It is just simply out of the question for a young fellow to find such clothes as those known as 'College Chap' unless he comes to us.

The shoulders, the graceful waist, the delightful lapels, all proclaim them the clothes 'de luxe' for men who know cleverness when they see it. Are you one of these men? We want to know you.

JOHN ROBINSON COMING.  
Water-Proof Tents—Rain Will Not Spoil the Exhibitions.  
A sudden downpour of rain or a long continued drizzle will have no effect on the patrons of the John Robinson shows when it exhibits here. The reason of this will be apparent to everyone who sees the huge tents that will be erected here for the performance. They are all constructed of "mercerized" ducking. This marvelous invention for the waterproofing of material has been in the use for rain coats, but up to this year has never been used for tents. People who have used "mercerized" cloth know how it sheds water, and it was the knowledge of this that caused the Robinson Shows to have all their tents made out of this material. It is quite a stride in advance of other shows, but is only in keeping with the progressiveness of the management of these shows. Beneath these tents spectators can sit in comfort and ease during the heaviest of rains and be as dry as if in the finest theatre in the country. This is only one of the many novelties that have been added to these shows this season.

It is respectfully suggested the children attend the afternoon exhibition, where ample time is given to view the large menagerie, likewise avoiding the night crowds. Uniformed users will attend every want of the little folks and the care and attention to ladies and children is the first consideration of the management.  
The only big circus that will visit here this year
