### Quaker Oats

An ideal food; delicious; appetizing; strengthening. Compared with other foods Quaker Oats almost nothing and yet it builds the best.

TRUE TO PRINCIPLE.

### A Minister's Indigestion

Rev. Fletcher of Tennessee Suggests a Remedy Based on Personal Experience—You Can Get It Free.

There is nothing that is so much sought after as a remedy for stomach trouble, and hence you will be interested to know how the Rev. A. J. Fletcher of Rutherford, Tenn., whose picture we present herewith, cured his indigestion. To use his own words, he says, in part:

Rev. A. J. Fletcher

I received the sample bottle of Dr. Caldwell's Syrup Pepsin that I asked you to send me, and I made no mistake in ordering it. I have been troubled with indigestion and indigestion more or less for about sixty years, and have taken many remedies, but Dr. Caldwell's Syrup Pepsin has done me more good than anything else. I can't say more.

Dr. Caldwell's Syrup Pepsin has been sold in drug stores for twenty years. Its price is only 50 cents or \$1 a bottle. It is especially adapted to the uses of babies, children, women and old folks. Its purity is vouched for by the Government, and results from its use are guaranteed. If you have never tried it, send name and address for a free trial bottle, which will be cheerfully sent to your home prepaid. If there is any medical advice that you want, or anything about your condition that you don't understand, write to the doctor. Address your letter, Dr. W. B. Caldwell, 231 Caldwell Bldg., Monticello, Ill.

Getting in Deep.

"Father," said little Rollo, "what is the fourth dimension?"

"Why—er—my son, that is hard to explain to the inexact intelligence. It is something that may exist, only you can't locate it."

"I know. It's like the piece of pie I'm to get when there is company to dinner."

There is more Castoria in this section of the country than all other districts put together, and until the last few years was supposed to be inured. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Castoria to be a constitutional case, and therefore requires constitutional treatment. Hux's Catarrh Cure, manufactured by E. J. Corry & Co., Toledo, Ohio, is the only constitutional cure on the market. It is a safe, reliable, and effective remedy for all cases of Catarrh. It acts directly on the blood and imparts vitality to the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: E. J. Corry & Co., Toledo, Ohio. Sold by Druggists. Take Hux's Family Kid for emulsion.

### UNIQUE TELESCOPING BRIDGE AT KANSAS CITY

PART OF THE NEW BRIDGE SHOWING THE ELEVATOR SECTION

KANSAS CITY, MO.—Work is progressing rapidly on the great double-deck bridge that is to span the Missouri river and the bottoms from Third street to the Clay county side. The structure will cost \$2,000,000, and will contain 14,000 tons of steel. The unique feature of this bridge is to be an immense elevator in one of the spans will hoist the lower deck for the passage of vessels, leaving the upper deck stationary. The lower deck will be occupied only by two railroad tracks. On the upper deck will be two street car tracks, two asphalt wagon roads, two sidewalks and a speedway, a mile in length, for automobiles.

### COIN IS NECESSARY

Retirement of Five-Cent Piece Would Shock Financiers.

Nickel Stands for More Fixed Values Than Any Other Single Denomination, and More of Them Are Required by Public.

Washington.—Officials of the treasury department sometimes discuss the nation's somewhat cumbersome coinage and make suggestions to one another that this or that change might bring relief to the working forces of the department. Generally these discussions do not go beyond the inner circle where they originate, no change is made or even suggested seriously and the work of the mint goes on as before.

Recently, however, the fact leaked out that the five-cent piece or nickel had been under discussion and that the government might ask congress to pass a law eliminating it from the national coinage. Small likelihood exists or ever did exist that such a step would be taken, but for a short space of time considerable anxiety developed in all parts of the country lest the useful and popular "nickel" should disappear from the circulating medium.

The fact is the government could afford to dispense with almost any coin rather than the five-cent piece. It stands for more stable prices than any other. It is the price of a loaf of bread, it pays the cost of the ride in the street car, with it the German buys his glass of beer and the American pays for the shining of his shoes. It is probably not too much to say that the disappearance of the nickel would prove a greater shock to the finances of the nation than almost anything that could happen.

