Hoodwinking Clergymen

When a small clique of men put up a scheme to harness the clergy of America and induce the ministers to turn "hitch up" the members of the churches, we should all take notice.

They couldn't harness the preachers in a bad cause except by deceiving them.

Ministers of the gospel are essentially and fundamentally honest but like all men who work for the public good, they are at times misled by false statements.

Trust them when they have exact truth to speak from.

Now for the story which should interest every one for we are all either receivers of wages or we pay to wage earners and the freedom of each individual is at issue.

In various papers the following statement has been printed. Read it carefully at least twice.

"Interest in Labor Sunday.

"Labor Sunday—the Sunday preceding Labor day—will be observed generally this year and in future years throughout the United States. This because of the American Federation of Labor declaration for the observance of that day.

The numerous letters recently received at American Federation of Labor headquarters from ministers is an assurance that interest in the idea of giving special attention to the cause of labor from the pulpit one day in the twelve months is discussed the better will of the day.

Various methods are used to "induce" workers to join. First, they talk of the "tyranny of capital" making slaves of workmen.

Then they work up enthusiasm about the "brotherhood of man" and other talk which excites the emotions of workmen and they are induced to join and pay fees to the leaders.

The 5000 workmen in Battle Creek are as free, free from the dictates of the great Labor Trust and still get the highest wages in Michigan.

But the managers of the American Federation of Labor have worked hard and long to harness them.

The trust has sent small hales of money and laid winter 18 "organizers" to tie up Battle Creek. They hired halls, gave picture shows, smokers, etc., as an investment, looking to rich returns when they succeeded in having the trust to tie up Battle Creek.

But they failed and the last of these "organizers" left Battle Creek on May 1st saying "it's no use."

The workmen knew the record of this great trust and formed their own association to protect their rights and also to protect them from the big Labor Trust.

In Philadelphia some 4000 independent street car men who mainly had families, had their own union and refused to join the big trust, preferring to be free to work or not as they pleased.

But the trust planned to force them into the free-paying ranks, so a strike was ordered to compel the traction company to kick out these men and hire only Labor Trust members.

It was not a question of wages or hours but to push the free men out of their positions where they were earning good money to support their families. The strike was ordered, not to raise wages or reduce hours, remember, but solely to throw out members of an independent union and make places only for Labor Trust members.

There is seldom a day passes but somewhere in our country from one to a score of our fellow men are assaulted or murdered by members of this band.

Then remember the homes blown up or burned. The families hounded, the rioting, burning of street cars, wrecking of trains and attempted or successful killing of passengers.

The general disturbance of industry and the thousands of dollars forced from tax payers to pay extra police, sheriffs and militia to protect, even in a feeble way, the citizens from the mobs of members of the American Federation of Labor.

Then you will realize why the great peace-loving majority of over 80 million Americans protest against the growth of this crime-tainted organization comprising perhaps one and one-half million men, of which it is estimated at least seven-tenths are peace-loving citizens and are members by conviction and are not in sympathy with the three-tenths who have gained control and force their methods.

We find that a few designing men have seized control of the American Federation of Labor, just as some show capitalist has secured control of some railroads and other interests and are now twisting and turning them into machines for personal profit and fame.

These men cunningly plan to force workmen to join and pay 25 to 75 cents a month in fees.

Various methods are used to "induce" workers to join. First, they talk of the "tyranny of capital" making slaves of workmen.

Then they work up enthusiasm about the "brotherhood of man" and other talk which excites the emotions of workmen and they are induced to join and pay fees to the leaders.

The 5000 workmen in Battle Creek are as free, free from the dictates of the great Labor Trust and still get the highest wages in Michigan.

But they yielded to the smooth talk of the agents of the trust and joined, they would pay in fees from \$125.00 to \$250.00 a month to the big trust and be subject to strike orders any time.

Now they have that and put the money into homes and family comforts.

But the managers of the American Federation of Labor have worked hard and long to harness them.

The trust has sent small hales of money and laid winter 18 "organizers" to tie up Battle Creek. They hired halls, gave picture shows, smokers, etc., as an investment, looking to rich returns when they succeeded in having the trust to tie up Battle Creek.

But they failed and the last of these "organizers" left Battle Creek on May 1st saying "it's no use."

each morning! It's meat and bread to their souls.

Then think of the lordly power, and don't forget the steady flow of money squeezed from the workman's hard earned pay envelope.

But when these leaders "lie up" any industry no man can hold a job who refuses to pay fines even on trumped up charges and steadily pay fees whatever they are.

The workman is absolutely at the mercy of this band of men who have secured and hold control.

