#### MONROE. From the Republican.

Mrs. Henry Olayburn and daughter Pearl are visiting Mrs. Olayburn's sister in South Dakota

D. J. Gleason left last Friday for Buckley, Ill., called there by the death of his uncle, Dennis Glesson.

Monroe teachers attending the county institute at Columbus this week are the Misses Anna Potter, Susie Smith and Nellie Glesson.

On Tuesday morning Will Talbitzer and his family came for a visit with the nome folks. Will looks as if he had come out second best in an encounter with a saw mill, but is on the highway of recovery now.

Aibert Carper was called to Salt Lake last Saturday on account of his sister being shot, and at the time he started she was not expected to live. A letter from Mr. Ourper says that she is still alive and there are still hopes of her recovery.

The annual school meeting for district No. 76 will be held at the school house on Monday, June 27, at 10 o'clock a. m. Besides the election of two members of the board, the advisability of adding another grade will be discussed. The two members whose terms expire this year are O. W. Talbitzer and John Gibbon.

We clip the following from the Me-Cook Republican of last week. The many friends of Frank Smith, son of G. C. Smith formerly of Monroe, will be glad to learn of his success since leaving here: The first of the month H. P. Sutton, the well known jeweler of this city, took into business with him in the jewelry store, his son, Harold P. Sutton and Frank Smith, and the firm will be known hereafter as the Sutton Jewelry Company. Both young men are well know to the citizens, Harold having lived here since he was a babe. He graduated from one of the leading optical schools of the country the first of the year. Frank Smith has been head watchmaker for Mr. Sutton for the past four years and has since made friends with all whom he has come in contact. He is an expert workman, and this com

bination should make an ideal firm OSCEOLA. From the Record.

#### GENOA.

Mrs. Joseph Tarnick, who has been seriously ill for the past few weeks, was taken to the Columbus hospital last Saturday, where, it is hoped, careful nursing will restore her to health.

Word has been received in Genoa that Amos Munson and U. A. Brooks, went to the Fruitland Valley district of Utah fourteen months ago, have struck a rich deposit of lava polishing dust and are now numbered among the plutoerats.

Having reached the age of 70, Moses W. Canon, a member of Genos Lodge, No. 141, Ancient Order of United Work men, has made application for a final card and the return of the money he has paid into the order on assessments with interest on the amount at the rate of 4 per cent per annum. At a special meeting of the lodge held last Monday evening, the application of Mr. Cannon was granted, and the papers properly signed were cent to the grand recorder of the state jurisdiction Tuesday, who, on receipt of same, will forward Mr. Cannon a draft for \$407.80. At the last session of the grand lodge of United Workmen a law was passed which allows all members of the order who have reached the age of 70, to withdraw, and by surrendering the beneficiary certificate, receive back all the money they have paid on assessments, with interest added

PLATTE CENTER From the Signal.

Last Friday Charley Bacon was compelled to take to his bed with what his physician pronounces typhoid fever, and has been quite sick since, although his symptoms are somewhat better now.

We hear of several parties in Platte Center who dug potatoes large enough to eat out of their gardens the fore part of last week. The strange thing about this is that the late frosts bit the vines and thay never blossomed.

A number of people from town attended the funeral of Mrs. John T. Evans last Saturday, which was held from the Welsh Methodist church near the home, nine miles northwest. It was the larg est funeral that has been held in that locality for years, and was a manifestation of the high esteem in which Mrs. Evans was held among her neighbors and acquaintances. Mr. and Mrs. Mike Jones, of Burke, South Dakota, Mrs. Edith Henrich and Mrs. Lizzie Spangler, of Yemette, Ill., were present. These ladies are sisters of Mrs. Evans. Her uncle, Hugh Hughes, of Oolumbus, was

also present.

## Coming to

Geo. L. McNutt, D. P. M.

11

Mr. McNutt is one of the most veratile men on the American platform. He has spent the best years of his life in studying the problems of greatest interest to the great common folk. McNutt resigned the pulpit of a wealthy church to don overalls and work in a foundry. There he studied men and social conditions. He is in great demand as a lecturer on social

and economic questions.

SHOES CLOTHING the first of January. They were fed mostly alfalfa hay with a mixture of corn. When bought last fall they weighed 350 pounds and when weighed at the yards today they tipped the beam at 64714 pounde.

Through the courtesy of Uncle William Van Hoosen the editor of the Record had the privilege of seeing the final discharge of the first veteran volunteer in the U.S. army in the civil war. Mr. Van Hoosen enlisted June 13, 1861, in Co. I, First Iowa cavalry, and veteranized Dec. 9, 1863, at which time he was the only man to respond to the call of Gen. Steele under whom he served although the call was for 300 men. Mr

Van Hoosen at that time went on a vet eran furlough. President Lincoln die not affix his signature to the act provid ing for volunteer veterans till the 22d of December, but having already re enlisted, Mr. Van Hoosen had that much time advantage of those who yet veteranized and as he was the only man in the com-

mand of Gen. Steele who accepted the offer at the time, his claim to this distinction appears to be well establish ed. The attention of Congressman Hinshaw has been directed to these facts and in all probability Mr. Van Hoosen will receive merited recognition.

### Low Homeseekers' Fares

First and Third Tuesday of Each Month During 1910 To Many Points in Colorado, Wyoming, Utah, Idaho, Oregon and Washington

it had captured four sea trout, all of considerable size. After being under water for a few seconds the bird would reappear with a sea trout wriggling in its bill. But in spite of the victim's desperate efforts to escape it was deftly swallowed, and after a few gulps the cormorant would resume its fishing operations. One of the sea trout gave it considerable trouble, however, for the fish struggled violently for some moments, but was deftly placed so that its head pointed down its captor's throat, and thus its own struggles assisted the bird to swallow it. After a time the cormorant raised itself in the water, flapping its wings vigorously, as though to help it pack away its heavy repast, and then rose heavily and winged its way upstream."

#### Simple Transaction.

"I like de 'pearance o' dat turkey mighty well," said Mr. Johnson after a long and wistful study of the bird. The dusky marketman seemed strangely deaf.

"How could 1- What arrangements could a pusson make dat wanted to buy dat turkey?" Mr. Johnson asked after a pause.

"Easy terms 'nough," said the marketman briskly. "You get him by means o' a note o' hand." "A note o' hand," repeated Mr. Johnson, brightening up at once. "Do you mean I writes it out and pays some time when"- But his hope in this glorious prospect was rudely shattered by the marketman.

"A note o' hand means in dis case." he said, with disheartening clearness. "dat you hands me a two dollar note. Mr. Johnson, and I hands you de turkey in response to dat note."

Color Blindness.

One thing is definitely shown by the tests that have been made for color ndness in various races-no race, however primitive, has been discovered in which red-green blindness was the universal or general condition, and this is a fact of some interest in connection with the physiology of color vision, for it seems probable that redgreen blindness since it is not by any means a diseased condition represents a reversion to a more primitive state of the color sense. If this is so no race of men remains in the primitive stages of the evolution of the color sense. The levelopment of a color sense substantially to the condition in which we have it was probably a prehuman achievement.-Professor R. S. Wood-

The Voracious Cormorant. How a cormorant dives for sea trout and gets them is told by a writer: "I had the cormorant under observation only for the space of four or five minutes, and during that short period
