center of the road and was finally able to turn it around and drive back to where her aunt was. The latter, very fortunately, was not seriously injured although she was painfully bruised and received a gash on her face. It is a wonder that she was not killed when thrown against the fence, but good fortune was on her side in this instance.

G. E. McCarns, who recently came west to investigate a deal in which a farm that he owned in Perkins county had been transferred to another party without his knowledge, committed suicide at his home near Montpelier, Ohio, on Thursday, March 3rd. He took carbolic acid and was found dead by his wife in the barn on their farm. No reason is known for his act. His brother-in-law, J. E. Dornshner, who was looking after his interests in land matters, received a letter from him which was mailed but a day before his death and in that he appeared perfectly rational and did not appear to be worrying over the trouble concerning the farm. Mr. McCarn was a brother of Mrs. M. A. Brannan. He lived here for a number of years and is known to many of the old settlers. He was well to do and his business affairs were in good condition. What could have been the cause of his act is a mystery, but it is likely that he was suffering from temporary mental derangement.

### BELLWOOD.

From the Gazette.

We notice that one of the farmers in Alexis township is again indulging in "fast driving" on our streets and some of these days somebody is going to get run down. It's now up to our city dads to make him slow up while passing through the streets.

Ever since the wash out of the wagon bridge between Columbus and Bellwood our little burg each day has been filled with people and our stores are all doing a thriving business. It is now up to our business men to try and hold a good part of this new trade.

The more ignorant a man is the more contentious he will be. When a man learns enough to know that he does not know much, then there is hope for him; but the stupid individual who is eternally running his tongue about things he is absolutely ignorant of, there is no living with him in peace. He is worse than the 7 year itch or the chiggers in hot weather. Everybody wants to run when he comes around, in order to avoid his fool talk on subjects he knows nothing about. Swat him.—Ex.

A newspaper printed in Pike county, Missouri, contains the following notice: "State of Missouri County of Pike. To whom it may concern: The undersigned will on September 29, A. D. 1857, sell at public outcry for cash, on premises where Coon creek crosses the Old Mission road, the following chattels, to-wit: Six yoke of oxen, with yoke and chain; two wagons with beds, three nigger benches, four buck niggers, two nigger boys, two prairie plows, twenty-three steel traps, one barrel of pickled cabbage, one hoghead of tobacco, one lot nigger hoes, one spinning wheel, one loom, three fox hounds, one lot of coon and skunk skins and a lot of other articles. Are going to California. John Doe, Richard Roe, cryer. Free headcheese, apples and hard cider."

### CAUSES 95 PER CENT OF DIS- EASES.

Advice Concerning Stomach Troubles  
and How to Remedy Them.

Do not neglect indigestion which leads to all sorts of ills and complications. An eminent doctor once said that ninety-five per cent of all the ills of the human body have their origin in a disordered stomach.

A physician who made a specialty of stomach troubles, particularly dyspepsia after years of study perfected the formula from which Rexal Dyspepsia tablets are made.

Our experience with Rexal Dyspepsia tablets leads us to believe them to be the greatest remedy known for the relief of acute indigestion and chronic dyspepsia. Their ingredients are soothing and healing to the inflamed membranes of the stomach. They are rich in pepsin, one of the greatest digestive aids known to medicine. The relief they afford is almost immediate. Their use with persistence and regularity for a short time brings about a cessation of the pains caused by stomach disorders.

Rexal Dyspepsia tablets will insure healthy appetite, aid digestion and promote nutrition. As evidence of our sincere faith in Rexal Dyspepsia tablets, we ask you to try them at our risk. If they do not give you entire satisfaction, we will return you the money you paid us for them, without question or formality. They come in three sizes, prices 25 cents, 50 cents and \$1.00. Remember you can obtain them only at our store. Pollock & Co., the druggists on the corner.

### SILVER CREEK.

From the Sand.

Mrs. Rieder of Columbus is a guest of Mrs. C. L. Sprague.

Ed Williams of Columbus spent a couple of days in town this week.

Mrs. G. W. Keifer, son Merle and sister, Marguerite Williams, returned to Platte county on Wednesday.

Mrs. S. M. Torrence is home again after a long siege at an Omaha hospital. She seems to feel better and her many friends are rejoicing over her recovery.

The board of supervisors voted to put in three 80 foot spans of a steel bridge at Silver Creek with 16 foot roadway. This is what we need and eventually it will be a steel bridge clear across the river.

Tuesday last the school board of District No. 8, at Gardner signed a contract with C. N. Powers to build a new school house. It is to be of cement blocks, 30x40 with closets etc. and a bell tower. It promises to be one of the best school houses in the county. The contract price is \$1,850.