Many and many an honest workman has raised his voice and appealed to his fellow to rise and throw off the yoke of Gompers, et al. But, as one writes, "At every convention of the American Federation of Labor, strong opposition comes up but at the critical moment the impassioned orator appears and most dramatically puts the spotlight on the leaders and covers him with a mask of 'martyrdom' and the emotional delegates yell in delight, forgetting the instructions of the peaceful workmen at home who desire to free themselves from the odium of membership under the great advocate of strike, boycott, violence and hate."

So we see the unequalled insolence with which these trust leaders propose to "induce" ministers to pull their chestnuts from the fire by preaching modern aggressive and violent labor trust methods.

There is a better way to secure justice for workers, as will appear further along.

Just a little diversion here. I am charged with having first brought to the attention of the public some years ago, the name "Labor Trust."

A trust is a combination of men or organizations for the purpose of selling their product at a profit and restricting production to effect it.

We will say a large Oil Company gathers in smaller ones and thus controls production.

The Labor Trust "gathers in" local trade organizations and thus has power to say how much work each man shall do.

The Oil Company then fixes prices. The Labor Trust does likewise.

The Oil Company may "use methods" to force an unwilling dealer to join.

The Labor Trust men go further and slug the independent man if he tries to sell his labor without paying fees and "obeying orders." They are both exactly alike in purpose, which, in both cases is entirely to force to gain power and money for the leaders.

Certain Labor Trust members do not hesitate to use violence, dynamiting of property, burning homes of independent men and even murder to force obedience.

The Oil Company doesn't go so far. Both are extremely dangerous to the welfare of people and communities, for power placed in the hands of a few men either representing Capital or Labor is almost always abused against the public.

Remember, reader, that your safety lies in strenuous opposition to all trusts which try to ride over and divide the people.

Only by opposing their growth can you retain your personal liberty.

stroyed, men murdered and the long list of atrocities practised by Labor Trust members on other human beings who cannot agree with the trust.

Now for the better way. Workmen are now organizing in the old fashioned trades union or "guild" way, affiliated with the National Trades and Workers Association, whose constitution provides arbitration of differences with agreement for no strikes, boycott, picketing or hateful coercion of any kind.

This Trade Association has evolved from the experience of the past and is the highest order of Trades Unionism at the present day.

Under its laws it is not possible for the Hod Carriers Union or the Street Sweepers Union to order the school teachers or locomotive engineers to quit work in a "sympathetic strike."

If any craft finds injustice, the case is presented to properly selected arbitrators by a postal request for arbitration and by-laws written and presented to the public through the press. Thereupon public opinion, that greatest of all powers, makes itself felt and curiously enough a fair settlement is generally the result.

There is no strike, no loss of wages, no loss to the community and yet the faithful workers get their just treatment.

There are many details which have been worked out by men skilled in labor matters.

It will recompense any interested man to know these details which can be secured by a postal request for constitution and by-laws written and presented to the public through the press. Thereupon public opinion, that greatest of all powers, makes itself felt and curiously enough a fair settlement is generally the result.

I became so favorably impressed with the trustworthiness and practicability of the leaders of this new labor movement that I gave the Association a sanatorium at Battle Creek worth about \$400,000 and with about 200 rooms to be used as a home for their old members and the helpless babies, sometimes made fatherless by the pistol, club or boot heel of some member of the violent "Labor Trust."

Suppose you attend church Labor Sunday and hear what your minister has to say in defense of the safety and rights of the common, everyday man.

Let me ask you to read again a portion of one of my public articles printed a few years ago.

"The people of the world have given me money enough to spend in three times as long as I am now trying to make better and safer conditions for the common people, whether the Postum business runs or not.

Scores of letters have come to me from work-people and others, some from union men recounting their sufferings from union domination and urging that their cause be laid before the public.

It will not answer for us to only sympathize with the poor, the oppressed, those who haven't power enough to drive off tyrants and release oppression, we must help them in the hands of the oppressors. Americans must act.

Some of my forebears in New England left comfortable homes, took with them the old flint locks, slept on the ground in rain and frost, hungry, footsore, and half clothed they grimly pushed on where the Eternal God of human Liberty urged them, they were for me and for you a mantle of freedom, woven in a loom where the shuttles were cannon balls and bullets and where swords were used to pick out the tangles in the yarn.

These old, sturdy granddads of ours stood by that loom until the mantle was finished, then, stained with their life blood it was handed down to us. Shall I refuse to bear it on my shoulders because the wearing costs me a few dollars, and are you cowards enough to hide yours because some green labor union anarchist orders you to strip it off?