The five-cent coin for two generations at least has been the fixed price of so many things that the people would be at complete loss how to proceed without it. True, hundreds of thousands of five-cent pieces are lost each year, but that is due to the

### Old Custom Kept in London

Six Ponderous Horseshoes, of Ancient Date, Tendered as Quit Rent for Smithy.

London.—Six ponderous horseshoes, more than 500 years old, have been tendered to the crown by the city of London corporation by way of quit rent for a bygone smithy in the Strand, and at the same time the city solicitor counted out 61 nails, which the king's remembrancer pronounced to be "good number."

The scene of the ceremony was the royal courts of justice and among the crowds of interested onlookers were the lady mayors and her two daughters. The corporation also did feudal

### PLUCKY LAD ENDURES PAIN

Washington Boy, Refusing Anesthetic, Does Not Flinch While Undergoing Operation.

Dayton, Wash.—When 17-year-old Holey Fouts was operated on for a painful affliction of the feet and lower limbs, he stoutly refused to take an anesthetic. Dr. Donahoe finally agreed to perform the tedious operation in face of this handicap. The youngster was strapped to the table without removing his coat. Suffering most excruciating pain, young Fouts uttered never a sound, but when the operation was over the physician took a ragged coat sleeve out of the lad's mouth. He had most of the sleeve between his teeth and it was bitten to shreds.

The boy's father stood near during the operation and when he saw the surgeon pull the sleeve from his son's mouth, fainted away. Perhaps the woman whose friends talked her to death felt that she had to die in self-defense.

as the domestic cigar is to many of them. The cigarette would cease to be the popular smoke if it were not for five cents. Shoe laces would either become a luxury at a higher price or require payment in pennies.

Turn which way one will, the five-cent piece bobs up at every turn as the most necessary coin of the realm. Its discontinuance would inevitably increase the cost of a thousand things of every day life, which no dealer now has the daring to change because of riveted custom. There is no likelihood that the government will soon consider the elimination of this coin, as such action would result in a howl of disapproval nationwide.

Engagement Bangle. London.—Notwithstanding the strong feminist movement in England among a certain smart set of girls, it is now considered the proper thing doubly to advertise one's engagement by a wrist bangle as well as an engagement ring, and sometimes even an ankle bracelet is included among the golden manacles proclaiming engagement bondage. The stronger minded English women are indignant at this latest fad on the part of their weaker sisters.

Character Above Money. The essential thing is not money, but character.—Lo Conte.

### Biology Peril to Grammar

Study of Grasshoppers and Tadpoles Takes Up Too Much Time of School Children.

New York.—John J. Fox, chairman of local school board No. 26, borough of the Bronx, has discovered a peril—a perfectly new peril. Prominent in it is the tadpole, abetted by the grasshopper and backed up by the caterpillar. Mr. Fox finds that our school children study such things too much, neglecting what is really worth while.

The other night he introduced a resolution before the board of which he is chairman asking that it be adopted and a copy sent to the board of education. The resolution reads:

"Resolved, That we, the members of local school board No. 26, having in mind the interest of the parents and

the welfare of the children, do hereby record our emphatic disapproval of that feature of our educational system which subordinates grammar to grasshoppers, reading to caterpillars, spelling to golden rod, arithmetic to bullfrogs and penmanship to tadpoles.

"Resolved, That we attribute to these and other equally reprehensible fads the atrocious English that is spoken by the school children of this city, within the very shadow of our grammar schools, from the lips of boys and girls old enough to speak correctly the language of the country of their birth.

"Resolved, That the time has come when the taxpayers and parents should inaugurate a movement for the extirpation from our school system of all the nonsensical fads that have crept into it during the last few years and which inure only to the benefit of those who teach the subjects, write the text-books or profit by their publication."

But, alas, today the tadpole is jubilant; the grasshopper is breaking all records for running and standing jumps and the caterpillar wriggles defiantly throughout the land. Local school board No. 26 killed Mr. Fox's resolution.

### Woman Hides Money in Hair

Mrs. Fairbanks Says Court Ladies Wore French Creations When They Entertained Her.

New York.—Mrs. Charles Warren Fairbanks, wife of the former vice-president of the United States, just back from their round-the-world trip, declared in an interview given out here the other day that she found in every country she visited a wonderful awakening among women.