### STROMSBURG.

From the Headlight.

Mrs. Foskett received word from Rev. Foskett last week, that while making a trip from Sheridan to Greybull, Wyo., he was stuck for two days in a snow drift and all he had to eat was the contents of a traveling man's sample case which was shared among the passengers. He, we imagine, did not enjoy the experience.

Mrs. Boroff left on Tuesday for California where she will make her home with a daughter. Mrs. Makeover accompanied her as far as Central City, where she caught a through train. Mrs. Boroff has made her home here for many years, living alone since the death of her husband and it is gratifying to all that she will be cared for in her declining years.

A modern dude with narrow striped clothes, saddle colored shoes, a loud necktie, hair parted over his nose and smoking a cigarette, addressed his best girl as follows: "If you were me and I was you, what would you do?" She hesitated and said with a smile: "I would take off that hideous tie, put that vile cigarette in the stove, part my hair on the side and pray God for brains."

Too many people pass through life oppressed by the idea that they are slaves dominated by environment and influences that are fixed; that they are victims of circumstances and cannot change their condition. This is a sad mistake. We are largely what we think we are, and our station in life, and our character is dependent upon our thought and will. We are not victims of circumstances, except on rare occasions. We may be masters of our lives if we will.—Ex.

A. P. Linder met with a very serious accident at Durant on Monday. He was unloading hay from a car and left the lines lying loose, and when the train started the team became frightened and ran away. Mr. Linder was thrown out and the wagon passed over his arm above the elbow fracturing the bone, the end protruding through the flesh. He was cared for by a local physician but the injury was of such a serious nature that he went to Omaha yesterday to consult a surgeon. It is hoped that he will be able to return and that his injury will not prove too serious.

### GENOA.

From the Times.

John Janick, of Bellwood, has purchased the Robert Anderson farm of 432 acres southeast of Genoa in Platte county for \$42,500.

O. E. Green, accompanied by the foreman of his ranch, J. S. Lambert, left for Okehoit, Iowa, Tuesday to attend a stock sale. From Okehoit Mr. Green will go to his farm near Burke, South Dakota, to arrange for placing a tenant on his farm. The former tenant, W. U. Blair, was recently killed by a kick from a horse.

From the Leader.

Robert Anderson is reported to have purchased his farm east of town to a party from near Columbus for \$100 per acre.

John Nelson, who went to Columbus a couple weeks ago and was operated upon for appendicitis, returned home Saturday last.

Joe Krause sold his farm west of town the last of the week to E. S. Ogden. The farm contained 320 acres for which he received \$65 per acre.

Mrs. Thorsen, who went to Denmark last fall, returned to Genoa the last of the week in very poor physical condition. She was detained at New York several weeks by the immigration officials in order for her to show that she possessed visible means of support.

Somebody has been making war on dogs the past week by a liberal distribution of poison evidently all along the line from here to Silver Creek as dead dogs and cats are reported to line the highway the entire distance. A large number of town dogs were caught. Now a dog is the most faithful friend known to mankind, and while the canine tribe is made up of both dogs and curs, with a large per cent of the latter, it is due principally to their bringing up, and the man who will distribute poison promiscuously should be compelled to spend the remainder of his days working for the state behind bars.

### ALBION.

From the News.

S. D. Phillips returned Tuesday afternoon from Columbus, where he had been to see his daughter, Mrs. Frank Duncan, who recently underwent a very serious operation for appendicitis. He found her getting along nicely.

Some of the farmers are finding good seed in their corn which was planted early last year and which stood in the field all winter. This corn matured well last fall and stood in the field well protected by the husks. Farmers who have such corn will do well to test it. This may solve in a measure the question of securing good seed this spring. The editor of Wallace's Farmer suggested this idea several weeks ago to his readers and some of our farmers are finding this to be true.

On last Monday, H. K. Heetkind, wife and four children started for a visit to Norway. The length of their stay will depend on circumstances, but it will be anywhere from six months to a year. Mr. Heetkind came to America forty-one years ago, then a lad of 18 years. His possessions then consisted of a strong pair of arms and a determination to win. He first located in Wisconsin where he married his wife, and then came to Boone county in 1874. His industry has been rewarded, and he now owns 240 acres of good land besides personal property. He can afford a year's vacation, and a visit to the scenes of his childhood will, no doubt, be greatly enjoyed.

### Better Plumbing

MANY homes should have better bath rooms than they now have. We have always tried not only to do better plumbing than we ever did before, but better than anybody else can do. The volume of work we are now doing shows how we are succeeding.

We use only genuine "Standard" plumbing fixtures and employ only experienced workmen. Our repairing service is prompt and reliable.