"The change is most notable in China and Japan," said Mrs. Fairbanks. "The Chinese women are forging rapidly to the front, and it won't be long before they are heard from in alliance with the women of other countries. The Japanese women are by no means lumberers of the ground. The lower classes do everything that men do, working beside them in the field, carrying bricks and mortar, and assisting in all the labors of the stronger sex."

"I was particularly impressed by the empress of Japan. She wears European dress, and not only she, but all the ladies of the court were gowned in Paris creations when they entertained us."

Longhorns Almost Gone. Del Rio, Tex.—The long-horned cattle have disappeared on the range in Texas and are gradually going the same way in Old Mexico. They are being graded up until the high grades and thoroughbreds of Holsteins, Herefords, Polled Angus, Durhams and Jerseys have taken their place. A hotel at Abilene has a pair of long horns from Coahuila, Mexico, that measure five feet from tip to tip. These specimens are rare, and will soon be numbered with old-time cow men, the buffalo antelope, lobo wolf and Indians.

Be wise, while discouraging primary education is still wondering why it is that the child is able to defeat it in war.

### UNCLE JOE CANNON

HE ALSO SPEAKS WELL OF CANADA.

No matter what may be the opinion of Mr. Joseph Cannon, no matter if he may be looked upon by some as a car, and by others as a big warm-hearted man, with many of the instincts that make humanity very bearable, all will admit that he is a man who has been advertised more than any other man in the United States. What he may have to say therefore on any subject, will have weight. Observant, he speaks his mind freely. He was interviewed the other day by the correspondent of a Canadian newspaper. He spoke of his admiration for Canada, and he is quoted in a way that pictures fairly well the person of the man. The correspondent says he launched out into personal biography, proverbial philosophy, political comment, cynical scorn, broad profanity and sentimental poetry such as one rarely hears in the space of an hour. He discussed the Canadian tariff, and then said: "People say I break the Ten Commandments, all of them. But I don't, at least not often. I did break one of them up in Canada two or three years ago. As I rode from Winnipeg to the Rockies over your great West and saw the finest wheatfields in the world, I thought of Virginia and a lot of our States, and I smashed the Tenth Commandment every hour of the journey. Yes, sir, I coveted my neighbor's land." Coming from a man of the stature of Mr. Cannon, these were words that should have some weight with the Americans who may still have doubts of the advantages that are offered to them in Western Canada. A home amongst the wheatfields. Hundreds of thousands of Americans are adopting it. They go to Central Canada, to any one of the three Provinces of Manitoba, Saskatchewan or Alberta, or to the Coast Province of British Columbia, take up their homestead of 160 acres, and probably pre-empt another 160 acres, or it may be they do not care for pioneering twenty or thirty miles from an existing railway, and purchase a farm. Then they settle upon it and, having no clearing away of timber they begin at once to cultivate it, and make money. That they make money and much more than they could possibly make on the high-priced farms they have left, is the evidence of hundreds of thousands. They do not leave civilized life, they but remove from one sphere to another. They have splendid social conditions, churches, schools, rural telephones, splendid roads, railways, convenient just the same as what they left, and what is more, they get much greater returns from their crops, which give abundant yield. The climate is perfect, and it is no wonder that most flattering reports are sent back to their friends in the States, and it is no wonder that Joe Cannon was tempted to speak as he did. He "coveted" his neighbor's land.

Reason for Envy. The stingy man had come home and had objected when his wife attempted to kiss him.

Dr. Pierce's Favorite Prescription MAKES WEAK WOMEN STRONG, SICK WOMEN WELL. For over 40 years this celebrated remedy has been making women's lives happier—healthier—safer. Many thousands of women have testified to its wonderful effect. The "Favorite Prescription" is THE ONE REMEDY that can be depended upon when there is any derangement of the distinctly feminine organism. It purifies, heals, soothes, builds up. THE ONE REMEDY which absolutely contains neither alcohol (which to most women is rank poison) nor injurious or habit-forming drugs. THE ONE REMEDY which is so perfect in its composition and so good in its curative effects as to warrant its makers in printing its every ingredient, as they do, on its outside wrapper, verifying the same under solemn oath. It is needed when backaches make life miserable—when a sickening, dragging, bearing-down feeling makes work a weary agony—when sick headache, nervous irritability, loss of energy and appetite indicate derangement of the womanly organism. It is a purely vegetable compound, being a glyceric extract from native medicinal roots and can not injure in any condition of the female system.
